The people have been the under dog long enough and should now turn their individual attention to the stretched arms of pure democracy. It is ter about the methods. The people is the old story of promise, infamy and desertion. And perhaps this treatment is really merited. Certainly it is in perfect harmony with the history of the democratic party for the last forty years and more. They are good to promise, but bad to redeem. The older readers of this letter will well remember the democratic campaign of "Polk, Dallas, and the tariff of '42." That was the battle for the General Election in November next. ery then, for Pennsylvania was necessary what has been unjustly wrung from the to success, and hence they put Dallas on the ticket, a Pennsylvanian, and locked arms with protection, and won the campaign. What was the result? Why, the very first session of Congress under the administration of Polk repealed the tariff of '42, and that by the casting vote of Dallas himself. There is no use in multiplying instances since that time to show the duplicity and perfidy of the democratic party. Its history is blurred from beginning to end with just such COOPER UNION in New York was pack- hypocrisy. The state department is considerably incensed at the recent speech of the Queen in closing the British Parliament wherein she claims, among other things, that the joint commission to settle the fish question between this government and England, is another distinct and positive triumph of British diplomacy. As to the truth of this claim, the people of this country are in blissful ignorance up to date, for the state department has resolutely abstained from giving the public any information touching negotiations going on. This declaration of the Queen, in so public a manner, tingles the ear of Secretary Bayard, and the prospect of any laurel wreaths dangling from his massive brow in the settle ment of this vexed question that has mysterious forgeries. It is not improbable that the sequel will show that with less pretense to dignity and more practicable application of brain force in our foreign relations, the rights of American citizens would be better secured. You will remember that last winter when this question was up in Congress, the democracy mounted the war horse with flying colors, under the leadership of Perry Belmont, chairman of the House committee on foreign relations. A Complete Cure of Cancer. Gentlemen-I had a sore on my upper lip for eight years. Seven different doctors attempted to heal it. One gave me a small vial for five dollars, which was a "certain cure." It is needless to say that it did me no good. About two years ago I became quite uneasy, as people thought I had a cancer, and I took a course of eighteen bottles of S. S. S. The result has been a complete cure. The ulcer or cancer healed beautifully, leaving scarcely a perceptible scar. From that day I have been in excellent health the Specific having purified my blood thoroughly, increased my appetite and perfected my digestion. In a word I feel like a new woman, and, best of all the eight year ulcer is gone entirely. Yours sincerely. Mrs. W. P. CANNON. Trenton, Todd Co., Ky., Feb. 25, 1887.

Two Bottles Effect a Cure. Gentlemen-My blood was in such a condition that on the slightest abrasion my flesh would fester, and sores were

difficult to heal. I took two bottles of S. S. S., and after that any abrasion would heal on first intention, and my flesh was firm. W. T. WILKINS. Jesup, Ga., March 3, 1887. Treatise on Blood and Skin Disease
