The Nebraska boys who live on the farm will soon be absent from caring care. An Austin genius has a machine, drawn by a team, which picks and shucks corn at the rate of 8 to 12 acres a day. This was about the last thing that was needed to lighten the labor of the farmer.

Remember we raised No. 1 of the St. Edward Eagle, a new venture in the newspaper world, and of which Miss Laura E. Walker is editor. It is a very neat seven-column paper, one-half printed at home, and has a goodly share of advertisements—the substantial most upon which good printers feed.

At the meeting of the School Board Monday evening Prof. J. M. Scott was re-elected to the position of superintendent of the city schools. This action of the board is in the line of precedent, and also, doubtless, in conformity with the wishes of the patrons of the school. Prof. Scott has undoubtedly been very faithfully at work the short time he has been here, has made many friends outside the schools, evidently has the confidence of the board and has a fair field before him for the next year's work.

McDonald of Pierre, Dakota, president of the Western Loan, Trust and Security Co., was in the city Saturday. He met here one of his chums at Princeton college in '76 in the person of J. M. Macfarland, Pa.

The Concert and Carnival prepared by the ladies of Grace Episcopal church and given last Wednesday evening was a very decided success in every important particular. The music was rendered by the Columbus Orchestra and the Episcopal choir, solo by Mrs. C. D. Evans and Mrs. Bowman. Their music is always excellent, and this occasion was no exception to the rule. About seventy business establishments were represented by the ladies with banners, many of which were very tastefully gotten up as advertisements of the houses represented. One of the most attractive features of the carnival was the military drill by sixteen ladies under command of Capt. A. Bauer and Lieut. Joe Wells and L. G. Zinnecker. Nothing could have been more perfect. They had all the precision of trained soldiers, at the close of the exercises Mr. Bowman, on behalf of the ladies, returned thanks to the audience and to those who had contributed to the success of the concert and carnival, to the Lieutenants and to Capt. Bauer, to whom he presented a handsome and costly finger ring as a memento of the occasion and in appreciation of his services.

Preparations have been made for a state gathering, which everybody is invited to attend. It is to be held at Columbus, Nebraska, July 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10, inclusive, and is the first Annual Brigade Encampment of the Uniform Rank, Knights of Pythias. Columbus is centrally located in the state, has several lines of railroads, large hotel accommodations and its citizens will do everything in their power to make the stay of visitors pleasant. The four regiments will go into camp near the city, and admission to the grounds will be free to everybody. A plentiful water supply will be provided, the grounds lighted by electric lights, and an interesting program prepared. Free and exhibition display of military tactics and various interesting features will be presented. July 4 will be Columbus day, and the city will have the largest Fourth of July celebration in the west. Reduced fares on all railroads entering Columbus, one fare for the round trip, has been secured. Everybody who can, should go to the encampment and stay as long as possible. Sunday, July 7, grand camp services will be held, Dean Whitmarsh of Norfolk officiating.

A Good Watchmaker. Elgin, Ill., Sept. 7, 1881. To whom it may concern: This is to certify that C. C. Beringer has been in the employ of the Elgin National Watch Company for the past four years and under my personal supervision for the same period. I take pleasure in recommending him to anyone needing his services as an honorable gentleman and a good watchmaker. J. H. Moulton, Foreman Finishing B. Elgin National Watch Company.

The above shows that Mr. C. C. Beringer is a competent man to leave all of your fine watch repairing with. He can make an old watch just as good as new; the same with your clocks and jewelry. He also has a complete line of watches, clocks, jewelry, silverware and optical goods which will be sold at bottom prices. Place of business is on the corner of Olive and Eleventh streets, south of U. P. depot.

The Ohio correspondent to The Journal was at fault last week, in regard to the Mount Builder's work being confined to the east. There are several localities in Nebraska where their ancient remains are found. Near Shell Creek, north of Schuyler, may be found such remains, although not so extensive as a mile or so. About six miles north of Columbus, fragments of pottery, evidently of the Mount Builder's period are found in considerable quantities. One notable fact in regard to these remains should be mentioned. The same laws which govern the location of large cities and centers of population were evidently the same then as now, for we find the most numerous remains exactly in the same situations with our modern cities and densely populated sections of country.

Memorial Day Exercises. Business was pretty generally suspended in the city Memorial Day, and the program as published carried out. Comrades of Baker Post of the Grand Army with quite a goodly array of old soldiers from other parts of the county formed in line on Eleventh street near their hall, and proceeded by the Firemen with their band marched to the opera house, where the services were held. Prayer was offered up by Chaplain James Frazier, and the English syndicate men represented by young girls, each reciting an appropriate stanza and offering a wreath of flowers for the column erected on the steps to the unknown dead.

After this with appropriate remarks by Rev. H. L. Powers, the representatives of the several states were recalled, and the number of soldiers furnished for the suppression of the Rebellion by them, given, with a brief but touching reference to the monument to the unknown dead. The patriotic songs were sung by the choir of the church. The procession then formed again and marched to the cemetery, where the graves of the nation's dead heroes who there rest were decorated with flowers.

The day was as pleasant as could be desired and there was nothing occurred to disturb the proceedings of the day. We believe that never before have so many old soldiers been present here as on Thursday, and it does seem to be a fact that the rising generation take an increasing interest in the history of the days of the war.

Water Power. Men who know the value of a good, cheap power to a city as the basis of manufacturing prosperity can well understand how it is that Kearney lays so much stress on the canal they have constructed. Good engineers have declared that the situation of Columbus is better than that of Kearney for a water power needed in that direction. The Enterprise of that city appreciates the situation in the following paragraph:

The history of Kearney up to the time the water power idea was conceived was that of an ordinary western town lying directly in the path of commerce, development and growing steadily with the country. With the water power idea came the first great impulse of Kearney's growth. The town had the Union Pacific railroad, the fertile soil and the wonderful climate, but only Kearney had the intelligence to conceive, and the nerve to construct, a canal and water power important enough to furnish the basis for a great manufacturing center in the west. The man who originated this idea was "a crank" at the time, but he was a very responsible planer in the community today. Rural cities at first referred to the canal as "a ditch," but in these latter days they send delegations of their responsible citizens here to inspect what they are pleased to refer to as "your splendid water power."

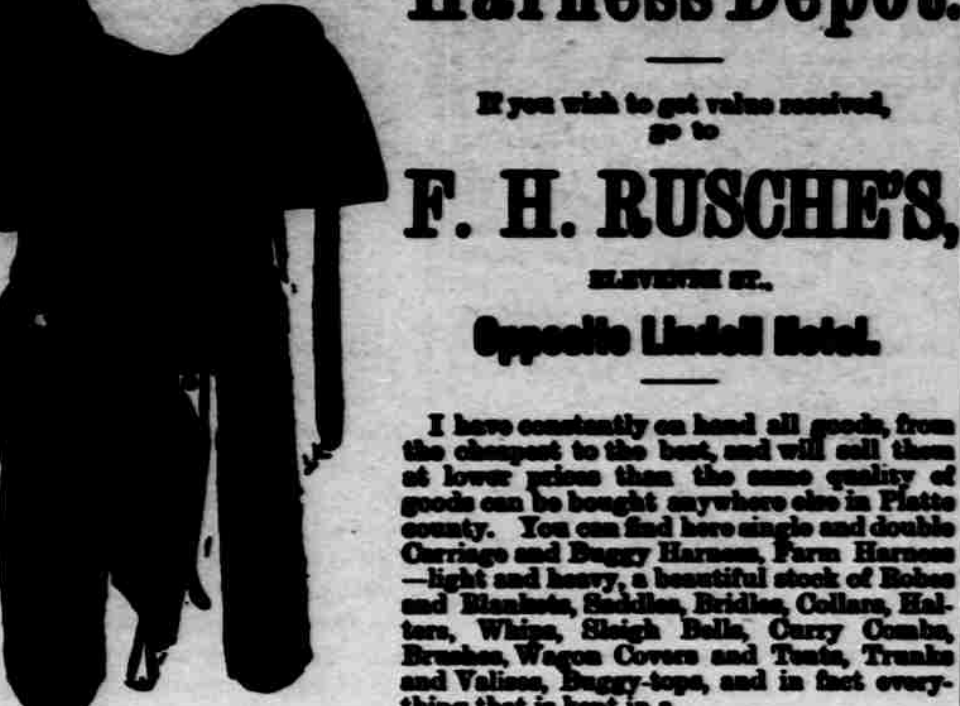

It is this feature of Kearney that has given it the splendid backing of eastern brains and capital which is today operating so successfully with our Old Guard.

District 44 and Vicinity. The upland grass begins to show the need of a soaking rain. Wheat is everything we might expect at this time; we have no fear except from chinch bugs. We will venture to say, there is 75 per cent more fax sown in Platte county this year, than ever before; one firm alone in Columbus has loaned out over 1,500 bushels, the greater portion of which was sown on soil. When that plant of which we have been promised is established here for manufacturing the fiber, and the English syndicate manufacturing Portland cement in the Missouri bluffs on our northern line, Nebraska will then be near the top rung in the ladder of fame.

Mrs. Drinnin has lost numbers of her young chickens of late, and could not account for their disappearance until last Wednesday night the old house dog was heard making demonstrations in the vicinity of the hen coop. George took up his shotgun and repaired to the spot, where he found perched upon one of the nests a huge skunk, who seemed to be as proud of his surroundings as any quadruped in 44. The chap was soon dispatched and from the unmistakable pointed breath that escaped him it was suffering from bad teeth or a foul stomach.

Judge Bowman of your city was in 44 Sunday. Otto Huer was out here Monday. D. K. Reinhart was in this vicinity Wednesday. Squire Fuller of your city was out here Wednesday. Gus Schroeder, the miller, was out this way the first of the week.

Grand Prairie Items. Several of our farmers are breaking prairie. Corn is looking as well as any one might wish and there is a good stand of it. There are prospects for a good wheat crop in this section; we noticed some of it around here, which is hard to beat. The work on the Lutheran parsonage is progressing fast, and will soon be ready for occupation. It is a fine one, and will be a pride of this neighborhood. A. Bohmer and D. L. Bruen went to West Creek last week and bought some stock hogs. Fred. Leuchinger has turned over a new leaf and bought a new buggy for his better half. The evangelical society has organized a Sunday school, to be held at the Spoor's school house every Sunday forenoon, and the exercises to be in English and German. The following officers were elected: Sup't, Mr. Steinbeck; secretary, D. L. Bruen; treasurer, J. Bommer. Last week we read an article in a newspaper where some part of Kansas was struck by a cyclone and now we are pretty sure that Nebraska "sees" had something to do with it. Go a little easier next time, Ted. WRY NOW?
