THE WATER POWER.

The committee appointed by the Board of Trade, Messrs Jonas Welch and R H Henry, in company with Ernest Stenger, civil engineer, went to Kearney last Friday night and spent Saturday in looking over the canal and water power system at that place. They returned Saturday night well pleased with their trip and satisfied that Kearney has a good thing in the way of water power. and also satisfied that Columbus could the proposed canal be built to utilize the

would have one advantage over Kearney -the canal there is supplied with wate from the Platte, which at times is liable would be from the Loup which has never been known to go dry, consequently the supply of water is assured. That the water power would be a grand

interprise for the town, is not questionenterprise for the town, is not question-ed. All that is necessary is for every citizen to talk "Columbus, and water power" and put forth every effort to help make the thing boom. Mr. Stenger has not sent in a report

yet, but as soon as he does the committee will submit their report to the Board and the public can then expect to hear of something further in the matter.

> Burgiars at Work. The hardware store of Boettcher
