Columbus Schools.

It is an interesting as well as a pleasant fact to notice the intellectual development made under our present school management. Both in organization and method of instruction our schools stand unexcelled in the state. Our citizens feel a justifiable pride in the matter. There is now no reason why any of our children should be sent away from home, at considerable risk, and great expense, for that which may be had at home. The Superintendent has succeeded well in developing a simple system, free from red tape, and modeled on our own local wants and needs. It is a system for Columbus, and not a mere copy of the usual machine work, which is the base of the graded system. He is now at work on the literary and business course, which will, hereafter, replace to some extent, the higher mathematical and theoretical science.

—Rev. J. W. Little and family removed to Table Rock, Neb., next week. In the five years of Mr. Little's pastorate in this county (Columbus and Lost Creek) one hundred and thirty-six members have been added to the church. Both congregations have good houses, and are, we understand, out of debt. Mr. Little's work has been pretty arduous at times, preaching twice a day at Columbus, and once a day at Lost Creek every alternate Sunday regularly, and often every Sunday. Mr. and Mrs. Little and family will leave many warm friends to regret their going.
