THE TIPPERARY TRIAL

CREAT INDIGNATION MANI-FESTED AMONG CATHOLICS.

A Policelnan Testifies That He Followed the Defendants Into a Catholic Church Vestry-Great Disorder in the Court and the Defendant's Attorney Thrown Out.

DUBLIN, Oct. 4 .- Much excitement was occasioned in the court room at Tipperary esterday by the evidence of one of the witnesses, a policeman, who testified that he followed several of the defendants into he vestry of the Catholic church and tried o overhear what was said there by them. This testimony aroused the indignation of the counsel for the defense and he de nanded to know if the feudal days had returned when the sanctliy of the confesional could be invaded.

The court-room became a babel of cries, ind the confusion was so great that it was mposeible to go on with the proceedings. jourt was therefore declared adjourned for half an hour. When court reconvened the coliceman was cross-examined by Harringon, who called the witness a "shadow." The magistrate called upon the counsel to withdraw the expression Harrington reass. An uproar ensued, O'Brien and Dilion commenting freely upon the manner in which the case was conducted. Finally another half hour of adjournment was

During adjournment Harrington's clients decided to defend themselves. When the proceedings were resumed Dillon had just egun to address the bench when a cheer was raised for Harrington. This so exasperated the magistrate that he ordered the ourt cleared, and the proceedings adjourned abruptly, amid the greatest confusion. A large body of police was massed outside of the court. There was no rioting.

An Unprecedented Increase in Circulation for the Month of September. NEW YORK, Oct. 4 .- R. G. Dun & Co.

Weekly Review of Trade says: Never before has there been in any month so great an increase in the circulation or so large a payment of the public debt as in the month just closed. Domestic trade is improving in all directions, at least for the time; there is also improvements in exports. which now show a gain per cent over last year at New York. Of the magnitude of domestic trade, it appears that actual payments through clearing houses outside of New York, were, in September, 1612 per cent. greater than last year. This is partly due to higher prices, for the general average of ceived at police headquarters stating that commodities has risen I per cent, during the past week, and has been over 6 per cent. above last year for the past month. But the earnings of railroads, as far as reported for September, shows a gain over last year of 14 per cent, and the movement of cattle and otton are particularly heavy. In spite of the short crop, the movement of oats also exceeds last year's, while the decrease in ncrease in flour. Sales of iron ore at Cleveand thus far this year exceed last year's to encouraging trade in New England; Philadelphia reports more confidence; Chicago notes, besides heavy receipts of grain, meats and cattle, a larger trade in dry lections, and the same in boots and shoes, but not so prompt collections in clothing: St. Louis notes unusual activity in all any previous year; Cincinnati reports very liberal orders for clothing, a good trade in tobacco at favorable prices and a heavy movement of fruits and produce on account of local scarcity; Milwaukee notes a very good trade, the clothiers especially being unable to fill unexpectedly heavy country orders. At Savannah trade is very brisk; at St. Paul, Minneapolis, Omaha,

The ison market is singularly sustained in the precedented demand. There is a sharp advance in tin, with prices nominally 24 cents, though the visible supply is greater than a year ago. Lake copcents, notwithstanding the raids on other grades, and lead is strong at 5.37 cents, some foreign lead having been bought for importation. Cotton and coffee have been unchanged in price, with oil and hogs lower, but the price of wheat has advanced, while oats have declined.

and for glass chimneys. Many works there

are hurrying preparations to turn out tin

The details given show that in all parts f the country and in all important branches of business there is a phenor enal activity, and, nevertheless, the area comparative freedom from speculative excitement or disurbance. The general soundness of trade shown by the reports of failures, which for the third quarter of 1890 were smaller in umber and amount of liabilities than for he same quarter of 1889, though in Canada t is rather larger in both respects. The decrease in number in the United States was small-2.196 this year against 2,276 last year; but the liabilities were but \$35,452,436 against \$39,failures occurring throughout the country empared with 219 last week: for the corresponding week last year the figures

MORMONISM IN UTAH.

ov. Thomas Finds Mormonism in Every Way an Enemy To America. WASHINGTON, Oct. 4 .- The Mormonism question is discussed by Gov. Thomas, of

I'tah, in his annual report. He asserts that the Mormon people are governed by priests and that in every political and business act the church is put first and the country afterwards. The population of the territory is estimated at 220,932, an increase of 55 per cent, during the past ten years. The Mormons are recruited by immigration from Great British and the Scandinavian countries. The average number of foreign born brought to the territory by the Mormons during the past nine years was about 1.800 annualls and this average has probably een maintained the past year.

been maintained the past year.

The governor says political and official Mormonism deals in evasions and meaning-less words or words of double meaning. hypocritical pretenses and false assertions. Its attitude toward polygamy is delusive in the last degree. It knows there has been no change on the subject, but seeks to conno change on the subject, but seeks to convey the impression that there has been. Prominent church officials, the governor states, have declared that the church does does not now grant permits to enter polyg amy, and the nominal head of the church amy, and the nominal head of the church amy, and the nominal head of the church as announced that polygamous marriages do not now take place. The governor adds, however, that when the attention of the a superopriate present can be head of the church was called to a notorious case uncovered in the First district court, he disclaimed any knowledge of it.

in its laws, nor does it prove that the church is loyal to the law. There in no reason to believe, the governor asserts, that any earthly power can exact from the church any declaration opposed to polygamy. He accounts for the hold which Mor monism has upon the people by the fact that they are taught to keep aloof from in-

fluences Sutside of the church. The governor recommends the passage the bill reported in the senate by Senator Edmunds, which authorizes the governor t appoint certain county officers, and providing for legislative reapportionment. H states that if this bill becomes a law it will place the control of twenty-five counties i the hands of men loyal to the government He also recommends the passage of

Tinned Plate Works to Cost More tha \$5,000,000 to be Built in Baltimore. PITTSBURG, Oct. 4 .- One result of th passage of the tariff bill with its tinned plate mense tinned plate factory at an early day in Baltimore. A company of eastern capitalists, principally from Baltimore and New scheme, The capital stock is \$7,000,000. A well known Pittsburg engineering firm, which has its office in the Lewis block, is after the contract for the building of the works. It is probable that it will receive the coutract. The company will do business o an enormous scale, and will be able to compete with English importers, even if the latter do cut prices. The new concern will have its own tin mines and reducing plant in the west. Ground has been purchased in Baltimore on which the mills are to be erected. The cost of the ground runs into the hundreds of thousands. The mines have also been secured. At the works in Baltimore several new processes for the

manufacture of tinned plate, which have bers. been recently patented, will be applied. The patents have been purchased by the company. About \$5,000,000 will be put into the Baltimore plant itself. It will several acres, and the largest tin plate coneern on the globe. The company's name is not known. It will make a bid for the enplant is to be commenced as soon as the contracts are let, which, it is expected, will be shortly.
