We want every mother to know that croup can be prevented. True croup never appears without a warning. The first symptom is hoarseness; then the child appears to have taken a cold or a cold may have accompanied the hoarseness from the start. After that a peculiar rough cough is developed, which is followed by the croup. The time to act is when the child first becomes hoarse; a few doses of Chamberlain's Cough Remedy will prevent the attack. Even after a rough cough has appeared the disease may be prevented by using this remedy as directed. It has never been known to fail. 25 cent, 50 cent and \$1 bottles for sale by C. E. Pollock

-"I have just recovered from a sec ond attack of the grip this year," says Mr. James O. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days for the first attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.' 50 cent bottles for sale by C.
