## THE PONTIFF'S POWER.

PROMULGATION OF THE DOGMA DISCUSSED IN EUROPE.

Now the Leading Topic on the Continent and Strongly Favored in Austria and Germany, the attack on the temporal power of the Holy See is the subject of the most important of the articles in the issue of the Columbus Journal. The Italian bishops have just issued a declaration in which they have announced their intention to support the pope in his claim to temporal power. The declaration is a masterpiece of diplomacy and states that the pope's power is of divine origin and that he is the vicar of Christ on earth. It also states that the pope's power is not limited to spiritual matters but extends to temporal matters as well. This declaration is a direct challenge to the secular powers of Europe and has caused a great deal of excitement in the continent.

The pontiff's power is a subject of great importance and interest to the people of Europe. It is a subject which has been discussed for centuries and which has caused much controversy. The pope's claim to temporal power is a claim which is based on the idea of divine right. It is a claim which is not shared by any other ruler in the world. The pope's power is a power which is unique and which is not subject to any limitations. It is a power which is based on the authority of God and which is not subject to any human laws. The pope's power is a power which is feared and respected by all the people of Europe. It is a power which is the source of much of the strength and influence of the Catholic Church. The pope's power is a power which is a great blessing to the world and which is a source of much comfort and solace to the people of Europe.

## FROM OVER THE SEA.

GERMANY AND ENGLAND UNITING TO SECURE AFRICAN TERRITORY.

Stanley Quoted as Saying that England's Asphyxial Policy Will Have Very Serious Results on the Continent. The German Government is now in the midst of a great scheme to acquire African territory. This scheme is a part of the German policy of expansion and is a direct challenge to the British Empire. The German Government has recently announced that it has secured a concession for a railway line in the Congo basin. This concession is a great victory for Germany and is a step towards the realization of its African empire. The German Government is now in the process of negotiating a treaty with the Congo Free State which will give it control over the entire Congo basin. This treaty is a masterpiece of diplomacy and is a direct challenge to the British Empire. ## NEBRASKA SUBRINS OF NEWS.

THE SUPPLY OF CATTLE IN THE STATE.

Several wild horses were seen last week in McPherson county. The Catholics of Barneston will erect a \$2,000 church edifice. The Board of Trustees are raising a fund for a parsonage. It is reported that there are now over 30,000 head of cattle in Thurston county. The Fifth district W. C. T. U. will hold its convention at Superior June 11 and 12. A SONS OF VETERANS CAMP has been organized at Ulysses, with a membership of thirty.

The largest bull for the Bow Valley chime of iron, weighing 2,850 pounds, has just been taken from the depot at Hartington. For the shooting of William Neel, at Garrettsville, from a train, the Chicago & North Western Railway Company has been fined \$500. Wells, the Logan county murderer, was convicted in the district court at Grand. Mrs. Anna Farber, wife of a well-to-do farmer near Dodge, committed suicide by jumping into a well forty feet deep. While Mr. C. O. Guide, Rock, was engaged in some wire, the animal kicked and one of his fingers was caught between the wire and a board and smoothly amputated.

## WASHINGTON WIRINGS.

FARMERS WANT \$16,000,000 WORTH OF BUILT WAREHOUSES.

Opinions That the Recent "Original Package" Decision Affects States Having High License on Imported Liquor. The Farmers' Alliance has issued a circular to its members asking them to write their representatives in Congress and urge the passage of a law which will give them the right to import liquor from other states. The Alliance is now in the process of collecting signatures on a petition which will be presented to Congress. The Alliance is now in the process of collecting signatures on a petition which will be presented to Congress.

The hearing of the Farmers' Alliance representatives was continued by the ways and means committee. Mr. Livingston, the national lecturer of the organization, took up the argument. He quoted President Lincoln's prophecy that the corporations would be enthroned; that the country would be ruled by a few concentrated and the republic itself overthrown. He said that the farmers' cause was not fulfilled, but that the others had been. One-tenth of the people owned two-thirds of the property. If Congress refused to approve the sub-treasury plan, then it would remove the restrictions on the national banking system. The farmers would have nothing but trusts and combinations and the concentration of money if they could hold their crops in sub-treasuries and were not compelled, as at present, to sell them at stated times. It would be a godsend to the country to pass the sub-treasury bill for the reason that if for no other reason there would not be a bucket shop left in the United States. The day of speculation in crops would be done away with and the producer and consumer would be brought together.
