-At the Methodist church last Sabbath, the pastor, in answer to a question, gave the result of the vote to admit women to the general conference. The vote was affirmative by 6214 per cent. The affirmative states with their percentage were New England 70; Western 80; Pacific 86; white conferences in the south 58; the negatives, Middle States 56: colored conferences 71: German 90. In order to carry the measure, two-thirds of the ministers of the annual conference must vote affirmatively and a majority of the general conference which meets May 1st. '92. All admit that it will carry. The Christian Union, which is not in favor of the measure, says: "A measure which musters all of New Eng-

The figure 9 in our dates will make a long stay. No man or woman now living will ever date locument without using the figure 9. It stands n the third place in 1890, where it will remain ten where it will rest for one hundred years. There is another "9" which has also come to stay It is unlike the figure 9 in our dates in the respec that it has already moved up to first place, where it will permanently remain. It is called the "No 2" High Arm Wheeler & Wilson Sewing Machine. The "No. 9" was endorsed for first place by the experts of Europe at the Paris Exposition of 1889. where, after a severe contest with the leading ma chines of the world, it was awarded the only Grand Prize given to family sewing machines, al others on exhibit having received lower awards recognized its superiority by the decoration of Mr Nathaniel Wheeler President of the company
