A DETROIT MIRACLE.

A GREAT TRIUMPH FOR CANADIAN MEDICAL SCIENCE.

Particulars of One of the Most Remarkable Cures on Record Described by the Detroit News—A Story Worth a Careful Perusal.

(Detroit News.)

The following paragraph, which appeared in the News a short time ago, furnished the basis of this information:

"In a case that was so wonderfully remarkable that it demanded further explanation. It is of sufficient importance to the News' readers to report it to them fully. It was so important then that it attracted considerable attention at the time. The following is the paragraph in question:

"C. B. Northrop, for twenty-eight years one of the best known merchants on Woodward avenue, who was supposed to be dying last spring of locomotor ataxia, or creeping paralysis, has secured a new lease of life and returned to work at his store. The disease has always been supposed to be incurable, but Mr. Northrop's condition is greatly improved, and it looks now as if the grave would be elevated of his prey."

Since that time Mr. Northrop has steadily improved, but only in looks, but in condition, till he has regained his old-time strength.

It had been hinted to the writer of this article, who was acquainted with Mr. Northrop, that this miraculous cure had been wrought by a very simple remedy called the Pink Pills for Pale People. When asked about it Mr. Northrop fully verified the statement, and not only so, but had had letters from a number of other persons who were suffering in a similar manner when he heard of any such case.

Mr. Northrop was enthusiastic at the thought in his mind of the fact that he had had letters from a number of other persons who were suffering in a similar manner when he heard of any such case.

SOUND POLITICAL SENSE.

AS LAID DOWN FROM A REPUBLICAN STANDPOINT.

Stowell & Herr Lays Down a Few Simple Propositions—Democracy's Doctrine Demolished—Free Trade Falsifies Met and Disfused by Logical Arguments.

Ex-Congressman Herr of Michigan, during a recent visit to Omaha, made an address on the political issues of the day. In introducing the speaker of the evening, Dr. Mercer said it was not often that the citizens of Omaha had an opportunity to listen to a discussion of issues of national importance by a gentleman of such wide reputation, a reputation so extensive with civilization, and he took great pleasure in introducing on this occasion Hon. Roswell G. Herr of Michigan, a writer on the New York Tribune, the paper owned and edited by Hon. Whitelaw Reid, the republican nominee for vice president of the United States.

As Mr. Herr arose he was most enthusiastically welcomed, and it was some little time before he was permitted to fully acknowledge the cordial greeting. He said:

"Ladies and Gentlemen, and Fellow Citizens, I propose this evening to discuss some of the questions about which some of the people of the United States differ. The political parties do not agree as to the proper policy of this government on certain vital principles. I shall speak from the standpoint of a republican, as I have been a republican all my life. But before I get through, if there are any democrats in the audience, they will think that I know about as much about the democratic party as they would care to know. I shall not, therefore, attempt to discuss the democratic party, but I shall attempt to show that the democratic party does not believe in a protective tariff. Some of them believe in a tariff for revenue only, with protection as incidental result. Accidental would be a better word. If by the democratic they ever benefited anybody it would be entirely accidental. The democrats do not like to be called free traders. They prefer to be called tariff reformers. They like to hear the word reformers, but they carry it back to the republican party. I shall not, therefore, attempt to discuss the democratic party, but I shall attempt to show that the democratic party does not believe in a protective tariff. Some of them believe in a tariff for revenue only, with protection as incidental result. Accidental would be a better word. If by the democratic they ever benefited anybody it would be entirely accidental. The democrats do not like to be called free traders. They prefer to be called tariff reformers. They like to hear the word reformers, but they carry it back to the republican party. I shall not, therefore, attempt to discuss the democratic party, but I shall attempt to show that the democratic party does not believe in a protective tariff.
