

Entered at the Postoffice, Columbus, Neb., as second class matter.

JOHN LAUER, of Omaha, was put on trial again last week for the murder of his wife.

News comes from Paris that France and Mexico have concluded a treaty of commerce.

The validity of the election of the lieutenant governor of Indiana is about to be tested in the courts.

Copper ore has been discovered near Marion, Mo. It was found by a Mr. Watkins while digging a well.

Hon. JOHN M. GLOVER's seat in the Fifteenth congress from the St. Louis district will be contested by Nathan Franks.

ELIZA BETHUNE, widow of General Bethune, late manager of Blind Tom, has been appointed guardian of his person and estate.

A REPORT from London states that thirty men were instantly killed by an explosion in Lemore colliery in Durham on the 2d.

Mrs. ANN PARK, the widow of Gen. John Pope, who recently died at Nashville Tenn., has left \$30,000 to Presbyterian churches.

A CUT rate has been inaugurated by the Washab, between St. Louis and New York, which bids fair to assume immense proportions.

THE other day two hundred and sixty men were discharged from the department of construction and repair in the Brooklyn navy yard.

NORFOLK, Neb., has organized a board of trade and starts with 103 members. The organization will doubtless be of great benefit to the city.

A SLIGHT shock of earthquake was felt the other morning by the citizens of Van Wert, O. Many people ran out of their houses, so perceptible was the shock.

An exchange says—An editor in acknowledging the gift of a peck of onions from a subscriber, said, "It is such kindness as this that brings tears to our eyes."

A REPORT comes from Denver that two miners, M. and W. Howe, lost their way between Ten Mile and Red Cliff and were badly frozen. W. Howe will lose both feet.

THE rail pouch stolen last summer between New York, Pittsburg and Indianapolis, and valued at \$100,000, has not yet been found, and the search has been abandoned.

FRANK RUMMEL was arrested the other day at Hastings, charged with having set fire to the high school building. It is claimed that the evidence against him is strong.

JOSEPH BEINCKER of Denver, Col., died at his residence in that city on the 30th ult. He was of fine literary taste and intellectual acquirements and was a very prominent educator.

JOHN SCHULTZ, living near Wiener, Neb., was smothered to death by gas while repairing his well, thirty-two feet deep. He leaves a wife and five children with a large estate in lands and chattels.

JOSEPH KELLER and family, of Clinton, Wis., were chloroformed by burglars the other night. The thieves secured \$25 in cash and about \$300 worth in goods, which they carried off in a wagon.

DEAN & BARKER'S hardware store, E. B. Zimmerman's dry goods store, Miss McCarty's millinery store and three meat markets were burned the other night in Lyons. How the fire originated is unknown.

MR. FRANK KEARNEY, of Reading, Pa., was arrested the other day charged with killing his wife by suffocation and then setting fire to the house to destroy her body. He will be tried for homicide and arson.

GEORGE HAZLETT and Miss Sadie Allen, a girl of eighteen years, went through the foolish fete of going over the Niagara rapids and whirlpool safely, the other afternoon, in a torpedo-shaped barrel, used by Hazlett and Potts last summer.

OFFICIAL returns from two remote counties in Washington Territory and these make the legislature republican on joint ballot by two majority. The official vote on delegate shows Chas. S. Voorhes (dem.) elected.

The members of the geological survey staff report from Ottawa, Ont., that the coal deposits on the Saskatchewan regions, the coal supply in the northwest is absolutely inexhaustible. The whole district lying between the Rocky mountains and the foot hills, is one vast series of coal beds, both hard and soft, of best quality.

The policy of co-ercion is to prevail in Ireland. At Sligo meetings of Irish men have been dispersed by the bayonet or club. At Ballinagaderia, John Dillon was defiant, and urged the people to stand firm for fair rents and free homes. James O'Kelly writes that within a few weeks they will be in the midst of the conflict, and that with the sympathy of half the English people landlordism must die.

Two gangs of burglars are working up Topeka, Kas., the last few weeks. They captured one of the police the other night, tied a rope around his head with a knot in his mouth. His hands were tied behind him and his feet drawn up and tied to his hands. In this condition he was placed near the ice, where he laid for three hours and was almost frozen. The burglars then blew open the safe door and secured \$300 or \$400 in cash. They came on horses and rode away.

More Politicians.

It will be the endeavor of the partisan democrats in the legislature to divide republican forces as much as possible, without special reference to the welfare of the state, and its interests in the national legislature. This they already see can best be done by defeating, if possible, the reelection of Senator Van Wyck. No heavier blow could, at this time, be struck at the republican party of Nebraska. Not simply because of the personality of Mr. Van Wyck—it is not merely a personal matter; it is not merely sentimental; Van Wyck's sentiments are known, and his fearless declaration of them in the United States Senate are appreciated. The people of Nebraska believe that if re-elected he would continue on as he has begun, and that would be generally satisfactory. More politicians are not, any more, satisfactory. They represent nothing but their own groats. They are solicitous for nothing but how they shall feather their own nests. Public interests, with them, are secondary to private interests. This class of men, in either party, as a rule are utterly opposed to Van Wyck, and would rather see a subservient man elected, one who would be as clay in the hands of the potter. What the public service most needs at all times is officials who are capable, honest and fearless, and those who are thus can rest assured of the people's favor and the politician's frown.

Trouble in Pennsylvania. It is said that during the past month no less than a dozen brutal and mysterious murders have been committed under peculiar circumstances that denote Molly Maguire agency in their commission. The police say the organization is as strong as ever. Miners themselves, it is generally agreed, have nothing to do with the lawlessness prevalent in the mining regions. The objective point of attack seems to be the perishable property of mining companies, \$500,000 worth of buildings having already been destroyed. At Brander's mine, the engineer was murdered, his body thrown into the furnace room and burned nearly past recognition. So say the daily dispatches from Harrisburg Nov. 30.

S. H. H. CLARK, of Omaha, has been appointed successor to the late H. M. Hoxie, as First Vice President and General Manager of the Missouri Pacific R. R. Mr. Clark has resided for the past twenty years at Omaha, and during eighteen years of that time has been officially connected with the Union Pacific R. R. Mr. Clark is held in very high esteem among his friends in Omaha, and they say the only thing to be regretted about his appointment is the fact that it will probably take him away from Omaha.

A REPORT comes from Wilkesbarre, Pa., the other morning of an explosion of gas in a worked out chamber of the Conyngham shaft, owned and operated by the Delaware & Hudson Company, injuring thirty miners. Fifteen of the number will probably die and others will be scarred and maimed for life. The accident was caused by a miner entering the chamber with a lighted lamp on his hat.

The Iowa state superintendent of schools has taken a new way and a sensible way, of finding out the needs of the schools. He visits the schools themselves and says that the few visits he has made have been of the greatest practical value to him, and will enable him to make recommendations, the necessity of which he could not have realized otherwise than by personal observation.

GEN. JOS. E. JOHNSON, commissioner of railroads, has filed his annual report with the Secretary of the Interior, in which he has this to say of the Union Pacific—that he "found the track, bridges, cutovers, etc., of the company in excellent condition; the ties well leveled and the rails (steel) accurately and firmly laid, constituting this a first class road and proving the efficiency of the present management."

Hard coal is to go up—soft coal is to go up, according to dispatches from the east, owing to the manipulation of the railroads and mining companies. Pile it on heavy and heavier, until the attention of every independent man in the country is riveted to the subject, and probably something can be done by the people, who will rapidly learn the men who can be relied upon to stand for them in the halls of legislation.

We learn from the signal office that the cold wave that passed over the country last week extended from the upper lakes to the Gulf, and from the Rocky Mountains to the Atlantic. The point of origin in the United States was in the northwest, and has maintained a southwesterly course. Thermometer at Washington was 17° and in northern Minnesota it was 20° below zero.

J. L. HUTCHENSON, architect and superintendent, at York, Neb., was visiting some time ago in Lincoln, and while there was robbed of his pocket-book, containing \$50, a \$6 check, about \$700 in notes and an annual pass of the B. & M. road. The thief took the money and threw the pocket-book into an alley where it was found and returned to the owner.

PRESIDENT CLEVELAND is said to be so superstitious that he will not enter the depot in which Garfield received his death wound, and it has been noticed that he will not walk under the black draping on the White House as tokens of mourning for Arthur. If the president be as superstitious as all this, he must have had a cold perspiration when he read the late election returns.—Omaha Republican.

A BIG DISCOVERY.

Discovery of a Large Vein of Nickel Substance in Dakota. RAPID CITY, Dak., Nov. 28. — A discovery likely to prove of considerable value has just been made public. It relates to existence of a deposit of nickel a few miles south-west of here, a record of which was filed yesterday with the register of deeds of this county. The out-crop is over 3,000 feet in length and shows a vein fully twenty feet in thickness. Numerous assays have been made, and all who have tested the ore pronounce it slightly richer than that mined at the Lancaster Gap mine in Pennsylvania, which now furnishes the total product of this country. The discovery has excited a good deal of interest among those familiar with mining.—Omaha Herald Special.

Political Opinion. Nebraska's noted senator is the only republican in that body who dare to advocate just principles, and there is noble Beck on the democratic side who is bold enough to denounce wrong in his own party. These two men will be defeated if corporate power backed up by money can accomplish the game, over the wish of the people. There is no mistake as to whom the choice of the people is, and if the republicans of Nebraska ignore the farmers and other toilers of the state by defeating their choice for senator, then we are free to predict that the republican party will never carry the state again.—Arlington Defender.

News Notes. HOLT county has twelve newspapers, Custer county fourteen.

It is reported that coal has been struck at Brownville, Neb.

E. J. RORERICK, while boring a well near Blue Springs, at a depth of 110 feet struck a white stone supposed to be marble.

GEN. ROBERTS has demanded 4,000 additional Indian and native troops to reinforce the British army of occupation in Burma.

Shocks of earthquake were felt at Summerville, S. C., on the night of last inst. There was a severe shock at Columbia, S. C., on the morning of the 2d. No damage reported.

GREAT excitement prevails at Oklahoma, Ark., on account of the discovery of gold, which is said to have been found in paying quantities. It takes gold to move business briskly.

SEVERAL new cases of typhoid fever were reported last week at Grand Island. A number of deaths have occurred from the disease, and it is feared it will take an epidemic form.

JOHN W. LAUER'S case for murder of his wife at Omaha, has unexpectedly been continued to the next term of court on account of the absence of an important witness on the part of the state.

FRANK A. BIDWELL, and G. W. VENNUN, of Jamestown, Dak., have been directed by the Secretary of the Interior to be no longer recognized as attorneys or agents before the Interior Department, or any bureau or office connected therewith.

JOHN McFARLAND, living near Syracuse, Neb., while sinking a well, at the depth of sixty or seventy feet went through a vein of slate and what is believed to be pure coal, about the same formation as at Omaha.

The decrease in the national debt for November, will be not more than \$1,000,000. It is stated that the small amount of the reduction is principally due to the fact that nearly \$14,000,000 were paid during the month for pensions alone.

HENRY GILMER, one of the chief witnesses against the anarchists, was shot at the other night at his doorway in Chicago. The shot was fired at a distance of less than ten feet, and the assassin's precavity was the only thing that saved Gilmer's life.

An attempt was made the other night to wreck the way freight on the B. & M. road near Tomora, Neb., by placing rails and ties on the track. The dreadful catastrophe was averted by a farmer who, noticing the obstructions, gave signals to the approaching train with his lantern.

MACKENDORFF'S long store building at Mason, Neb., with the contents, was entirely destroyed by fire Tuesday night of last week and J. J. Hongland, Malcolm Miller and a son of Mr. Mackendrorff were burned to death. The second floor was used as sleeping rooms. Mr. M. escaped by jumping, but broke his leg.

This sentiment against grinding monopolies of all kinds that take undue advantage of the public by combinations which inflate prices of the necessities of life, is growing stronger every day. If the unconscionable greed of these blood-suckers is not quickly moderated, this country is destined to see terrible times.

PATENTS granted to the citizens of Nebraska during the past week and reported expressly for the JOURNAL, by C. A. Snow & Co., patent lawyers, Washington D. C.: W. A. Carpenter, Sutton, for transportation cans, J. K. Sangle, Hastings, motor, G. Tope, Geneva, hair tonic, R. Shipman, Grand Island, sliding door lock.

Frightful disasters have recently happened at sea and on the lakes, and many deaths have been reported. In the loss of the steamship Western Land, reported from Jersey City, six men killed and thirteen seriously injured. It is reported that the steamship Chaudenager with 1,200 French troops on board (sundered during a cyclone and all hands lost. This report comes from Algiers.

Synopsis of the Proceedings of the Board of Supervisors.

TUESDAY, Nov. 26th, 1886.

Board met pursuant to adjournment. Chairman North presiding, assistant, Clerk, Roll called and all present but Supervisors Kierman, Terwilliger and T. C. Cain made application for the appointment of appraisers for purposes of sale of falls wagon school land. Said appraisers, to wit: J. W. J. of sec. 24, town 19 range 3 W., running thence N. 7/8 W. to the north line thereof. Edward appointed Supervisors Maher, Duddy and Burke as such appraisers.

W. H. Roberts appeared before the board requesting aid for expenses incurred by him and his wife in the purchase of land left in his charge several weeks ago by a non-resident. On motion claimant requested to file a statement of his claim with the board.

In the matter of the re-location of a part of a public road known as the "Main road" commencing at east line of sec. 24, town 19 range 3 W., running thence N. 7/8 W. to the north line thereof. On motion of Supervisor Maher, the resolution of Supervisor Duddy to bridge over said road was accepted and the road declared duly located as petitioned for.

On motion of Supervisor Maher, the report of the appraisers was accepted and the road declared duly located as petitioned for.

On motion of Supervisor Duddy, Lost Creek township was sub-divided into three sections, to wit: Section 24, 25 and 26.

On motion of Supervisor Maher, the report of the appraisers was accepted and the road declared duly located as petitioned for.

On motion of Supervisor Maher, the report of the appraisers was accepted and the road declared duly located as petitioned for.

The Chicago Mail.

The Chicago Mail is edited by ex-Postmaster-General Hutton and Clinton A. Snowden. They have made it a magnificent daily for the busy reader, and their best stroke of enterprise was in reducing the price of the daily Mail to \$2.50 per annum. We have made special arrangements with the Chicago Mail whereby we are enabled to send that paper, together with the COLUMBUS JOURNAL for the extraordinary low price of \$1.25. This brings the Mail at a lower price than the subscriber can get it direct from the publishers. Send in your subscriptions now and have the Mail sent to you regularly, together with the JOURNAL. The price is so low that everybody can afford to take their home paper and a Chicago daily at the same time. —31-21

COLUMBUS MARKETS.

Our quotations of the markets are obtained Tuesday afternoon and are correct and reliable at the time.

Table with columns for GRAIN, AC., and various commodities like Wheat, Corn, Oats, etc. with their respective prices.

As to Senator Van Wyck, what makes Mr. Pierce laugh at him? Is it possible that the Senator has interfered with some scheme in that part of the far west?

ADDITIONAL LOCAL.

District 44 and vicinity. School is progressing finely, with the same old reliable Mr. Manahan, birch in hand. Large boys nearly all enlisted since the blizzard, in consequence of the snow blockade in the corn fields.

At a recent meeting of the town board, a bill was presented for payment amounting to \$225 for a bridge saw, gotten by Road overseer Randall and it is said one member opposed the bill in a lengthy argument under the impression that it was a beet saw, gotten for the purpose of sawing meat.

The bridge that has stood for the past year in the middle of a lake one half mile south of Reed's school house has an excellent grade to the banks on either side, and judging from the number of teams that pass over it every day, the handiwork of Thomas Reagan is being appreciated. Mr. Reagan did the work by contract.

Terpsichore was honored last Monday night at the new residence of P. S. Griffin, the dancers wending their way homeward after the wee sma' hours.

Colfax County. [From the Quill] The U. P. has gangs grading on both sides of Clarkson. That Clarkson will be one of the railroad points is now a settled matter.

Miss Mary Murphy, daughter of Patrick Murphy, went to Columbus on Monday of this week where she will attend the Sisters' school.

John Craig and family returned from their visit to Calif., Ohio, last week. John brought with him a fine car load of stock which he bought at a stock sale in Kentucky. The load consists of seven thoroughbred horses and a number of cattle.

We are informed that Frank Waterhouse and Mrs. Ida B. Stevens went to Council Bluffs yesterday and were united in the bonds of holy matrimony. Mrs. Stevens was only divorced from her husband at the last term of the district court and according to the law of Nebraska she would have to remain single six months, but Iowa was near where the law was different, hence the marriage abroad.

Don't hawk, hawk, and blow, blow, dig-nig-tin everybody, but use Dr. Sage's Catarrh Remedy.

A TABLE ROCK man has sent 1500 dozen of eggs to New York.

Black Wolf. Or Black Leprosy, is a disease which is considered incurable, but it has yielded to the curative powers of Swift's Specific — now known all over the world as S. S. S. Mrs. Bailey, of West Somerville, Mass., near Boston, was attacked several years ago with this hideous black eruption, and was treated by the best medical talent, who could only say the disease was a species of LEPROSY and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, the flesh rotted off and leaving great cavities. Her fingers festered and several nails dropped off at one time. Her limbs contracted under the fearful ulceration, and for years she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Some faint idea of her condition can be gleaned from the fact that three pounds of Cosmo-line or ointment was used per week in dressing her sores. Finally the physicians acknowledged their defeat by this Black Wolf, and commended the sufferer to her all-wise Creator.

Her husband bearing wonderful reports of Swift's Specific (S. S. S.), prevailed on her to try it as a last resort. She began its use under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Bailey continued the S. S. S. until last February; every sore was healed; she discarded chair and crutches, and for the first time in 12 years was a well woman. Her husband, Mr. C. A. Bailey, is in business at 17 1/2 Blackstone Street, Boston, and will take pleasure in giving the details of this wonderful cure. Send to us for Treatise on Blood and Skin Diseases, mailed free.

The Swift Specific Co., Drawer 3, Atlanta, Ga. Treatise on Blood and Skin Diseases mailed free.
