To the inspection of the people of Platte County, and should like to see everybody out. Our Grand Opening of Millinery on the SECOND FLOOR will take place very soon.

WE OPEN OUR LARGE

DRY - GOODS - ROOM-

Ever shown by any one house in Nebraska. All our goods are new and of the latest styles and fashions, and our facilities for buying and being members of a private syndicate of thirteen different large dry goods firms throughout this State and also connected with members of the eastern syndicate, gives us an advantage to buy direct from the Mills, thereby saving the commission and jobbers' profits, and therefore we can safely say

that we shall discount all our competitors on prices in this region. The public generally is invited to attend our grand opening day and be convinced of our statements. We shall always quote the lowest market prices in Central Nebraska, and whatever quotations we make in newspapers or otherwise, will always be found in our establishment, and to make this day memorable in the history of the dry goods trade of Columbus, Nebr., special inducements and attractions will be offered in every department. Our principal business methods are not the old fogy fash-

Woven wire and slats, cut willows, split boards or anything of the sort, used; after posts are set, fence can be made and stretched on the ground, in the winter, by a boy or ordinary farm hand, 10 to 40 rods a day, and can work it over my ground. The man who has one of these machines can build a fence that is more durable and safe than any other, and make it at less cost. The machine and a sample of its work can be seen in the city on lith street at Ernst & Behwars hardware store. Willsell mehines, or territory, or contract to put up fences.
