Two empty freight cars were thrown from the track Monday evening in the U. P. switch yard, near the coal chute. It seems that one of the rails became loose, causing the rear car to run off the track dragging the next with it. Fortunately no one was hurt, and the damage to the cars is not large.

The reports of the officers show the association in a flourishing condition. We have heard considerable complaint in regard to the saloons sweeping water out on the sidewalk in front of their places of business Sunday mornings. When it rains it makes travel, both disagreeable and dangerous in the locality. It would not be so bad if all the saloons would see as some of them do, distribute ashes or saw-dust on the ice.

A Bold Burglary. The dry goods store of Galley Bros. was entered Tuesday night and robbed of about \$250 worth of jewelry and \$75 worth of mufflers, silk handkerchiefs, etc. The burglars effected an entrance by cutting a hole in the brick wall in the rear end of the store, large enough for a man to crawl through. It is supposed that they first commenced operations by raising one of the windows about eight inches and trying to force open the heavy inside shutter, as marks upon it show that it had been tampered with. Failing in this they next bored a hole in the door, with the evident intention of removing a panel and entering the store in that way. The door inside is covered with sheet iron, so their efforts in that direction were of no avail.

They were successful, however, in their next venture, that of removing the brick. The tools which they used were probably the same as those used by Louis Schreiber's blacksmith shop Tuesday night. As soon as the burglary was discovered Wednesday morning, the police here to investigate the matter and Mr. Galley issued postal cards giving a description of the stolen goods, which he sent to all points in the state, on the first mail. Several suspicious characters were seen in town Tuesday and on the evening of the robbery a man called at several of the stores, including Galley Bros., inquiring the price of articles, and it was probably one of these who committed the theft. It was certainly the work of an expert, as no marks could have done the work without making more or less noise. It is quite a heavy loss to Messrs. Galley Bros., and it is hoped the guilty parties may be brought to justice and the stolen property recovered. The burglars have not yet been captured. A man was arrested in Omaha on suspicion, having in his possession quite a large amount of jewelry, but as it was of a different kind than that stolen from Galley Bros., the man was released.
