THE JOURNAL

he one of the mediums, because it, is read by the best people, those who know what they want and say for what they get. We challenge comparison with any country paper in the world in this respect—twenty years publishing by the same management, and never one dun to subscriber published in THE JOURNAL. Thus, better than anything class, shows the class of people who read THE JOURNAL every week.

SUMMARIZED HAPPENINGS.

A Brief Compendium of the Busy World's Events.

PAUPER IMMIGRATION.

ENCLAND WILL CO-OPERATE WITH THE UNITED STATES.

Manufacture of Putsports by Jowish Emigrants to England From Russia to Evade the Tax on Permits.

The officials of the London board of trade are watching the methods of inquiry of the United States immigration commiss It is believed that the inquiry will resul in the appointment of American inspector at all the leading English ports with some system of consular supervision. A high official of the board says the English government officers will be instructed to co-operate with the Americans to secure a reform for the regulating of the tide of emigration. Although publicly protesting that there i no necessity for a special provision against the influence of destitute allens, the government is using the utmost rigors of the existing law to stop the settlement of foreign paupers in Englend. An official inquiry has resulted in the disclosure of systematic frauds on the part of the Jewish emigrants from Russia. Passports, manufactured in England have been sent to Russia to enable the Jews to evade the payment of the £10 levied on each permit to emigrate

ONE MORE WRECK IN OHIO. Narrow Gauge Train Dumped With

Seventy Passengers. Another horror has been added to the late list of railroad accidents in Ohio. A pas senger train on the Bellaire, Zanesville & Cincinnati narrow gauge railroad left the track three miles south of Bellaire, two cars being overturned and dragged some distance. Seventy passengers were on the train, and the two cars turned were crowded. Fourteen people were injured, four seriously and one fatally. The train was running thirty-five miles an hour, and as it reached were hurled into the ditch.

HE'S AN ALLIANCE HERO.

Judge KcKay, of Kansas, Becomes Mor

Unruly Than Before. A letter from Anthony, Kan., states that since his return from his interview with the supreme court at Topeka the alliance judge. McKay, has been acting more arbitrarily while he was before the supreme court answering to the charge of contempt of court. The people's party papers are attempting to make a bero of Judge McKay.

Grasshoppers are ruining the oats crop prospects in twenty counties along the Onio and Indiana border line, and the devastation is most marked in the region around Wabash, Miami and Maumee rivers. crops are ruined by a small green hopper on farm after farm. Many growers, alarmed at the ravages of the pest, cut the oats green, but the hoppers followed it

into the shock, and are now in the corn. The Spanish Reciprocity Treaty. The Spanish reciprocity treaty and the liplomatic correspondence pertaining hereto has been made public, the president issuing the proclamation announcing the full text of the treaty. It is made pursuant to the last tariff act with a view to ecuring reciprocal trade by reason of the exemption from duty of sugar, molasses, coffee and hides upon their importation

into the United States. Indian Troubles Settled. The interior department officials express great satisfaction over the success achieved consent of the Ogalallas to the removal of the Chyennes from Rosebud agency. They

CHAIRMAN QUAY and Treasurer Dudley have resigned from the republican national committee. J. S. Clarkson, vice chairman, succeeds to the chairmanship, entrusted with power to name a treasurer. The opinion of the members of the committee present favored the holding of the next republican national convention as early as May.

A LARGE meeting of business men was held at Johnstown, Pa., to take action in regard to bringing a suit against the South Fork club for damages sustained by the great flood. A committee recently appointed to visit the dam reported that it had obtained ample evidence that the construction of the dam was faulty. The proposition to proceed with the suit was passed unanimously and the necessary money will be raised

immediately. RAINMAKER MELBOURNE was exultant at Canton, O., over the success of his now claims to his credit seven successes down to a broken machine, as he calls duestion of removal of the main prison other western freight rate war. o'clock in the afternoon the skies clouded and rain fell at intervals until

evening. THE fields adjoining the Indiana and Ohio boundary line are alive with grasshoppers, which are doing an inestimable amountoof damage to the crops. Grain is being harvested earlier than usual in order to save it from the ravages of the insects, but in the majority of cases so much damage has been done as to render the crops of but little value. The grasshoppers have only appeared within the last few days, and they have been the source of no little consternation among the farmers, many of whose crops will be short fully a half. The hoppers seem to be traveling eastward, and, while not much grain is being devoured, they ruin it by cutting

off the stalk. ONE of the changes made in the weather bureau is the enlargement of the local value of weather predictions by the appointment of twenty local forecasters. The list of places where these appointments will be made has not yet been entirely completed, but it will in-clude Chicago, St. Louis, St. Paul, Cincinnati, Cleveland, Detroit and Indianapolis. Heretofore the general forecasts | Kountzie, Tex., a big saw mill center. from Washington have been practically Officials are making an investigation, the only ones. These are valuable to but are very reticent. country, but not so much so to the public locally or to the agricultural inter- recently failed at Atlanta, Ga., for \$2,-

clais have had the right in the past to place forecasts upon their maps, but this has not been done generally. It is

the intention to appoint men of the highest ability, with the special duty of giving the most detailed possible local forecasts. Congress provided for but twenty such offices, and it is a matter of extreme difficulty to make a selection of able men and of points which will be satisfactory to the general public. Generally speaking the offices will be thickly scattered along the northern boundary, where changes are most frequent. The Canadian observatories, while excellent and operated on much the same plan as our own, are not nu-

IN THE WEST.

THE Chicago & Grand Trunk railway, of Canada, has lifted the boycott against the Chicago & Alton road. This is believed by some to be the beginning of the end. The success of the Alton in in bringing about this result. It is said sort of secret society for the purpose of fighting the enemies and favoring the friends of the Alton. The prediction is made that not a few of the eastern lines will promptly accept the opportunity gate their agreement.

A THUNDER Storm came near wiping out the mountain town of Genoa, Nev. | the Northern Pacific company. A new A cloud bursted near where the big snow slide occurred a year ago. In a few moments a big flood of water came down three separate canyons, sweeping everything before it. From Genoa can-yon the water rushed down in a single column twenty-five feet high. The water made a clean sweep from the are extending their communication snow slide canyon, leaving the rocks bare, and dashed over the base of the mountain. Rocks and debris covered much of the finest meadow and grain land and a great deal of damage is also, entailed by the loss of crops.
