A lad named Boardley of Silver Creek was relieved of 80 feet of tape worm by Dr. Martyn & Schug. This must be quite a country for that kind of animal product. We hear of one very corpulent man who is the owner of a tape but fears to kill it, lest he becomes still more corpulent in consequence.

At the last re-union G. W. Kibler of this county met an old comrade, John Reed, now living in Douglas county, whom he had not seen since he carried him off the battle field at Jonesboro, eight miles from Atlanta, on the Macon railroad, wounded while tearing up the track, so wounded that he couldn't help himself. The meeting was a very cordial one on both sides, and many an incident of march and battle and camp was rehearsed.

The Omaha Republican says that a company with a capital stock of \$20,000 has been formed in Omaha for the purpose of sinking a shaft to the depth of 3,000 feet, with a view to obtaining either coal, gas or oil, and, it possible, of thus settling the question of cheap fuel in Omaha. Arrangements have been made with W. M. Martin, of Findlay, Ohio, to take charge of the enterprise and put down the hole. Something similar to this would be a most excellent thing for Columbus.

The county running race at the fair last week was interesting and very closely contested between May Morning owned by F. S. Griffin, Sleepy Charley owned by Wm. May Morning is sired by Allen Percy, Hambletonian, and is the first one of the Percy colts that we have seen tried on the track. NEW U. P. DEPOT.

Coal Chutes—Two Long-Felt Wanted to be Fully Installed.

A force of masons is at hand, under the supervision of a very capable man, Mr. S. I. Jeter, to erect the new depot here, and the coal chutes, both of which structures have long been badly needed for the better transaction of the company's business at this point.

The depot is to be located between Eleventh and Twelfth streets, between Olive and North, and also between the main track and that of the Omaha, Niobrara & Black Hills Railroad.

It is to be of stone, with pressed-brick and red sand-stone trimmings. It will be 97 ft. 2 in. long, and 34 ft. 2 in. wide. The circular end will face east, and a bay window on the south side, facing the main track. This part of the structure will be 38 ft. 8 in. wide.

The building will be a handsome one, in appearance resembling the one just completed at Valley. Mr. Jeter thinks that if the material arrives as needed, the building will be enclosed this month.

At the same time work will go forward on the coal chutes, the plans for which we have not yet seen; we learn that these will be sufficient to supply the increasing demands of the main and branch roads for years, and consequently they must be of ample capacity, and with all the appliances for the quick loading and unloading of large quantities of coal. This structure will be located near the Company's water tank.

O. L. Baker has the contract for grading tracks for switches west of the present depot, and both north and south of the main track, so we infer that the yard is to be removed thither.

We hope these are but the beginning of a long series of improvements here by the Union Pacific Company. Their business on the branch lines to Norfolk, to Albion, to Fullerton and Cedar Rapids, all radiating at this point, has grown beyond all expectation in the time since these lines were constructed, and the outlook for the years to come is equally good, so that, with the settlement of the country and the capacity of the tributary region for farm products, almost doubling each year, it becomes an easy problem to figure the great importance of this city as a railroad center in the near future.

Let every man put his shoulder to the wheel, make all the improvements he possibly can; let our capitalists, our building associations, and all who can borrow money at a living rate, put up dwelling-houses and business houses, because there will be use for all of them. Keep the ball in motion.

The Fair.

The Fair last week was undoubtedly the best ever held in the county, the exhibits being very full in nearly all departments. We note some of the more salient features.

John Wurdemann and Geo. Randall had good displays of sheep.

As to hogs, the breeds represented were, Berkshire, Poland China and Jersey Red, J. N. Taylor taking the bulk of the prizes. Special mention must be made of an unusually large and fine boar exhibited by Tobias Bauer.

Cattle were well represented from the herds of Winslow, Sheldon and Gleason, J. N. Taylor and S. O. Raymond, with a fine lot of grades from W. H. Randall and J. N. Taylor.

The entries of horses in all classes were unusually good, including animals belonging to Jos. Gardener of Nance county, Jas. Haney, J. N. Taylor, A. Sullivan of Colfax county, Nathaniel Rice, R. H. Henry and Jas. Soullier.

In roadsters, S. O. Raymond's name is conspicuous on the list, he getting all the awards but one which went to Michael Savage.

In the exhibit by Boys and Girls, of saddle ponies, premiums ranging from \$5 down to 25 cents, as follows: to Eva Clark, Chas. Stillman, Chas. Raymond, Mollie North, Lee O'Donnell, Elsie Morse, Earl Pearsall, Harry Ames, Jno Huber, jr.

The fine specimens of poultry were exhibited by Pearsall, Roushon, Randall and S. O. Raymond.

Ten prizes on root products were captured by G. W. Stevens and R. W. Teother, also twelve premiums on vegetables.

On corn there were 11 entries, Geo. Scheidel and Herman Backenhus taking 1st and 2d premiums on white ear.

Mrs. M. Brugger took a premium on 5 lbs. of honey.

Mrs. J. N. Heister had a display of 300 lbs. of white comb honey, which would have been a credit to any county, state or national exhibit in the world. One wishing to become conversant with the art of bee-culture could here see all the latest appliances used in the business, such as smokers, surplus foundations, empty frames, latest patent devices for caging the queen bees, drone excluders, honey extractors, etc.

In the women's department was a multitude of articles manufactured and used by the ladies, and entirely "too numerous to mention." Andrew Mattie had the first and only display of dried apples ever made by Platte county, and we noticed Mrs. W. A. McAllister's name conspicuous on the award list for jellies, preserves, etc., she also taking 1st premium and the JOURNAL's special premium on bread (hop rising). Mrs. Wm. Thurston getting the same for bread (salt rising).

On cakes we notice the names of Mrs. Wm. Thurston, Miss Ella Wells, Miss Alice Plumb.

In the exhibit by schools, Dist. 10

took two prizes, while Clara Lehman gets the Fitzpatrick gold pen.

The business men with, in all classes, nice displays in their line, were C. E. Pollock & Co., Krause, Lubker & Welch, Friedhof & Co., C. & L. Kramer, C. B. Still man, Bettcher & Kersenbrock, Lewis Schreiber, Laers & Schaffroth, the Flouring Mills, etc. Gen'l. Sup. S. O. Raymond, Treas. John Stauffer and the gate-keepers, Taylor and Wallace, did their work in excellent shape, but the bulk of the actual work done, in making preparations and looking after everything fell upon the industrious Secretary, John G. Roushon, with a good counsel; back of him, R. H. Henry.

Further particulars we give next week.

The entire receipts were \$1,147. The weather was all that could be desired, and hereafter there will be probably no question of success, as interest is increasing in Platte Co.

Mr. and Mrs. John Sailer of Illinois are visiting their daughter, Mrs. Alfred Peterson. They like this country, with the exception of its lack of fuel, but think that can be remedied in a short time if every farmer would plant a few acres of forest trees, as it is much easier to make a timber farm out of prairie, than prairie out of a timbered farm.
