Republican Platform.

The republicans of Nebraska reiterate and cordially indorse the fundamental principles of the republican party as eunciated by successive national republitical rights.

We heartily indorse the wise and con servative administration of President Harrison. We also fully approve the wise action of the republican members of both houses of congress in fulfilling the pledges of the party in legislation upon the coinage of silver and other measures of national importance and congratulate the country upon the con-

tinued reduction of the national debt. We most heartily indorse the action of the republican congress in passing the president who approved the same and regard it as an act of justice too long lelayed because of the opposition to all just pension legislation by a democratic congress; yet we do not regard it as the full recognition of the great debt of obligation which the government and the son of whose sacrifice and devotion the union was saved and the government restored. We do further repeat our declaration in favor of just and fair service pensions graded according to length of service for every soldier and sailor who fought in behalf of the union, and by reason of whose services and devotion

the government now exists. We hold an honest, popular ballot and equal representation of all the peo ple to be the foundation of our republican government and demand effective legislation to secure the integrity and purity of elections, which are the foundation of all public authority. We favor such revision of the election

laws of the state as will guarantee to every voter the greatest possible secrecy in the casting of his ballot and secure the punishment of any who attempt the corruption or intimidation of voters, and we favor the Australian ballot system for incorporated towns and cities, applicable both to primary and regular elections so far as it can conform to our organic law. We oppose land monopoly in every

form, demand the forfeiture of unearned land grants and the reservation of the public domain for homesteaders only. We recognize the right of labor to organize for its protection and by all lawful and peaceful means to secure to itself the greatest reward for thrift and industry. We are in favor of laws compelling railroads and manufacturers to use all appliances which science supplies for the protection of laborers against accident. We demand the enactment of a law defining the liability of employers for injuries sustained by employes in cases where proper safeguards have not in occupations dangerous to life, limb or health; railway and other that created them. Their undue influunnecessary burdens upon the people

forced by suitable legislation.

We demand the reduction of freight and passenger rates on railroads to correspond with rates now prevailing in adjacent states in the Mississippi valley, and we further demand that the next legislature shall abolish all passes or

We demand the establishment of the system of postal telegraphy, and request our members in congress to vote and work for government ownership or con-

trol of the telegraph. We indorse the action of the interstate commission in ordering a reduction of the grain rates between the Missouri river and lake ports.

We favor the modification of the statntes of our state in such manner as shall prevent the staying of judgments secured for work and labor, and the enactment of such laws as shall provide for the speedy collection of the wages of our

We favor a revision of the tariff in the interest of the producer and laborer. The import duties on articles of common use should be placed as low as is consistent with the protection of American industries.

We denounce all organizations of capbest interests of society and as unjusti-

The republican party has given the people an elastic currency of gold, silver and paper, and has raised the credit of the nation to one of the highest of any country in the world, and its efforts to fully remonetize silver should be continued until it is on a perfect equality as a

NEBRASKA POLITICS.

The platform of the independents of this district arraigns the republican party for its failure to keep its promises to the old soldier. With this sort of criticism on the one hand and the complaint of the democrats on the other that the party is simply turning over everything to the soldier for his services. it is evident that somebody's statements are widely at variance with the truth. The real fact is that the truth lies between these two extremes, right along the line of policy being followed out by the republican party.-[Fremont Trib- for governor.

Burt county republicans, among other things, resolved in favor of a more stringent usury law making the penalty for violation, a forfeiture of both princinal and interest; equal taxation, all property taxed at its full cash value, including mortgages and the amount of same to be deducted from the property incumbered.
