Untold Sufferings-A Ten Years' Experience

NEAR BROWNWOOD, Ga., Dec. 6, 1886.

GENTLEMEN: For ten years I have had tumor. During that time I have been under treatment of the best physicians in Atlanta, Ga., and Utica, N. Y., none of whom were able to give relief or assurance of cure. Then I turned to the use of patent medicines, several of which I used to no avail. My doctor in Dawson, who had attended me for twenty years assured me that I-could not live year. About two years ago I began using S. S. S., and at once my tumor yielded to its influence; it grew softer and smaller, and my general health which was badly run down, was built up with the decrease of the tumor. Finally felt so well and my general health was so good, that I stopped the Swift Specific, and went on performing my household duties. But, of course, as I had persisted in the use of the medicine until the tumor had entirely disappeared, I could only look for a return of the ailment. Again I resorted to the use of Swift's Specific, with the same happy resuit as on the first occasion. This has been repeated several times within the last two years, the medicine never failed to reduce the tumor and build up my general system. When I first began to take the Specific, I for hours on retiring. I felt that if I just held my feet still for a few minutes by force of will, that it would have thrown me into convulsions. That nervousness the S. S. S. entirely cured. My pain was so great my physician urged me to keep under the influence of mor phine all the time, and to abandon hope for recovery. When I began the use of time, a helpless invalid. This year have been able to do my own cooking. except when I was down with a severe MRS. M. E. SASSER. Treatise on Blood and Skin Disease mailed free. The Swift Specific Co., Drawer 3, At-

An Ordinance.

n ordinance concerning the water works of the City of Columbus, Nebraska, regulating and governing the same, establishing water rates, rules and regulations for the government of water consumers, plumbers and others, and to protect said water works, including pipes, and other apparatus from injury, and providing penalties. Be it ordained by the Mayor and

Sec. 1. That the rules, regulations and water part of the contract with every person, company or corporation, who is supplied with water through the waterworks of the City, and every such person, company or corporation by taking water shall be considered and held to consent to upon such other terms as the said water com-missioner shall determine and a satisfactory such violation the water commissioner shall have the right to declare any payment made for the

water commissioner upon blanks to be furnished by him for that purpose. The application must state truly and fully all the uses to which the water is to be applied, and no different or ad-ditional use will be allowed except by permis-sion of said company. Not more than one house shall be supplied from one tap, except by special Sec. 3. All rates except for meters and build

advance, on the first day of May and November in each year. Rents and rates for building pur-poses will be payable on demand. Where water is measured by a meter, bills must be paid monthly, the amount of water used will de-termine the price payable each month. Ten per cent, will be added if the rent is not paid within ten dive after the same becomes the and all one. Sec. 4. Water will not be turned into an

have paid the rent due for the current term; and plumbers are strictly prohibited from turning the water into any service pipe except on the order or permission of the water commissioner or his duly authorized agent. This rule shall

the premises, for alteration, extension or attach-ment without permission of the water commis-

Sec. 8. All house boilers shall be constructed with one or more air holes near the top of the inlet pipe, and sufficiently strong to bear the pressure of the atmosphere under vacuum, the stop-cocks and other apartenances must be sufficiently strong to bear the pressure and run off the water in the mains. All persons taking the water shall keep their own service pipes, stop-cocks and apparatus in good repair, and protect it from frost at their own risk and expense, and shall provent all unnecessary waste of water; and it from frost at their own risk and expense, and shall prevent all unnecessary waste of water; and it is expressly stipulated by said City and water commissioner that no claim shall be made against them or either of them by reason of breaking of any service cock, or if from any cause the supply of water should fail or from damage arising from shutting off water to repair

where only one stop is used, the person or per-sons controlling the same must pay the water rent of all parties who are thus supplied, as separate bills will not be made.

Sec. 10. When the water has been turned off Sec. 11. Every person taking water supplied

by the water commissioner; and in no case shall it be used without a nozzle, and the nozzle shall not exceed one fourth of an inch in diameter, unless specially authorized.

Sec. 14. Hose for sprinkling yards, gardens Sec. 14. Hose for sprinkling yards, gardens and streets, or washing windows and sidewalks shall be used only from the first day of April to the first day of November, and for sprinkling yards and gardens shall only be used between the hours of 6 a. m. and 8 p. m. If allowed to run at other hours the water will be cut off without previous notice, and it must be confined to a fair application for those purposes, without excessive or unreasonable use, and to the premises of the party. In sprinkling the streets each consumer must confine himself to the street in front of his

Sec. 16. Either iron or enameled iron service pipe may be used at the option of the applicant and must be at least one-eighth inch larger in diameter than the tap through which it is supplied. All iron pipe must sustain a pressure of not less than 200 pounds to the square inch, and at the point of connection with the street main, between the corporation cock and the compline

at the point of connection with the street man, between the corporation cock and the coupling in the iron service pipe, there must be at least eighteen inches of lead pipe to relieve the rigidity of the iron pipe. A brass coupling must be used for connecting the lead with the iron pipe and in no case must lead be soldered to Sec. 17. Every service pipe must be laid sufficiently waving to allow of not less than one to one and one-half feet extra length and in such Sec. 18. All service pipes must be laid as much to prevent rupture by freezing.
Sec. 19. Every service pipe must be provided
with a stop and waste cock for each consumer,

casily-accessible, and so situated that the water can be conveniently drained and shut off from the pipes. Stop cocks to be of such pattern as edge of the sidewalk, near the curb line, and protected by a box of iron pipe reaching from the top to the surface, of suitable size to admit a stop key for turning on and off the stop; also with cast iron cover having the letter "w" marked thereon, visible and even with the pavement or olonking.

marked thereon, visible and even with the pave-ment or planking.

Sec. 21. There shall be a stop and waste cock attached to every supply pipe at a point in the building so as to admit of water being shut off in building so as to admit of water being shut off in frosty weather, and the pipes being emptied.

Sec. 22. In making excavations in the streets or highways for the laying of service pipe or making repairs, the planks or paving stones and earth removed must be deposited in a manner that will occasion the least inconvenience to the public, and provide for the passage of water along gutters.
Sec. 23. No person shall have any excavation made in the street or highway open at any time without barricades, and during the nights warning lights must be maintained at such excava-

water. The street, sidewalks and pavements must be restored to as good condition as previous to making the excavation, and all dirt, stones and rubbish must be removed immediately after completing the work. Should an excavation in any street, alley or highway be left open or unfinished for the space of twenty-four hours, or should the work be improperly done, or the rubbish not be removed, the water commissioner shall have the right to finish or correct the work, and the expense incurred shall be charged to the and the expense incurred shall be charged to the consumer, and shall be paid by him before the water is turned on. No opening of the street for the tapping of the mains will be permitted when the ground is frozen, except by permissions of the Mayor and Council.

Sec. 25. Applicants for water will be charged from the center of the street for all service pipe and trenching, and the water commissioner shall plumbers or others as he may deem expedient to carry this section into effect. Sec. 26. No hydrant, except for public drinking fountains, shall be placed within the limit of any street, unless such hydrant be securely of any street, unless such hydrant be securely closed and protected against general use, and no drinking fountain which has been erected for public use which has openings by which it can be used as a source of domestic supply.

Sec. 27. If proprietors of lumber yards, manufactories, flouring mills, halls, stores, elevators, warehouses, hotels or public buildings, regular consumers of water from the works wish to lay have nines with budgents and home coursings to

consumers of water from the works wish to lay large pipes with hydrants and hose couplings to be used only in case of fire, they will be permit-ted to connect with street mains at their own ex-pense, upon application to the water commis-sioner, and under his direction, and will be al-lowed the use of water for fire purposes only, free of charge. receiving incense, are in the onice of the water commissioner a petition in writing, giving his name and that of each member of his firm, if any, and place of business, asking to become a licensed plumber of the City of Columbus, stating his willingness to be governed in all re-spects by the rules and regulations now or here-after to be adopted by the City Council or water commissioner concerning his business. Said petition to be signed by ten business men of said tity, vouching for the business capacity, qual-ifications and good reputation of the applicant, ifications and good reputation of the applicant, and for his worthiness to receive a license. Before receiving a license he shall also file in the office of the water commissioner, a bond with two or more sureties, to be approved by the City Council, in the sum of two thousand dollars, conditioned that he will indemnify and keep harmless the City of Columbus and the water commissioner from all liability from any accidents and damages arising from any negligence or unskillfulness in doing or protecting his work, or from any unfaithful or inadequate work done in pursuance of his license; and that work done in pursuance of his license; and that he will also restore the streets, sidewalks and pavements over all pipes he may lay, and fill all excavations made by him, so as to leave said

streets, sidewalks and pavements in as good condition as he found them, and keep and main-tain the same in good order, to the satisfaction

he ordinary and special use to which the water is designated to be applied under any permi-granted from the office of the water commission arrangements for using the water in every case, and any other particulars that may be called for. The water will not be turned onto any premises until complete returns are made by the plumb-

xamined by him. Sec. 32. SUPERB LAMP FILLER

simplest principles in philosophy and takes the rank above all Lamp Fillers. No danger of explosions. Absolute safety guaranteed. No spilling, wasting or dripping of oil on the floor, table or outside of can. Use it once and you will not be without it for five times its cost. It works in large cans as well as small ones, thereby saving the frequent and annoying trips to the store with a small can. Every can made of the very best tin, and warrated to work satisfactorily.
