PERKINS IS APPOINTED

HE TAKES HIS SEAT IN THE SENATE

After a hot struggle Gov. Humphrey named the ex-Congressman to represent Kansas in the Senate—Other News National and Non-Political.

Gov. Humphrey, of Kansas, on Friday appointed ex-Congressman Perkins United States Senator to fill the vacancy caused by the death of Senator James H. McMillan.

Perkins is a native of Ohio, and was elected to the Senate in 1887. He has been a member of the Senate for several years, and is well known in the Republican party.

Perkins was born in Rochester, Lorain County, Ohio, Oct. 15, 1841. He received a common school education, with a short attendance at Knox Academy, Olesburg, Mo.; read law at Ottawa, Ill.; was admitted to the bar there in 1877, and commenced practice; served four years as a soldier in the Union army; was elected to several county and district offices prior to 1887; was elected to the 47th Congress from Kansas and also to the Forty-ninth Congress in the same way; and was elected to the Fifty-first and Fifty-second Congress from the Third District.

BOMBED THE CASTLE.

An unexpected explosion in the Official building caused the death of a man.

A decided sensation was caused in Dublin by an ill-defined rumor that the "physical force" party had resumed operations, and that their first attempt would be made against Dublin Castle, the official residence of the Earl of Zetland, Viceroy of Ireland.

While the workmen were at dinner an explosion occurred in the basement, and the report was current that the castle had been wrecked, but the official office state that after the first feeling of alarm had passed, it was ascertained that the explosion was confined to a few rooms, and that no lives had been lost.

The explosion occurred in the basement of the castle, and was caused by a gas leak. The explosion was confined to a few rooms, and that no lives had been lost.

A BATTLE IN FAIRBANKS.

The British troops made another advance and won a second victory.

A dispatch from Oligit, on the Chukchei frontier, says that the British forces have made a forward movement against the Hunza and Nagar tribesmen, and that they captured another fort located a short distance from the fort of Oligit. The force here consisted of a hundred men of the Oshana regiment under Lieut. Taylor, Mansergh, and Smith. They scaled the precipitous cliffs of the fort and captured the strong breastworks, the defenders of which were kept in check by a heavy fire from the hill fort. One hundred and eighteen prisoners were taken.

Miss Sherman's Wedding.

The marriage of Miss Rachel Sherman to Dr. Paul Thordyke, of Boston, was solemnized at the residence of Senator Sherman in Washington, in the presence of a large number of friends and high officials from all parts of the country.

AS TO CHILL

The Present Condition and Disposition of Our Country Towards Her.

The President and Secretary Tracy have taken all the steps that they possibly can under the existing circumstances to place the United States in a position to enforce her demands against Chili. All the available troops of the navy are on duty so that they can be readily taken to Valparaiso harbor in the event of need. Every officer holds himself in readiness to respond to an immediate call. The administration has been hurried to the Pacific Coast, torpedoes are being made by the Hotchkiss Gun Company, and launching gear for these torpedoes has been placed on all of the steam vessels, and those which have not got them will be supplied. Steps have been taken towards preventing the fitting out of the new Chilean ironclad, the *Albatross*, and the difficulty between the United States and Chili is settled. Now the administration is waiting for President Hout to form his cabinet, and to discuss with that cabinet the course which he shall pursue.

SOME ONE'S FAULT.

A New Year in Affairs—Holding People to Account for the Year's Progress.

The coroner's jury investigating the New York Central wreck at Hastings Christmas eve, has returned a verdict holding the railroad company responsible for the accident. The verdict also accuses the New York Central Railroad of negligence in the discharge of its duties as a common carrier.

CRUSHED UNDER FOOT.

A Horrible Stomach in a Theatre Caught the Eye of the Law.

A theater in Galas Head, county Durham, England, was the scene of a frightful play in which, according to reports received, at least ten people were killed outright and many injured. The sight of a small blaze, caused by a man in the audience dropping a lighted match on a wooden covered floor, caused someone to start the cry of "fire." Immediately there was a wild rush for the door, which owing to the narrow passage, was blocked, and only a few succeeded in getting out. The staircase leading from the gallery also became blocked. A checkered coat, which was lying on the staircase, was crushed to death under foot. When the panic subsided the bodies of nine children, whose lives had been sacrificed, were found lying on the floor of the gallery. A constable, who was seated in the recess, was dragging out a body wedged among the struggling people, and discovered that it was the body of his son.

ANOTHER MONOPOLY.

A Chance for One Man to Control Electric Railways.

The rumors in reference to the patents being received by Hon. O. S. Kellogg covering the whole electric street car system now in use have caused a great deal of interest in Springfield, Ohio, Mr. Kellogg's home. By the decision of the Supreme Court of the District of Columbia and by the refusal of letters patents of similar nature in Springfield, Ohio, Mr. Kellogg's patents are asserted to be the possession of all the streets, appliances and principles used in the electric street car system now in use by the Thomson, Houston Company and Westinghouse Company and all others.

SQUAW MEN ORGANIZE.

THEY OBJECT TO BEING COMPLETELY TURNED DOWN.

An Association formed of Squaw Men at the present time, and they are objecting to being completely turned down.

THE SUGAR INDUSTRY.

Its Future Assured if Nebraska-States Will Lead.

A GENTLEMAN connected with the government inspection department at the Grand Island beet sugar factory has been interviewed in regard to the future of the beet sugar industry in Nebraska.

"I am confident," said he, "that Nebraska beet will take the lead in the beet raised in California, Utah or elsewhere, in part as well as in saccharine matter. Last year the beet raised in the vicinity of Grand Island were of excellent quality, averaging 16 per cent of sugar. This year the percentage was not quite so high (being about 14 per cent), but the yield was much heavier. Some farmers raised twenty-three long tons per acre, the average being from twelve to fifteen tons."

"I have seen statements that a syndicate was being formed to build a large refinery in Lincoln with several factories in the State to make sugar or raw sugar to be refined elsewhere. It is not on this basis. The plan is a practical one, involving the planting of beet at various points, and the result, I think, will be more profitable than by the present plan."

MANGANESE DEPOSITS.

Rich Outcroppings of This Scarce Mineral in the Black Hills.

The manganese discoveries made during the course of the Black Hills expedition show good prospects and will probably be worked on an extensive scale before the winter is over. The discoveries so far made extend over a large tract of country, and are of more, commencing sixteen miles south of Custer City in Pleasant Valley, from whence it is traced northward for several miles to the Black Hills.

END OF THE SIMS GANG.

SEVEN ALABAMA OUTLAWS STRUNG UP.

Four Members of the Savage Family and Bob Sims Taken from a Sheriff's Force and Lynched—Two More Followed After—Captured at the House of a Cattleman.

Alabama Justice.

Bob Sims and two members of his bloody gang, James Thomas and John Savage, were lynched in Choctaw County, Alabama, by a mob John Savage, a son of Thomas, was only 19 years of age. The Sims gang had been guilty of many crimes, the culmination coming when the McMillan family was
