—Mr. Geo. M. Adams, the leading man of the Black Diamond Co., has played this part of the country before with Maud Atkinson, and he should be warmly welcomed by the people of Columbus. For the past five years Mr. Adams's time has been divided between Maud Atkinson and Daniel E. Bandman, the eminent tragedian, and his modesty and fine acting have made for him a host of friends among lovers of the drama and opera. He made his first appearance in this country in 1875, and since that time has always been identified with leading companies and houses, from New York to San Francisco. From the first word he speaks his rich, deep voice makes him friends with the audience.

Daniel Voorhees, that on the subject of temperance he is one of the foremost orators living. Thursday evening at the M. E. church, the admission will be free, and all are invited.

—The Lincoln Call is a rabid prohibition paper, and calls Columbus a rum-ridden town. The Call man, in a recent article, has taken a fact and so distorted it and magnified the distortion as to make a huge affair out of it. He should come up here, inquire into the good behavior of the people of this city, and make an abject apology for the injury he has tried to do. As the city of Lincoln is not to be held responsible for the ravings of the Call, so Columbus is not to be besmeared with slime because of the foolish act of one man, universally disapproved of here.

THE PUBLIC SCHOOLS.

Meeting of the Board—Report of the Superintendent, Showing an Unprecedented Average Attendance for the Month—The Pupils Who Gained a Place on the Roll of Honor.

The board of education met last evening to discuss public school affairs, it being the regular monthly meeting night. President Schuptach, Vice President Taylor, Secretary Davis and Messrs. Kramer and Henry were present. The superintendent's report for the school month ending September 26, was read, discussed and placed on file. Several bill were allowed. Several other matters pertaining to the good of the school were canvassed, but nothing requiring official action.

THE SUPERINTENDENT'S REPORT.

To the Board of Education, city of Columbus, Nebraska.

Gentlemen:—I hereby submit my report of the schools under your charge for the school month ending September 26, 1890.

The number enrolled was 500. The average daily attendance was 445.

The average per cent of attendance excluding the Reed school was 97.6.

This is a higher per cent of attendance than has ever before been attained in any school with which I have been connected, and is also higher than in any other school, whose history is known to me.

It speaks volumes for the efficient manner in which your rules "For attendance of pupils," has been enforced by the teachers in your employ. The per cent of attendance including the Reed school was 96.3.

Number of times teachers tardy was ten. The number of minutes lost by tardiness of teachers was forty-seven.

The number of times pupils tardy was 172. The number of minutes lost by tardiness of pupils was 1,359.

This is only about one-tenth of the number lost by tardiness of pupils during the corresponding month last year.

The loss is far in excess of what it should be, still the gain is so great that I feel proud of the effort in this direction made by pupils and teachers. I trust, that soon we will have no loss to report.

Number of visits by superintendent was sixty-seven. Number of visits by board was nine. The number of visits by others was seventeen. The number of cases corporal punishment was four, as follows: Miss McGath, one; Miss Pollock, one; Miss Cushing one and Mrs. H. E. Ballou one.

L. H. Leavy's room had the highest per cent of attendance and the least number of minutes lost by tardiness, earning for it the half holiday granted by the board. The work being done by the teachers this year is more satisfactory to me than it has been in the past. I think before the year closes, that results will be attained, which will be approved by the most critical member of this board.

The work of the pupils examined by me this year is more thoroughly done and indicates a better grade of scholarship than has existed in the schools at any previous period of my superintendency in this city.

Respectfully,
J. M. SCOTT,
Superintendent of city schools.

Anti-Prohibition.

A good sized audience greeted Col. Ellsworth Friday evening at the opera house, quite a number of them being prohibitionists. On the stage with the speaker were Mr. Pollock and Mr. Gluck, the latter of whom introduced the speaker. The audience was very attentive and the impressions made by what the speaker said were about as various as the number present. Our space is so occupied otherwise that we can give only a fraction of what he said, and that in a very disjointed manner.

Vermont fell off ninety in population in ten years, while lager beer cities gained as much as the whole of the state of Maine. Milwaukee and Omaha sell and drink more beer than any other cities of their size in the United States, and there are none that have better schools, finer churches, fewer failures in business.

He gave a characterization of the "bar" as a thing of evil, that it makes drunkards, etc., etc., and said it is all true, and I believe it. The question is shall we have that bar helping pay our public burdens; put under bonds so that we can reach it when it violates the law; open and above board that we may know just what it is doing, if we choose; selling no liquor on Sundays; none on election days; none to minors; none to habitual drunkards, or shall we have in their stead, the irresponsible, unlicensed, unbonded boot-legger in every alley or by-way?

In Nebraska under high license there are 800 permits taken out under the government, in prohibition Iowa there are 1,800. There are 140 saloons in Dubuque. He compared Nebraska to Iowa, and defied anybody to show one single thing in which Iowa is ahead. At a republican convention in Des Moines they adopted a plank declaring that prohibition is the settled policy of Iowa, and in the cellar of the hotel where most of the delegates stopped there were three barrels of empty beer bottles as a part of the incidentals of the occasion. [We believe the speaker is a democrat, but we don't doubt about the bottles.] They claimed that the election of Boise, a democrat, was due to railroad influence, but he declared that from Garfield's majority of 80,000 to 7,000 for Boise was too big a difference to attribute to anything else than prohibition. Crime has not decreased as much in Iowa under prohibition as it has in Missouri, acknowledged to be an outlawed state.—Now, under license in Nebraska, if a saloon man sells your boy liquor you can prosecute under the law and make him answer for it. If you have not, either as individuals or as a community the courage to prosecute now, you certainly will not have under prohibition, when boot-leggers and holes in the wall would out number your saloons. Prohibition is a remedy that can't show one victorious victory in forty years. In high license Omaha, they can get along with one saloon to every 500 people, in prohibition Dubuque they have a saloon to every 110. He spoke against the Voice, which is being sent to every voter in Nebraska. The Slocumb license law in Nebraska is the best law in the world for dealing with the liquor traffic, and said that the manner of getting liquor had better be open and candid like Nebraska has it, than to have it by stealing, by perjury, by deception and cheat of all kinds, such as carrying a package labled Holy Bible, a flask looking outwardly like a whisk broom, a cane filled with the fiery fluid, a bouquet with a drink of wine hidden within, for the ladies.

In one part of his speech he declared very strongly in favor of national prohibition of the manufacture of intoxicants, their transportation and sale.

Palestine.

The association held at the Baptist church was very largely attended and a very excellent meeting was enjoyed by the brethren and sisters from abroad.

W. D. Hanchett went to Platte Center on business Wednesday.

John Abrahamson lost a valuable horse last week. He brought it with him from Minnesota and prized it very highly not only for its worth, but almost as a friend.

Mr. Christensen is calling out his men to work on the road. Some of them need it very much, for bridges on some of the streams are impassable.

Mr. Morse, a friend J. M. Pearce from Illinois, has been visiting him. He returned last week.

Rev. Mr. Elwell of Madison but formerly from the drouth-stricken regions of Kansas, is a visitor at W. F. Hanchett's. He will preach in Albion the coming Sunday.

Neis Berlin is building granary and sheds,—dimensions 24x14.

Rev. S. B. Hayes presented the Baptist church and Sunday school of this place a good organ, for which he has the most sincere thanks of both.

The victims of whooping cough have nearly all recovered. There have been no deaths in the vicinity, for which we are very thankful.

Mr. Elwell has spent some years in prohibition-ruined Kansas and is thoroughly posted in the statistics of the state and his report is vastly different from the manufactured falsehoods of the Omaha Bee and Farm Herald.

DAN.
