SARAH JANE GUTHER of Ft. Wayne, Ind., was arrested the other day for throwing her child into the St. Joe river. She made confession to the coroner of the affair. It is a sad case for the poor girl, who in an evil hour committed the error of her life, through the influence of a prominent business man of the city. Talmage at Washington.

Our Washington correspondent thus speaks of Rev. T. De Wit Talmage's sermon at the Drill ground in Washington during the recent National drill: he preached from a little, awning canopied pavillion in front of the grand stand. But to my surprise at first, the military, all except a few hundred, were conspicuous by their absence. Do not imagine that Mr. Talmage fell short of an audience in consequence. He was greeted by a congregation of fifteen thousand strong. About seven thousand five hun dred people paid a quarter to get inside the enclosure and sit or stand anywhere within sound of his voice, and fully as many more paid fifty cents for a seat n the grand stand.

While the sermon was in progress th soldiers were over at the camp ground fixing up for the dress parade which was to take place at the close. In due time they marched into the Drill ground to the music of their different bands, and during the whole week a more effective scene was not witnessed than this last dress parade. The troops were massed in hattalions across the entire greensward and very skillfully placed as regarded their various colored uniforms. Many

of the uniforms were striking, others brilliant and even gorgeous, and all contrasted well with the prevailing green of the parade ground. The Marine band of forty men in bright red coats, white helmits and white pants furnished the martial music and marched from one end to the other of the front while they were playing as is usual in dress parades. The Generals and other officers, in full dress uniforms, stood at their proper places and altogether the picture was imposing. When the ceremonies of the parade were over and the troops were preparing to leave the ground, their movements presented a brilliant spectacle which will long be remembered by those who witnessed it. The day was perfect; bayonets flashed in the sunlight. banners and plumes waved, bright colors glowed everywhere, and to heighten the effect of the scene, one soldier, over-

> Volumes of Smoke by Day and Red Lights by Night Plainly Visible Miles Away-Exploring Parties at the Place.

TOMBSTONE, ARIZ., June 1. Senot Campa, just arrived from Nacosarv states that authentic news has reached Aposnra that at the time of the first earthquake a volcano broke out on the Chihuahua side of the Sierra Madres near Hiedra Vordes and about thirty miles west of Casa Grande. Different baggage. Inhabitants of the province parties have gone from Casa Granda to job showed professional skill. No clue inspect the volcano, none of which had, to the thieves, greatly excited over the success of the lowing to the intense heat, been able to approach nearer than three miles of the mass of molten lava which kept pouring that it extends fully ten miles from the crater of the volcano, Volumes of smoke by day and a red glare by night from the burning mountain are visible for a long distance. Gov. Torres of Sonora has directed a party to be sent from Oposura to inspect and report upon the phenomenon. A slight shock of earthquake was felt here Monday and

another today. THE raid of some of the Omaha news papers, notably the Republican, against Gov. Thayer is entirely uncalled for, as seen from this standpoint, and the Republican has nothing to gain by its abuse. Let the General be the governor of the state during the term for which he has been elected; if you are capable of giving him good advice, do so, and let him have the benefit of it, to the end that he may make a better governor. but if what you think is good does not agree with the judgment of the official, who is sworn to do his duty, it will not be the first instance of a person gen-

TIFFIN, O., June 1.-Capt. Railroad Passes.

Every jackleg lawyer in Nebraska who wants it gets a railroad pass on the ground that he is an employe of the road Every politician whom the roads want to use at conventions and other useful places has his little "employe" annual Not a solitary abuse has been corrected by the alleged abolition of passes. The same subordination of politicians and lawyers goes on, except more guardedly than before. The main herd of common

editors are not allowed to have passed so that their moans will deceive the public and make it imagine that the passes have been abolished. Any man of political influence, who is unscrupuolus enough to ask for it and use it, can get a pass just as he used to. He must only be a little more explicit than formerly in his pledge to stand by the company. State Democrat.

A new and extensive railroad project was being discussed last week at Omaha by a number of prominent gentlemen now engaged in the work. It is the building of a continuous route from Yankton, D. Judge Tiffany, at Albion, the other day fined D. Jackson \$1,100 for violation of the liquor law. The village board had granted license to Jackson, for which he paid the amount required, \$1,000, but the license was afterwards revoked by Judge Tiffany, there having been a remonstrance filed against the issuing of the license strong enough to make it illegal. The license money was not returned, and Jackson continued to run his saloon. At the last term of the district court eight indictments for selling without license and one for selling to ninors were found against Jackson with the above result.

A SPORTING MAN'S EXPERIENCE. Chapter from the Life of T. J. M'Mulian, o

Corinth, Miss. Mr. McMullan is one of the best known chicken and dog fanciers in the South. His coops and kennels are filled with the finest specimens of game chickens and well-bred sporting dogs.

For many years of his life he had

serious misfortune, which he explains in their corn once, and are going through the following letter, which also tells what was the unlucky man's real Mascot You will pardon me for addressing his cattle and part of his sheep away you on a subject on which I know you must get numerous, if not innumerable letters, but gratitude prompts me to tell you about what I regard my most remarkable cure of rheumatism by your S. S. S. For ten years I suffered with rheumatism, I had about "saturated" my entire body. I had pains in all parts of it. My left leg was the worst affected. Even today, though I am entirely well, my left leg is a little smaller than the right, shriveled from rheumatism. For five years I may say that I was in danger of starvation from inability to work at my trade on account of this terrible disease. When I came to Corinth from Alabama I was on crutches for two years. Of course during all these sad years I was attended by good physicians. They gave me powerful doses of potash and sarsaparilla, which did relieve me some for awhile but I got no permanent relief until, by a friend's persuasion, I used S. S. S. I determined from the benefit I received from the first few bottles to take weighed 130 pounds, and when I finish ed the thirteenth bottle I weighed 237 pounds, and I weigh that yet.

I regard your medicine as the poor man's best friend, if he will only take it in time, and thus save extravagant doctor's bills and preserve his health. With gratitude and with best wishes, emain, Your obedient servant. Fat hogs Fat cattle T. J. McMULLAN.
