Misses Ella and Abbie Hurd gave a croquet party at their home, to several invited guests last Tuesday evening.

The congregational church will be dedicated next Sunday evening. Communion services will be held in the morning.

Mrs. Winterbotham has received word of the death of L. Cockburn, formerly of this place, late of St. Joseph, Missouri.

The ladies of the Relief Corps have a special meeting this (Wednesday) afternoon at Sperry hall. Important business on hand.

Christianity is decidedly the missionary spirit, which seems to be taking an unusually strong hold of the young Christians of Nebraska.

Joe T. Camp has started a paper at Corvado, near Lincoln. Good luck to you, Joe, and may we now hope that you have struck your gain, to keep it.

The Central City Nonpartisan (Republican) says that Judge Ewing, the nominee of the independents, "is an able man, and if elected will be a credit to the bench."

For Harrison wagons and Conland spring wagons and buggies, call on J. A. Gutzmer, opposite Dwyer's drug store. He is sure to satisfy you in price and quality.

It is wonderful the amount of rain that has fallen the past week in this section. In the neighborhood six threshing machines were delayed for days on account of the rain.

Dr. A. J. Sanders of Grand Island was in the city Monday, and gave us a very pleasant call. The doctor is gaining a large practice, and is a gentleman of undoubted ability.

The social last Friday evening, given by the ladies of the Congregational church was very well attended. The Indian club, singing by Mr. Nehrbes of Monmouth, Ill., was highly entertaining.

It is said that Fred Jewell holds the independent nomination for coroner, declaring that he will not vote for a man on that ticket when he knows he is an independent for a money consideration.

W. T. Riechy was able to be out and to work for a short time Saturday. He had a serious struggle with two tough complaints, but it is to be hoped that he is now on the way to complete recovery.

The Telegram says that "Saunders is engaged in an attempt to 'pull the legs' of the independent candidates for enough money to keep the Argus alive until Deak is elected and he becomes deputy treasurer." Which reminds us that the Telegram, before the convention, said that the deputyship for Saunders was a portion of the Deak deal. How does the Telegram know so much about the inside workings of the independent party in Platte county?

John Torson, living near Humphrey, last Tuesday evening lost a week, a stable and six horses; the barn was struck by lightning, fire resulting, loss about \$1,000; the barn alone was damaged by lightning, the same evening, and the house was considerably damaged. There was a stroke of lightning that struck in these parts but was something covered by a policy with the Omaha of Freeport, Ill. Becher, Jegg & Co., agents.

The complete prohibition county ticket is: For judge, A. Luth; for county clerk, M. Bruggar; for treasurer, E. A. Gerrard; for sheriff, P. H. Kelley; for clerk district court, H. Hockenberger; for superintendent, Fannie E. Lightner; for surveyor, C. G. Hickok.

Rev. A. Heinrich of Platte County preached Sunday morning in the Baptist church to a very attentive audience, evidencing remarkable vigor of delivery for so good an age. The substance of his sermon is always excellent, and this was no exception.

The infant child of Mr. and Mrs. H. C. Chas. died in Columbus and was brought to this city for burial yesterday afternoon. A surgical operation was performed upon the child from the effects of which it could not recover.

Dr. Baker Post No. 9, G. A. R. and their visiting friends, have been assigned at Camp Sherman, Grand Island reunion, ten tents on B street and Porter avenue. The quarters will be very pleasant and convenient to all the exercises of the camp.

Saunders declared it an ill-advised thing to place him upon the ticket, and yet he did consent to be placed in the tail of it as a coroner. The same reasons he assigned as moving him to decline to be clerk, were just as forceful against him as coroner. As Kiernan would say, Oh Julius Caesar!

Front Sunday morning, but no damage done in this region that we have heard of. One of our citizens tells us that years ago an old man in Iowa told him that the first frosts do no damage when they come in the light of the moon. Our informant says that he has found the old man's assertion true.

When the circus is in town special police are usually appointed to look after the extra number of people on hand. Why not have an extra one or two, when the base ball games are in session on Sunday, so as to protect property from loss by trespass and damage, by the assembled congregation?

Senator Faddock, who had been busy at Washington City, looking after Nebraska matters, left there last Wednesday evening, expecting to be detained a week or more on private business on his way home. The senator, whether during the sessions of congress or not, is always on the alert for Nebraska interests.

C. W. Talbitzer, president of the county alliance, has issued a call for a special meeting of the county alliance "for the purpose of ratifying the nominations made by the people's independent party at Columbus, on the 10th inst." The same delegates elected to the county alliance of July 1, 1891, will be delegates to this meeting.

Mr. Temple of Merrick county was defeated for nomination by the independents, so says the Nonpartisan, because he had the candor to say that there were two planks of the Cincinnati platform which he did not approve, viz., the free coinage of silver and the anti-trust scheme, and yet he was "the strongest man in the county for the office."

Jacob Tschudin of Loup township had a very narrow escape Saturday evening, his team became frightened, one of the tugs came loose, which let the neck-yoke down; the wagon was overturned, and Mr. T. was considerably bruised, besides having his collar bone broken. He was in town, nevertheless, on Monday, with one of his arms tied in a sling.

K. Masano, a Japanese young man, talked at the M. E. church Sunday evening, giving something of his experience in being converted to christianity. He is being educated in this country, expecting to devote his life to missionary work among his people. Speaking in his own language, he is probably a fluent talker, but in English rather awkward.

W. R. Dale, Adolph Sauer and Bay and Fuller returned Thursday from the second biennial K. P. encampment held at Beatrice. There were about forty visitors present. The liberality of Columbus people two years ago to the order will never be forgotten by them, and they are loud in praise of their treatment here, at their first state encampment.

Miss Anna McColm of Council Bluffs has been elected by the school board to be one of the teachers for the coming year, in place of Miss Swearingen who has resigned. Miss McColm's position has not yet been assigned, but we understand that she will teach the primary department of the First ward, where Mrs. H. E. Ballou has taught for so many years, and so successfully.

When Nebraska farmers come to understand all the benefits of sowing rye, there will be more of it raised. At the last working of corn it can be sown, giving good fall and winter, and early spring pasture, and yet produce a good crop of grain. A Dawson county farmer has harvested a crop this season, averaging forty bushels an acre, and for which he refused 85 cents a bushel, amounting to \$6,900.

Henry Ripp met with quite a serious accident last Tuesday which resulted in the loss of the fore finger of his right hand. He was adjusting a lantern on the elevator of Ripp & Lannert when the spout came loose, falling striking his finger with the above result.

W. H. Selzer was in town yesterday for the first time in three weeks. He has been laid up with a broken leg. (Humphrey Democrat.)

The small grain has begun to come in at a lively rate. The farms of Nebraska this year are excellent properly to own, and the country presents a splendid prospect, with its numerous, bulg-dick stacks of grain, its very numerous and very busy crews of threshers, its large, luxuriant corn fields, and the busy hay-makers pushing toward the sky the well cured hay that, later on, help the herds to fatten, and the creameries to thrive, the towns to rejoice and the cities to boom; the orchards, too, are this year adding their bounteous bounty to the current riches of the commonwealth. The year of 1891 will long be remembered.

Some of the Wild West troupe has sent us a copy of the London Pictorial News giving an account of the grand performance for the benefit of the Balaclava heroes, at Manchester, England. There were a number of maneuvers by the survivors of the charge marshaled and led by a picturesque member of the Wild West troupe, amidst the rapturous and enthusiastic plaudits of those present, by raising and waving their hats. The usual Wild West program was afterwards rendered. 300 was placed to the credit of the Balaclava survivors. An enormous crowd of people were present.

We have it from a truthful source that there is, in Loup township, this county, a family, one of whom, a boy about fifteen, is demoted; that all summer long he has been kept in a shed away from the dwelling, without any clothing but a shirt; that he is fed with the calves; that he is abused by both mother and father; that the father, on being remonstrated with, declared that he hoped somebody would shoot him. This JOURNAL begs leave to say that this is one of the cases wherein the public authorities are not only justified in interfering, but in which it is their duty to interfere. There are people in the world, who believe in disposing of the "Globe;" at the close of the 6th, with five against four the situation was a little more favorable, but by no means decisive; the close of the seventh, with equal scores for the inning, leaving the total thus far, nine against eight, was less encouraging still; the eighth, with no increase to either side, made the situation very interesting, with a "may be" for either side, resulting in a victory for the Globe, by just what they got in the last inning. There was betting of five to one in favor of Platte Centers, but such betting has been done before and lost.

Now this may seem strange but if they don't cry for it they would do so if they only could. We are talking now about Haller's Bar Wire Lintiment which never fails to cure the worst cut or scurf. For sale by Wm. Kearville. 7-12augy

LOST IN FLAMES. The Columbus Packing House a Thing of the Past. Saturday afternoon, August 20, was noticed leaving from the city, and between the U. P. and B. & M. tracks. It being impossible to use the waterworks upon the fire, the U. P. switch engine was made ready, and run to the building. Mr. Mougher says it was wonderful the work of the engine in throwing water upon the fire, and says that if they hadn't been compelled to run for a second tank of water they might have saved the lower story. A portion of the lumber was saved, as it was.

The packing house was built in 1881 and fully equipped for business, at a cost of about \$9,000, the owners being L. Gerrard, R. H. Henry, John Higgins and D. Anderson. The latter shortly withdrew from the business, and the house was sold to the present owners, Messrs. Becher, Jegg & Co., agents.

J. C. Techudy met with quite a mishap Sunday. While loading his mink to water, he scalded at a passing wagon, reared and came down upon the old soldier, breaking his left leg between the knee and hip joint. Drs. Martyn & Evans were called and set the limb. It is to be hoped that Baker Post's quartermaster will be off duty but a few days or weeks at most, and that while the healthy bone is knitting, nature may be as kindly disposed to him as possible and give him little pain.

The Sentinel, which was in favor of nominating his Honor, A. M. Post, as one of the independent candidates for judge in this judicial district, says now, after the convention, in defense, that "it is better for a district to have a judge who is honest and competent (though "off" politically) than to run the dangerous risk of electing a judge of inferior ability," and adds: "These were and are our honest convictions." Why use for better men than the independents nominated the other day?

Frank Muller took in the sights around Columbus Monday evening. Rumor hath it that one of our citizens in the northern part of town has flown with his sister-in-law. At least the girl's wife was on a still hunt for him Wednesday, but received no clue as to his whereabouts. On the morning of his departure he told his wife that he was going next the Platte river to seek work. Perhaps the "monster" fish has swallowed him. The sister-in-law proceeded with a couple of days, going by way of Columbus. (Bellwood Gazette.)

The Omaha Bee of Saturday remarks that the most shocking case of juvenile depravity ever brought to notice, if not the most frightful ever in existence was revealed Friday in that city. More than a dozen children ranging from six to twelve years in age were rescued from loathsome disease, details too disgusting to print. The infamous den and dives of every city and town in the land should be abated as the worst of nuisances, far worse than the disease which are securely quarantined within a day after their appearance.

Richmond L. Ives and Miss Bertha Ayers were married at the residence of the bride's parents in this city last Wednesday evening. Rev. W. S. Hunt officiating. E. E. Fessall and Mrs. St. Clair of Madison, cousins of the bride, stood up with the couple. About twenty invited guests were present to witness the ceremony. Thursday evening a reception was given at the residence of the groom's parents about five miles north of the city. Both groom and bride are well known in this community and all unite in wishing them all of the joys of this world while life shall last.
