There was quite an excitement on Loeske creek just at this place last week; shots were heard quite often; and some of the neighbors were beginning to fear that Indians (?) had come down the valley. But it was not so dangerous, it was a fox was in the air. A number of brave (?) Nimrod's under Captain Herman Johannes; they were Frank and Herman Muhle, Louis Loeske and Gerhard Loeske, armed with guns and revolvers, spades and clubs, attacked a leaver burrow. The boys dug several tunnels about 12-15 feet deep into the creek bank without any results. They tried to smoke them out, but Herman says he never even heard a beaver sneeze. Funny, is not it? Thursday, Friday and Saturday were spent digging, smoking and shooting in the hole. We examined the tunnels yesterday and came to the conclusion that the work was worth at least a dozen beaver skins. The discouraged hunters have our sincere sympathy, and should say one thing: results this know a receipt how to catch beavers; it would be highly appreciated by the above Nimrod.
