—It was a lively crowd of democrats that went from here Monday morning to the county convention at Humphrey.

—A goodly number of citizens went to the political picnic at Platte Center yesterday. A fine time was expected.

—Scores of people have been passing through the city this week, migrating from the scorched regions of the west.

—Prof. I. H. Miller lectured Thursday afternoon at the institute, instead of the evening before. His lecture was very fine.

—An excursion train of five cars passed through the city Thursday afternoon, bound for the Boston National encampment.

—For Harrison wagons and Courtland spring wagons and buggies, call on J. A. Gutzmer, opposite Dowty's drug store. He is sure to satisfy you in prices and quality. tf

—There is a machine for cutting corn, with which two men and one horse can cut about as much as six men by the old-fashioned way. Ernst & Schwarz can show you something of this machine.

—A copy of the Weekly Constitution, Atlanta, Ga., reaches our table. We presume that our thanks are due to J. J. Judd for the same. It gives a very agreeable picture of southern life and affairs.

—J. A. Snow and Miss Docia Covert were married at Vinton, Ia., Monday of last week. We learn that they will make their future home in Des Moines, where Mr. Snow will engage in the harness business.

—Mr. Raybuck has recently lost one daughter by dyphtheria; another is afflicted, and with her father went to Omaha Monday for medical treatment. It is said to be the effect of la grippe last winter.

—As we go to press, Tuesday p. m., a telegram from Platte Center infarms us that 197 teams were in the procession at the People's Independent picnic, and that J. G. Edgington of South Omaha delivered a speech.

—We are in receipt of the annual report of the Nebraska Dairymen's Association, for which we are indebted to S. C. Bassett, secretary. It is a mine of useful information to those engaged in that business in Nebraska.

—The Columbus market promises to be well supplied with vegetables from the near neighborhood—the dry weather has affected the crops in "streaks," some places crops are good, and a few rods only away they are poor.

—Let Nebraskans all around organize to give employment to her worthy, needy sons, in making roads, building bridges, erecting public buildings, etc.—do nothing but what is needed and will be well worth its cost, but have it done now.

—Wallace's advertising car was here Friday, and the paper for the show has been partly placed. This circus and menagerie is doubtless the best that will visit Columbus this season, and by all accounts it is a good one, in every particular.

—Henry Rickert, supervisor of Bismarck township, Platte county, was in the city today to consult with our commissioners in regard to building a bridge across Snell Creek between the two counties. The bridge will be built.—[Schuyler Quill, 6th.

—J. P. Becker is in receipt of a paper containing an address to the old soldiers, recently delivered at Aurora, Ill., by A. B. Patterson, esq., formerly of this city, and Platte county's first judge. Mr. Patterson was in twenty-three battles during the rebellion and was wounded three times.

—H. M. Winslow is having 300 acres of corn cut up. We learn that he pays 5 cents a shock or a dollar a day and board. This will make an enormous amount of rough feed. Everybody should prepare all the corn fodder they can, as hay is likely to be a high price, with scarcity at that.

—Stewart Edgar brought us a sack of fine apples which he gathered from the orchard on the old Weaver place north of the track. They are an excellent sample of fruit and shows how well it grows in Nebraska. He said he had sixty bushels of apples from only a few trees.—[Schuyler Quill.

—G. W. Phillips started Monday afternoon for Des Moines, to attend the meeting of Modern Woodmen, called for yesterday. The camp here will be ably represented by Mr. Phillips. The order has had a wonderful growth, and "neighbors" are very much interested in the outcome of this meeting.

—A very interesting race is to come off at the fair grounds Saturday next, August 16th, at 2 p. m., between P. S. Griffin's horse, May Morning, and Mr. Dugan's horse from Platte Center. Griffin's horse has the best record in the county, and Platte Center wants to win the "belt." There will also be a trotting race, same time, so that lovers of speed will be interested to be present.

—James Hennessey's team broke loose from their moorings Sunday afternoon, on the north side of the city, pushing down the boxing around the tree to which they were tied, and took a spin around, bringing up finally near the U. P. crossing on North street; the buggy was considerably demolished. No person was in the buggy.

—An accident occurred to a freight train Saturday night near Platte Center, the train parting in two on the downgrade into Platte Center from the north, the rear part of the train coming up against the other so hard that the forward car of the second "section" climbed a flat car in front of it. Nobody specially damaged, although considerably shook up.

—From a Nebraska exchange we clip the following, omitting the name of the place. It suits any locality we know of just now, as a matter of fact: "The farmers hereabouts are bringing their hogs in every day and getting them off their hands as rapidly as possible. Without feed hogs are poor property and everybody has begun to realise the fact that feed is going to be very scarce."

—Attorney General Leese and Secretary of State Cowdery took a freight train for Milford this morning on the L. & N. W. road and started out of town. When just outside the yard limit a passenger train ran into their train. They came back to town and took a new start a little later in the day. They say there was no excuse for the passenger running into them as it did and it was pure criminal carelessness.—[Friday's Lincoln Daily Call.

—The Columbus democracy will be represented in the county convention today by D. Schupbach, C. A. Speice, P. Hoppen, C. Segelke, C. Schroeder, E. S. Streeter, G. Falbaum, E. W. North and J. H. Kersenbrock, for the First ward; I. Gluck, S. J. Ryan, O. L. Baker, D. C. Kavanaugh, J. C. Echols and B. Fuller, Second ward, and F. Elias, C. A. Newman, T. McTaggert and J. J. Sullivan, Third ward.

—We write this item Monday noon. The sky is overcast with clouds, stripe of blue appearing here and there; a few drops of rain have fallen during the day; air is cool and moist—but yet no rain to quench the dry earth and vegetation. The following evidences of increasing moisture are given us as indications of the coming rain: water has lately risen in the wells; young trees have shown unusual growth the last few days, evidently drawing more moisture from the ground; there was a heavy dew Sunday morning, and a light sprinkle Monday morning. Will all signs fail in dry weather?

—A bat in the electric light globe at the crossing of Olive and Eleventh streets the other morning attracted considerable attention. The creature was making strenuous but ineffectual efforts to get out of the globe, but the smooth surface was too much for it; the look of excitement and seeming anxiety for freedom seemed almost human on the tiny face. Will Rickly improvised a cage and carried the "bird" home. It is something wonderful—the number and great variety of insects that are found every morning in these globes, attracted the night before by the very brilliant light.

—Miller Bros. have sold their dry goods establishment to L. Tinkel of Holyoke, Col., consideration about $16,000. Barney Miller retires from business, and it is understood that John will be a member of the firm of W. F. Slater & Co. The Racket store will be removed to a larger building. O. C. Shannon's report that Miller Bros. had given a bill of sale for their stock for $9,000, is not correct, at all; the contract of sale calls for a piece of property in Holyoke that is worth $9,000 and a balance of $7,000, two-thirds cash down, and one-third approved notes running thirty days.

—If counties, precincts, townships, cities, villages and school districts are contemplating public improvements, THE JOURNAL would suggest that right now is a very excellent time to enter upon the work. It can be done with a double benefit; like Charity, it will bless them that give and them that receive. One of the best uses of intelligence and wealth, is the power to provide opportunity for labor during times of trouble, distress and calamity. The general public, wealthy corporations and individuals, will be consulting their own interests by having needed work done or begun now.

—Just now is a good time for the business men of the city to look after their special interests, and urge those whose duty it is to put into first-class shape the roads leading into the city. Nothing adds to business, like good wagon roads and bridges. The latter we now have in every direction, let the roads, to and from, be put into shape, and we will see much benefit result. Wasn't there some agreement or arrangement entered into before the building of our south-side bridges that certain parties in Polk county would look aftar the roads there and keep them in good order for travel? Now would be a good time to have such work done.

—The name of the man found dead last Monday week near the west end of the R. R. Loup bridge, was Frank H. Hartford, son of Harrison Hartford of Merrick county. Miss Kurth said that Sunday evening, about 5 o'clock was the last she saw Hartford alive. He intended to walk to Duncan and take a train for Fremont. He was seen as late as 10 o'clock Sunday night sitting on the railroad platform at Duncan. He told some one there that he was going to board a train for Fremont. These facts Sheriff Caldwell learned on his trip to Woodburn, and the coroner's jury decided that Hartford came to his death from bodily injuries inflicted in a manner to the jurors unknown.

—Wm. Courtney of Polk county was in town Saturday morning on his way to Omaha. In a few minutes talk, he had quite a bit to say of old times hereabouts. After settling down on a homestead with his family he had just 25 cents in money left. He remembers it well because when he came to Columbus one day (it was twenty-five miles, but he always liked to deal here), his wife told him before he started that they ought to have a broom; but when he came to price them they were 35 cents, which was 10 cents more money than he had, and it didn't occur to him to ask for credit of a stranger. After several years he related the incident to J. P. Becker, when Pete remarked: "you didn't tell me that 25 cents was all the money you had, or I'd a given you a broom." He spoke in the highest terms of J. P. Becker, and said that there were a host of the old settlers in Polk county who had received favors of him which they would never forget.

—We learn there are several little items going to show that Slawinski came to his death by foul means instead of only by drumkenness. Among these: it is said that a man who accompanied him from one of the saloons to the "White House," a notorious house of prostitution, has talked considerably about Slawinski, and always speaks of it as "before he was murdered," and such like expressions; that a railroad conductor of the passenger train said the next morning that he saw three men pull Slawinski off the platform of a car; that a few days before his taking off Slawinski had purchased a piece of land, the deed for which he had on his person, but had not yet had it recorded—that this deed was found several miles west of where Slawinski was found insensible by young Keating; that the nature of the fracture of the skull which evidently caused his death was very peculiar (to say the least) for a railroad wound—no appearance of a break in the flesh, a puncture or an abrasion, and yet the skull fractured. Public appliances for detection, conviction and punishment for crime should be a hundred times as effective as they now are. The means of individuals more nearly interested are altogether inadequate, and the devils of crime and outlawry should be hunted down and punished by the public authorities at public expense.

Sudden Death.

Monday, Sheriff Caldwell, acting as coroner, held an inquest over the bodies of Mr. and Mrs. James C. Lake, killed by a special train on the Fremont, Elkhorn & Missouri Valley railway near Newman Grove. The jury were G. P. Billups, Niels Jensen, Thos. Howard, Henry Ellers, John Ottis and James Connelly. The unfortunate couple, aged 65 and 60 years, lived two miles east of Newman Grove, and had started from their home in a lumber wagon to go to a neighbor's. The casualty took place but a short distance from their home, and was witnessed by two daughters of the victims. They did not discover the train until very close to the track. Mr. Lake endeavored to urge his horses forward, but it was too late. The horses just cleared the track, but the wagon was smashed, and the bodies of the victims were found in the wagon box on the cow catcher. Death was doubtless instantaneous, the lady's injuries being internal; Mr. Lake's skull was mashed, one arm and both legs broken.

They leave seven children.

The accident occurred at 11 a. m., and the train, the special car of Superintendent Harris.
