Ernst & Schwarz's advertisement in today's JOURNAL speaks for itself. They are having a very large trade in farm machinery, and those who are in need of Minnesota self-binders, mowers, or anything else, will do well and make money by calling on them before purchasing.

Nich Blissett was in town Monday getting lumber for the Duncan, Platte river bridge, which he expects to complete before harvest. Farmers in the valley in Polk county much prefer Columbus over Osceola as a market for their produce and also for purchasing their supplies.

The Congregational church have granted a vacation to their pastor who shows his appreciation of their kindness by prompt acceptance. It is hoped that Mrs. Rice, who has been sick for the last two months, may fully recover by the change.

Monday morning about 2 o'clock burglars appeared at John Stauffer's residence. John was fast asleep, and Mrs. S. inquired what was wanted. They disappeared. It happened a little different at one of Mr. Dietrich's houses. Three men appeared in front of Mr. Ignatz's lodging—he sleeps with his door open. He cleared his throat and reached for his revolver, but the fellows disappeared.

The editor of the Humphrey Independent, in reply to a correspondent regarding the employment of an expert to look over the official records of Platte county, says: "We will say to our correspondent, that we can see no reason why the county books should not be overhauled by an expert, and we think the county board will take some action in the matter, as it certainly is but doing justice to the wish of the people if they so do."

Mr. Geo. Heitkemper, of Columbus, and Mrs. Joe Eimers, of Humphrey, were joined by marriage Tuesday morning, in the Catholic church, Rev. Father Theodore officiating. An elegant dinner was served at the residence of Wm. Eimers, after which Mr. and Mrs. Heitkemper took the noon train for Columbus, where they will immediately commence housekeeping. Humphrey friends wish them much prosperity and happiness.—[Humphrey Independent. Columbus friends join in congratulations.

The coming Teachers' Institute for Platte county will be conducted by Prof. Geo. H. Knepper, principal of the Peoria, Ill., High School, assisted by Miss H. Alma Parker of the Fremont Normal, and Mrs. Cook of Lincoln. Prof. Knepper has a high reputation, both as a teacher and normal instructor. He has had experience in all grades of school work, having passed from the district school by successive promotion to his present position. He is a disciple of Col. Parker of the Cook county normal, and will bring with him some advanced ideas and principles, which, it is hoped, will be of great benefit to our teachers.

The quarterly conference of the Northern Nebraska District of the Reorganized Church of the Latter Day Saints was held at Fremont last Friday, Saturday and Sunday. Elder G. W. Galley was the delegate from the Columbus Branch. Considerable business was transacted, all sections being well represented. The three services Sunday were all well attended—more than could be seated being present, although the church was large. The Conference is in charge of Wm. M. Rumell. Two days' meetings were appointed for Omaha and Valley, the former about the middle of August. A series of meetings have been held in Battle Creek which have been largely attended by people from all directions for fifteen miles; interest still increasing.

August 8th, Columbus will be called upon to accommodate with board and lodging about five hundred fellow-citizens, delegates to the prohibition, congressional convention for the Third district. The local committee are informed that the hotels have not the facilities for boarding and lodging this number, and they propose calling upon our neighbors to ascertain who can board and lodge some of the delegates, how many, and at what rates. Those who are at all prepared to do so should make favorable response to the committee as, one year with another, it is a matter of considerable importance to a city to have it known that she always takes care of a large gathering of people who have assembled at a place of meetings. And this is true, whatever may be the character of the particular convention, whether of your particular religious or political or social or business associations or not. So far as the general reputation of the city is concerned, all should be treated alike.

A Little Outing. A trip last week, via Platte Center, Humphrey and Leigh to the southern portion of Stanton county convinces us more than ever that Nebraska lands are desirable as an investment of spare money. Looking all along the route we took are crops splendidly, and with a fair season from this out, the yield will be abundant. Platte Center, Humphrey, Creston and Leigh are all flourishing, being surrounded by very fine agricultural regions. For a place only two years old Leigh is rather an exceptional town. They have a farm union that has really done some good work for the town as well as for the county, the situation as to dealers in certain lines having been somewhat peculiar; fence posts, formerly sold at 15 to 20 cents, are now being purchased through the union for 8 to 10; lumber formerly costing \$20 a thousand is now \$21.50, and farmers get the full value of their products excepting a small sum paid the union for handling. We were informed that the straw that broke the back of the camel was the fact that at a certain time last winter when corn was selling readily at 30 cents in Columbus, the highest that could be got at Leigh was 22 cents. The Northwestern railroad people were convinced that the elevator men whom they had favored by other roads, and since that time their policy changed. The union has had no trouble on rates, no trouble to get cars when needed, and has sold without an effort all product offered. It is said that the union has increased by fifty per cent, the business of every man in the town, and has certainly demonstrated that the railroad company can make an alliance with tillers of the soil as well as with elevator companies.

In one of her citizens, Mr. Devine, Leigh claims the smartest man in Colfax county. He has made the protective tariff a thorough study, and republican campaigners would do well to call on him for service during the campaign, if by so doing they could be so fortunate as to secure him.

While at Leigh we were indebted for courtesies to G. W. Kibler, Mr. Staab and Mr. Preiss.

At Humphrey we met a number of old acquaintances, Messrs. Clark, Robinson, Hampton, Fuchs, Sibber, Ripp, Poedle, Hart, Condon and others, and took note of the fact that since our last visit, the burg has so grown that we would not have recognized it.

The train did not pass Platte Center so swiftly but that we noticed a good, vigorous growth in that lively burg.

Platte county so far as we can see, is in a prosperous condition this summer of 1888.

W. C. T. U. A prize medal eleventh contest will be held in the Presbyterian church Friday evening, July 6th, under the direction of the W. C. T. U. Mr. Demorest of New York, who is a successful journalist and has amassed quite a fortune, proposes to give it away in educating the young. A class of young persons under twenty-one years of age, to consist of not less than six persons, nor more than ten, will recite before an audience. Three judges are selected (Revs. Griswold, Powers and Snyder) who after conference will award the prize to the person who has all things considered, acquitted himself most creditably. After eight contests have been held and eight silver medals won, the successful parties may recite new pieces, and contest for a gold medal; and eight persons holding gold medals may contest for a diamond medal. These contests are said to have a wonderfully improving influence upon those who compete, and enthusiasm runs high. Be sure to go and hear the contest. See'y.

Columbus Street Cars. Work has been pushed at a rapid rate the past week, and the probability is that when this number of the JOURNAL reaches you, our line will be in full operation.

The cars, two in number, arrived Monday morning, and are very handsome specimens from the manufactory of Robinson & Mann, Waterloo, Iowa. They will seat eighteen persons, and on a pinch accommodate twenty-five. They have all the modern appliances and conveniences of the street-car line, down to the legends "No smoking," and "Place your fare in the box," etc.

The Street car company certainly deserve all of the public here for the solid, substantial manner in which they are complying with their part of their engagement with the city, and have well earned the right to the most remunerative patronage the public can bestow.

Weather Report. Review of the weather near Genoa for the month of June, 1888.

Mean temperature of the month 69.3; highest same month last year 72.2; lowest same month last year 52.7; highest of the month 72.2; lowest of the month 52.7; days of clear sky 19; days of cloudy sky 19; days of rain 10; days of snow 0; days of hail 0; days of fog 0; days of ice 0; days of frost 0; days of snow 0; days of hail 0; days of fog 0; days of ice 0.

The observer would call attention to the fact that June of last year was thought too dry and this year too wet and yet there was 1 1/2 more inches of rain last year than this an excess of nearly four thousand gallons per acre, showing that in such matters, a regular record is the only dependant for a correct judgment, but we must also remember that the mean temperature this year is two degrees lower than last.

Cards of Thanks. To our friends:—It is with the most profound sense of gratitude that myself and family recognize the many acts of kindness shown us by our friends during the last sickness of my husband and father of my children, John W. Early; especially do I desire, sincerely and gratefully, to express my thanks to you, each and every one of you, for the marked respect paid his memory in administering the last sad rites which closed the drama of his life, and as well for the kind words of sympathy and condolence given us in our great bereavement. That you may have your reward in the bestowal of God's choicest blessing upon you, shall be the prayer of the widow and fatherless.

Ed. Hoare of Lost Creek twp. was in the city Saturday. He is taking a very lively interest in the welfare of the republican club recently organized for that township.

G. A. Kerr gave the JOURNAL a very pleasant call Saturday. Mr. Kerr is one of the best-informed farmers in the county, and it is a pity that all of us could not have the benefit of his experience.

Dr. F. J. Schug was at Lincoln last week in attendance on the State Medical Association. He had been selected as a delegate to attend the first national convention of railway surgeons at Chicago, but could not spare the time to go.

Charles Clark of the Mapleton (Kansas) Telephone, was in the city Friday, accompanied by his wife. They were on their way to Genoa, to visit friends. Charlie is flourishing as a newspaper proprietor, is making money, and we see is talked of as a candidate for legislator.

G. W. Sweet of Fremont, a former resident here, was in the city Monday on his way to Oakdale, where his father lives. G. W. had lately been in Arkansas and is now raising a colony of republicans to form a settlement in that state. Land is fertile, he says, plenty of good wood and water, and there are thousands upon thousands of acres of land subject to homestead and pre-emption under the U. S. government laws. He tells us that he used to believe the stories about killing negroes to keep them from voting, threatening to kill them to prevent their voting, counting out their votes, etc., were campaign yarns gotten up for effect, but he now knows different. They have no show there, politically.

The Annual State Teachers' Institute will be held this year at the High School building, beginning on the 13th day of August, and continuing two weeks. Experienced conductors will be present during the session, and all subjects relating to our district schools will receive special attention. The new course of study for the country schools and the manner of operating the same will be explained, so that all teachers may know what is expected of them.

An examination for certificates will be held at the close of the institute. Evening entertainments of an educational character will be held during the session. All teachers of the county are expected to be present.

L. J. CRAMER.

John Tannahill, who has been appointed superintendent of the Platte county exhibit at the State Fair, desires to say to Platte county farmers that he wishes to receive sheaves of barley, rye, timothy, clover, oats, wheat, or anything else worthy of exhibit. They should be gathered from the field before harvest, cut close to the ground with a knife, and should be securely tied, and a tag with name on each bundle. The bundles may be left at the land office first door east of State bank building or with Henry Ragatz. The samples thus furnished will be entered in the name of the grower at the State Fair, and also at the Platte County Fair, for individual premiums, and they will receive the premiums if any are awarded.

Most of the Palestinians expect to celebrate the 4th in St. Edward. Cal.

District 44 and Vicinity. The spring term of school is progressing in the sweltering heat, with but few in attendance.

Prospects are fair for a full crop of corn on the upland; that on the bottom land also looks well excepting in the buffalo wallows, where it was drowned out, which will have its effect on the average. Oats never looked better. Rust has made its appearance in some places of wheat, while most fields are looking well with no signs of chinch bugs as yet, in this immediate vicinity. Clover and timothy is not a full crop, but looks well considering the scorching it got last summer.

Nearly all the old army horses with their riders from hereabouts have been drafted to do service in Fitzpatrick's Fourth at Columbus.

The pet jack rabbit we mentioned some while ago has no effect on fat; he ventured too far into the field, where Willie Higgins saw it and dispatched it with a stick. Willie thought as much of it as his neighbor did, but mistook it for a wild rabbit.

In recent letters from Stark county, Ill., we learn that millions of locusts have been reported as appearing there and that their song is deafening; they light upon the forest trees and put in their time stinging the branches. The result will not seem to know what the result will be.

On Sunday his wife was notified that he was dangerously ill and immediately went to him and was with him till his life departed Tuesday evening. The remains, brought to this city Thursday, were embalmed by Henry Gass and shipped to Dubuque, Ia., where the funeral took place Friday.
