The American home is, thank God, still christian and pure, but family discipline has been greatly relaxed among us, of late years. It is turning men's minds and affections from higher and better things, to what ministers to mere sensual enjoyment. We all know the power of money at our elections, in our legislatures, in our municipal bodies, and, alas! even in our courts of justice. Money, not votes, now elects our public officials, from the highest to the lowest. Without it, even just and necessary legislation cannot be secured. The desire of it is banding the rich together to oppress the poor, and enkind-ling in the hearts of the poor, jealousy and hatred of the rich. How is all this to end? Badly, beyond doubt, unless this quest of gain be kept within due bounds. For, "many have been brought to fall for gold, and the beauty thereof has been their ruin."
