LAMAR'S ORDER.

Rule Entered on Land Grant Roads to Show Cause Why Indemnity Lands Should Not Be Opened to Settlement.

WASHINGTON, May 23.—The secretary of the interior today issued the following rule upon land grant railroads: "It appearing from the records of this department that orders withdrawing lands from settlement under the public land laws within the indemnity limits of the following land grant railroads are still existing, and that these several roads have either made the selections of lands to which they are respectively entitled, or have selected all liable to selection in lieu of those lots within the limits of their respective grants, viz: the Burlington & Missouri River; Chicago, Rock Island & Pacific; Cedar Rapids & Missouri River; Dubuque & Pacific; Chicago, Milwaukee & St. Paul in the state of Iowa; the Illinois Central in the state of Illinois; Chicago & Northwestern; Chicago, St. Paul, Minneapolis & Omaha; Minnesota Farm Mortgage; Northern Pacific in the state of Wisconsin; Northern Pacific in Dakota territory; and it now appearing from said records that there are no sufficient reasons for longer continuing in force said several orders of withdrawal, a rule is hereby entered on said several land grant railroad companies to show cause, on or before the 27th of June, why said several orders should not be revoked and the lands therein restored to settlement."

Among the many other roads included in the order besides those above mentioned, are the Southern Minnesota and St. Paul & Sioux City roads in the state of Minnesota.

A Decision Concerning Driven Wells. WASHINGTON, May 23.—In the supreme court today a decision was announced in the case of Harris Eames against W. D. Andrews and others. This relates to the validity of what is known as the "Drive Well Patent." The importance of this litigation is shown in the fact that the number of driven wells in the United States is between 500,000 and 1,000,000. The court holds that the invention had not been anticipated by others and that there is a clear case of infringement. The validity of reissued patent number 4,372 issued to Nelson W. Green is therefore sustained, and the degree of the court in the district of Connecticut is affirmed.

In another case of appeal from the United States court for the northern district of Ohio, the validity of the same patent is sustained. The effect of these decisions is to render all users of driven wells not authorized under the Green patent liable for damages for infringement.

HIS TOUR ENDANGERED. O'Brien Brands as Base Falsehood a statement of the Hamilton Spectator.

HAMILTON, May 24.—The Hamilton Spectator, in its account of what occurred last night, asserts that shots were fired from O'Brien's carriage before the attacking party had touched a trigger. O'Brien said this was the meanest and most malicious statement yet made. "In my opinion how will this statement affect the remainder of your tour?"

"So far as it relates to Canadian cities which I have yet to visit, it may have a most dangerous and alarming result. Seeing its downright falsehood, I must have been written with the sole purpose of inviting an attack in Montreal." O'Brien lay in bed until mid-day, setting on the advice of his physicians.

It is reported that Attorney General Garland has talked freely about his supposed candidacy for the vacant place on the Supreme Bench. He declines the place, if he was sure of obtaining it, on the ground of bad health. He is sure he could not stand fifteen years of that life.

Harmless Threats.

NAGARA FALLS, May 24.—Wm. O'Brien arrived here this evening from Hamilton on his way to Montreal. Before leaving Hamilton he received an anonymous letter, threatening his life in case he visited Kingston or Ottawa. This was dated East Syracuse, N. Y., May 18.

NEBRASKA NOTES.

June 20 has been set for the trial of Ed. Carr of Boone county, for murder.

David City has formed a stock company for the erection of a \$25,000 hotel.

John Lova, a former butcher of Holdrege, was arrested the other day charged with setting the fire which almost destroyed Holdrege.

An election was held the other day at Hastings, which voted \$60,000 bonds to the Northwestern railroad, which is expected to reach Hastings about October.

Ten tramps before Judge Parsons, at Lincoln the other day received a fine of \$20 and costs each, and in default of payment were committed to the city jail.

A two year old child of Dr. Wilson, Surprise, walked backwards into a kettle of hot water Monday and was badly burned, but no serious results are anticipated. —D. C. Tribune.

The Exchange hotel at Ashland took fire the other morning in the laundry department, and the entire building was destroyed, only a few goods being saved. It is supposed the fire was caused by lightning.

The Caldwell mills property at Beatrice has been sold to J. M. Tarrents of Chicago for \$6,000. Mr. Tarrents is a prominent flouring mill man of Chicago and St. Louis, and will immediately put the mills in full operation.

Gus Young, of Omaha disappears for three weeks and then commits suicide Sunday evening by shooting himself in the head with a revolver. It is understood he takes his life because he could not obtain the girl he wanted.

A report comes from Alma that a large force of graders are at work on the K. C. & O. railroad in that county. A force is also at work on the bridge near town. The company expect to have trains running to Alma by the last of September.

The Norfolk News says that "no passes, two cents a mile passenger fare, and a maximum schedule of freight rates, must be the platform of successful legislative candidates in 1888." We add that they must be men who are known to be true.

John Finch, a laborer at the water-works in Omaha, was instantly killed by being crushed under a weight of 4,500 pounds of iron pipe. The dead man's friends live in Ohio, and have been informed of the accident, and the body awaits their action.

Will Hawk, son of the late Robert Hawk, came to Nebraska City the other day from North Platte, with the intention of contesting the validity of his father's will, and employed counsel for that purpose. The estate of the deceased father is estimated at \$50,000.

In the case of Mills vs. the City of Edgar, the jury returned a verdict in favor of the plaintiff for \$20,000. The plaintiff was an old lady, a resident of York State, on a visit to her children. She was ordered her return home when she was thrown down and her leg broken in two places, by a broken board in a bad sidewalk. Her injuries are believed to be permanent.

A hail storm visited Blue Springs section the other night, doing great damage to crops. S. A. Smith lost his entire crop of berries, probably ten thousand quarts, as also peaches and other fruit. His loss will amount to \$1,000. Wesley Lewis, Jacob Lewis, Charles Carson, Lewis and Dennis Hatch suffered in various amounts from \$500 to \$1,000. Piles of hail stones were from ten inches to two feet deep in places.

The live stock commission receives from five to ten complaints of glanders in different parts of the state every day. Commissioner Abbey informs the Journal that the commission is unable to dispose of the cases reported, and that the work is steadily piling up. It seems that the glanders are more prevalent at the present time than ever before in the history of the state. —Lincoln Journal.

Last Friday night the slaughter house belonging to Chas. C. Gross was burned together with some lumber that was lying near which to build a small addition. The loss was something over \$200. As there had been no fire in the building for several days, it was evidently the work of an incendiary. Everything seems to point to the fact that the building was set on fire by an enemy of Mr. Gross for spite work or to cripple his business. Such deeds should be summarily dealt with if they can be caught. —Madison Democrat.

The report from Auburn of the finding of copper and iron as pronounced by Prof. Nicholson, turns out to be strictly truthful. Further inquiry develops the fact that Mr. F. E. Allen had a dug well about sixty feet deep, which went dry. He hired men to drill deeper. In the bottom of this well they struck the ore at about seventy-five feet from the surface, or ten feet from the bottom of the old well, and went through about six feet of it. It lies in a stratum of blue clay. In this well they found iron and copper. At Mr. G. L. Storm's and Mr. Henning's farms ore has been found in abundance; at the latter's farm they drilled thirty feet into it.

Last Tuesday representative of the Union Pacific and the E. & M. F. Y. companies met with the state board of railroad commissioners at Lincoln, on the complaint of the city of Lincoln against the B. & M. for discrimination in freight rates. Mr. Raymond, pres't of the Lincoln Board of Trade, presented the grievance of the city, in a forcible and clear manner. The upshot of the matter was that an adjournment was agreed upon to June 15, when the representatives in Lincoln traffic will be ready to report what they will do. It is stated that if they do not voluntarily adjust the rates, "the war will be carried into Africa."

"WILD WEST" SHOW A SUCCESS.

Queen Victoria Gives the Show a Special Audience and Seem's Pleased.

As is known by all newspaper readers, "Buffalo Bill," that is, Hon. William F. Cody, soldier, scout, Indian fighter, cowboy and ex-member of the Nebraska Legislature, is now in London with a large troupe composed of veritable cowboys, Western hunters and genuine wild Indians, astonishing the people with

scenes of wild Western life. They took the great metropolis, London, by storm. The visit of the queen has secured for the Wild West the public endorsement of every member of the royal family. The wild west fever now raging in London has extended to Paris. General Boulanger will head a party of French officers coming over next week. —Martinsville (Ind) Republican.

Mr. A. Heinrich sold his fine roan buggy mare to Mr. Math. Brick for \$150. He had to part with valuable "Dolly," but has young horses coming on and needed a little of the stuff "that makes the mare go." In intending to put a brick foundation under his stable. He has also put one of Taylor Bros. nest fences around his farmhouse. Manufacturing is what will make Columbus flourish. X. Y. Z.
