THE South Omaha Tribune says "Mr. Edgerton dares not tell where he stands on very important questions."

MONTANA was visited on the 2d inst. with a snow storm that has been drifting incessantly for forty-eight hours.

It is indeed anomalous, to see the unhappy Russian Jews seeking Canada as a place where the rights of human beings are at least partially respected.

WEDNESDAY, Oct. 14th, at the Sioux City corn palace, is the day dedicated to Nebraska in honor of her raising a large proportion of the corn product of the world.

The state democratic central committee met in Omaha on Monday, and adjourned without either making any nomination or recommendation for supreme judge.

The present emperor of China has issued a decree commanding his subjects to permit those who have embraced christianity, to live in peace, and forbidding all persecution for conscience sake.

The Hog is a Stammer. The economic question of feeding pork, it occurs to us, is the most opportune at this time that demands the thoughtful consideration of every farmer that produces pork for the market.

A writer in the Inter-Ocean of a recent date says the majority of farmers in this section adhere to the notion so often expressed, "When you get a hog-going, keep him at it as long as possible."

This means practically that the hog should be fed to a large weight. Carefully tested experiments have proven the fallacy of this practice, that hogs should not be fed beyond nine or twelve months of age.

There is another consideration in connection with this question of feeding that is forcing itself to the front. The meat inspection bill has called into existence an army of inspectors, who, with their little microscopes, are prying into the muscular structure of the hog, in search of trichina.

The results so far have developed the fact that it is only found in old hogs, none being discovered in the carcasses of young hogs. If this fact shall be established beyond a peradventure, then an imperative necessity exists for farmers and all who raise hogs for the market to study more closely the economic question of raising pork, so that the vast sum of money required to the meat inspectors, may be reduced to the minimum of cost to the producer by the raising of hogs that do not develop trichina, but push them into the market while the largest returns are derived by the breeder.

The attitude of the European powers in their continued preparation for defense, or aggression, as the necessities of the case may require, are full of portent to the student of current events and indicates the unrest permeating the monarchies of the old world.

It is indeed anomalous, to see the unhappy Russian Jews seeking Canada as a place where the rights of human beings are at least partially respected.

EX-PRESIDENT CLEVELAND has a new joy. An heirloom entered his home on Saturday morning, the 30th inst. Nursery rhymes are jingling in his ears.

BOULANGER, like Balmaecia could not meet the certain results of his misdeeds, and like cravens, when the tables were turned against them, they had not the moral stamina, that true heroes inherit, and cowardly sought the suicide's grave, bereft of all the moralities of noble men, ignoble and shameless in their lives.

VACAVY SEWARD was crushed to death at Schuyler on Wednesday; his team ran into a ditch, which caused the reach of his wagon to break, while he was fixing it, the load of lumber with which the wagon was laden, fell upon him crushing in his breast and breaking one of his legs.

IF there is any consolation to the few croakers who oppose the pension law of America, they are referred to the fact that 13,229 pensioners were dropped from the list last year by reason of death. It will take a long time for all the pensioners to pass into the silent majority, but the old soldiers and their widows are dying at a rapid rate each year.

DISAPPEARED from Russia say the outlook in the interior continues to grow worse, and there are grave fears of a revolution. Cattle are dying by thousands by the roadside, and the straw from the thatched roofs are being utilized for fodder.

THE republican state convention at Lincoln last Thursday nominated Judge A. M. Post, of Columbus, as the fifth ballot for supreme judge.

THE republican state convention held at Lincoln last week was the most satisfactory to everybody of any that has been held for years.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance.

Castoria is an excellent medicine for children. Mothers have repeatedly told us of its good effects upon their children.

Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interests of their children, and use Castoria instead of the various quick nostrums which are destroying their loved ones.
