The locked-out men appear to be thoroughly cowed by the presence of the militia, and it is not probable that they will offer any resistance to the introduction of nonunion men on Monday, although it is not to be denied that some of the less intelligent of the strikers are in a very ugly mood and may incite an outbreak. In this they will have the assistance of thousands of idle hands from the Carnegie mills at Pittsburg and Beaver Falls, and laborers who sympathize with them. The troops may remain another to investigate the case. 10 72 week but will hardly be kept beyond that time. The Carnegie people, who realize this, are apparently preparing to meet any trouble that may occur after the troops leave. Hugh O'Donnell said: "Not a man will go back."

There has been little talk concerning strike for the disorders, but the leaders have taken time by the forelock and made every preparation in the event of counsel have also been retained. An occasional rumor that Hugh O'Donnell and others would placed under arrest by Sheriff McCleary causes some excitement, but the men most interested that would probably be brought against them is conspiracy. lowing notice was to-day posted by the Carnegie Steel company at the Homestead mill in the vicinity of the works and was sent all over the country:

"Notice-Individual applications for emplopment at the Homestead steel works will be received by the general superintendent, either by letter or in person, until 6 p. m. Thursday, July 21, 1892. It is our desire to retain in our service all of our employes whose past record is satisfactory and who did not take part in the attempts which have been made to interfere with our right to manage our business.

"Such of our old employes as do not apply by the time above named will be considered as having no desire to reenter our employment and the positions which they held will be given to 34 11 other men and those first applying will 3 94 have the choice of unfilled positions for which they are suitable.

"This notice will be the last given to 15 00 employes of the works and on a noncompliance with this the places will be filled with non-union men."

Secretary Lovejoy said in an interview to-day: "There is not the least doubt, that we will have enough men to work the mill in a satisfactory manner. The Homestead mill will be started up July 23 and the notice posted to-day will be the last. The men at Beaver Falls and our Union mills will be given until Monday July 18, to return to work under a new agreement.

"The Union mills will be started Monday, the 18th, and we will have no trouble in getting competent men to fill the places, in spite of what the men say about no one but old hands being able to successfully run the works." If there are non-union men in the mills there are not more than ten or twelve. A prominent and well-informed labor leader explained the

smoke from the mill by saying; "The cupolas are filled with dolemite and are lighted to save the burned stone in them. A few furnaces are fired also. This is being done to save 100 00 them from dampages. There are no 32 80 men in the works but the regular

watchmen and a few firemen. These people were never stopped going to or from the mill. Our people thorough-ly understand why the men are there and are not alarmed about it, nor are they concerned over the lighting of the

GLADSTONE'S BIG JOB. Liberal Leaders Worried by the Pa

nollites and Labor Mon. LONDON, July 18.—The question now troubling the Liberal leaders is how far the Parnellite and Labor members will go in support of Mr. Gladstone. The Parnellites hate the Liberal leader more ardently than the Tories, and there is hardly a doubt that they would sooner see home rule defeated than ac cept it at his hands. The prospect of a home rule measure fashioned Gladstone, Healy and McCarthy is something they cannot tolerate, and the Conservatives and Liberal Unionists will probably have at least the secret sympathy and as far as possible, the active co-operation of the Parnellites. As for the Labor members, they profess complete independence, and while they are presumably not opposed to Irish home rule, there is no reason whatever for assuming that they will go out of their way to forward it. Besides, a large number of the straight Liberals gave but faint support to Home Rule in their election addresses, and may conclude to show a good deal of independence as to the details of a Home Rule

English Election Returns. LONDON, July 18 -At noon to-day the total returns received show the election of 259 Conservatives, 43 Liberal-Unionists, 253 Liberals, 59 anti-Parnelites, 8 Parnelites and 3 Laborists. This gives the government 302 members and the opposition 323.

At an early hour this afternoon election returns showed only one seat gained by the Liberals. This was in the south division of Lincolnshire, where in the general election of 1886 Mr. A. R. Heath, Conservative, was returned without opposition. Mr. Heath contested the district this year, but Mr. Perks, his Liberal opponent, was elected by a majority of 839.

At 2:30 o'clock the returns show the election of 265 Conservatives, 45 Liberal-Unionists, 262 Liberals, 64 anti-Parno damage was reported and little rain | nellites, 9 Parnellites and 3 Laborists. This gives the government 310 mem bers and the opposition 338.

The two most important bits of new to-day were the return of Justin Me-Carthy for the North division of Longford and the re-election of Baron Rothschild in Buckinghamshire.

BOONE, Iowa, July 18.-A terrific wind and rain storm passed over this region last night, doing a great amount of damage. The wind blew a perfect hurricane, while the water fell in torrents at the same time. The storm lasted over an hour, flooding everything and raising all the water courses. In this city this morning trees are uprooted in all parts of town. From the country comes news of damage to crops, wheat and oats being badly lodged and corn leveled. Many fields of oats are completely destroyed and corn on low lands washed out. The storm was almost a tornado, and considerable alarm was felt during its

continuance. Windstorm Destroys Crops-VIRGINIA, Ill., July 18 .- A violent windstorm swept over this section early yesterday, doing considerable damage to crops, leveling hundreds of acres of corn and oats, thereby suspending farm work generally.

PROCTOR OR HOBART. The Republican Executive Committee

Meets to Select a Leader. NEW YORK, July 18.-The National Executive committee of the Republican party met in the Fifth Avenue hotel at 11 o'clock to-day to elect a chairman of the National committee to succeed W. J. Campbell, whose resignation was read and accepted at this meeting. Last night there was some talk of John C. Spooner for the place, but this morning it was said Mr. Spooner would not take it and his name would

not be presented. Mr. Payne brought with him a letter of resignation from Chairman W. J. Campbell, who is in Michigan and could not be present. Very few local Republican politicians were at the hotel this morning, and those who called took apparently little interest in the chairmanship, Tom Platt went down to his office early and did not stop in the hotel corridors to talk with the members of the committee.

An hour before the meeting was called to order Senator Sawyer and several members of the committee had a consultation with Senator Proctor and urged him to take the place. "Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children." Dr. G. C. ORGOOD,

Lowell, Mass "Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending

them to premature graves."

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
