M. K. Turner of Columbus, Nebraska, is visiting friends in Cadiz and vicinity. Mr. Turner is a Cadiz boy, born and bred. About twenty-five years ago he went west "to grow up with the country." At that time Columbus was a small village, now it is a flourishing city. He is engaged in farming and in publishing the Columbus Journal, one of the leading and influential journals of Nebraska. He looks natural, and the gray which with the frosts of years has silvered his head, does not change the features of his youth. His many friends here are glad to meet him.—[Cadiz (O.) Republican.]

While in search of news, we overheard a merchant and a customer in dispute over some dishes; the customer asserting his wife broke too many dishes in baking the food. Always glad if we can be a peacemaker in families, we submit the following from an exchange: Earthware which is to be used in baking should be tempered by putting the dishes into cold water over the fire and bringing the water gradually to the boiling point. When the water boils around them, remove them from the fire, and let them remain in the water until it becomes cold.

They inhabit the lofty mountainous heights of Europe and America and only descend within range of vegetation occasionally, to feed on berries, insects, etc. They belong to the grouse family."

A former Columbusite. Some friend has remembered and sent us a copy of the Larimer Boomerang Annual, a neatly printed publication containing numerous fine engravings of buildings and notable men of that section of our domain. The following sketch is from its columns and refers to a former Columbus citizen, whose many friends here will be pleased to know of his success in his new location at Carbon, Wyo.

We herewith present to the public a portrait of Carbon's genial bonafide, Mr. O. H. Archer of the Scranton house. Those who have had the pleasure of enjoying his hospitality will remember the Scranton house at Carbon. This well known hostelry was established at Carbon in 1878. A year later the building was destroyed together with a large part of the city. Lewis & Anderson, the owners of the building at the time, erected a one-story building on the original site and occupied it until August, 1881. They conducted the hotel as a first class establishment, and when he reached the entire property of them. He was ambitious to give Carbon a good hotel and establish for it a reputation among the traveling public. On the 17th day of April he therefore contracted for the enlargement of the building by the addition of a second story. The building was thoroughly completed and improved during the past summer and today as a comfortable and enticing place for the traveler or pleasure seeker has no superior in the state. His last fifteen nicely appointed sleeping rooms. Mr. Archer is a thoroughly western man. A Virginian by birth, his boyhood days were spent in Wisconsin, and he reached his majority here followed the course of the star of empire, westward, and settled in Nebraska. Mr. Archer was Nebraska's first printer and was the most important changes in the state. He learned the printing business when a young man and followed the "art recreation" until he left Nebraska. It was in the latter state that he married the lady who is now such an acceptable hostess at the Scranton house. Mrs. Archer's father, John C. Archer, was one of the founders of Columbus, Nebraska. It is an honor and well known name there.

Mr. Archer has been a resident of Wyoming nine years and before going to Carbon was engaged at ranching. He has witnessed a great many important changes in the state. His confidence in the future of Wyoming is attested by his investments in the Scranton house. His enterprise in improving it, and his manner of conducting the lodgings is a great credit to the place. Visitors to the city are met at the depot by a "bus and driven off a short distance to the hotel with speed and comfort. The table is always supplied with the choicest of the market affords and the service is of the very best character.
