Republican National Ticket.

For President, BENJAMIN HARRISON, of Indiana.

For Vice President, WHITELEW REID, of New York.

Congressional. For Congressional Third District, GEORGE D. MEIKLEJOHN, of Nance County.

It looks as though it might be Crouse for governor.

H. C. FRICK is rapidly recovering from the effects of the wound inflicted by the anarchist, Bergman.

J. W. LOVE, owing to poor health, has resigned the consulship at San Salvador, and will return to his home in Fremont.

GRASSHOOPPERS in swarms have appeared in Williamson valley, Arizona, and destroyed the corn and vegetation of all kinds.

Non-union men to the number of 700 are at work at Homestead, while a guard of 150 with a thousand soldiers in easy reach, hold the situation.

The democratic Arcadia Courier says: "As between Grover Cleveland, the pension voter, and Benjamin Harrison, the union general, democratic soldiers have no choice."

The republican state of Pennsylvania has \$6,000,000 in its treasury and the democratic state of Kentucky cannot even pay its telegraph bills. That's a pointed difference.—[O. Bee.]

J. R. CLARKSON, ex-judge of the district court and member of the law firm of Congdon, Clark & Hunt, Omaha, was drowned in Honey Creek Lake, ten miles northeast of Council Bluffs, last Friday night.

BRIEFLY summarized, the democratic campaign promises are that if they get into power the farmers will receive \$1 per bushel for his wheat and the laborer will pay 25 cents per sack for his flour. There is nothing so elastic and convenient as a democratic pledge.—[Omaha Bee.]

A THIRTEEN-YEAR-OLD son of Benjamin Wagner, near Anita, Ia., was mowed last Tuesday and was thrown by a bunch of the machine in front of the neck. His neck was broken and his body mangled by the sickle knives. He lay several hours in the field before he was discovered.

The men who will contest for the suffrages of their fellow-citizens this fall will not get solidly to work until all the tickets have been named. The candidates for congress might do the preliminary challenging and preparation, and get ready for the business by time the state tickets are mentioned all around.

The Omaha Bee's Washington correspondent is a singularly exact man, and he says that Representative Ken of this state has amazed everybody in Washington by becoming the staunch supporter of railroad interests. He voted for a bill incorporating the Maryland & Washington railroad in which there was a provision allowing the company to bond the road to the extent of 10 per cent above its cost. The senate, when it subsequently passed the bill, amended it so as to limit the bonding to the actual cost of construction, but when the bill went back to the house, Nebraska's Ken voted against the senate amendment and again to allow the stock to be "watered" to the amount of 10 per cent. Likewise on a bill granting the Galveston road right of way through the Indian territory, Mr. Ken voted to allow the company to charge one-third more for passenger fare than the roads in Nebraska can charge.

MAX BE TROUBLE YET.

GEN. SNOWDEN ON THE SITUATION AT HOMESTEAD.

A Press Correspondence Established There—Strikers Being Evicted from the Company's House—Fred W. Nye Has a Very Bad Record.

PHILADELPHIA, Pa., Aug. 1.—Gen. Snowden, who has temporarily returned from Homestead, in an interview to-day said:

"There are few people in Philadelphia who understand correctly the condition of affairs at Homestead at present or what it has been recently. There has been a practical press censorship out here and the newspaper correspondents have actually been prevented from describing accurately the condition of affairs."

"Is the present military force at Homestead sufficient to preserve order?" "In questionably. When the division was ordered out there were prospects of the same revolutionary methods at Pittsburgh, Bradock and other places in that section. These threatening signs, outside of Homestead, have disappeared and the regiments of the Second brigade are now sufficient to attend to the trouble in that place."

"Do you think the trouble is over?" "No means. The bad feeling is suppressed somewhat but it still exists, and as long as the situation remains as it is now the Second brigade will remain at Homestead. It is just possible if their stay is prolonged other regiments from other brigades may be called upon to relieve them and it is called upon to relieve them and it is called upon to relieve them."

"Is it possible that some of the regiments may be called out again. The strikers, such of them as are on the ground now, for many of them have disappeared, are full of threats and it is a common thing to hear one declare that as soon as the soldiers leave they will have the lives of any men who hold their places in the works. Philadelphia can hardly appreciate the actual communism of these people. They believe that the tools are their property as much as they are Carnegie's, and it is obvious how this sentiment renders settlement of the trouble difficult and tedious. The ultimate result will be, I believe, that the owners of the works will retain and operate them with men of their own choosing."

STRIKERS ARE MOVING. Sixty Families Vacate Houses Owned by the Company. HOMESTEAD, Pa., Aug. 1.—To-day looks like an April moving-day in Homestead. All the wagons which can be secured are in use transporting household effects of about sixty families out of company houses. In front of each door all morning vans were drawn up and carried away furniture which had not been moved for years, as the tenants were old employees of the company.

It was not necessary to use force to evict the occupants, as they were ready to move into other quarters in preference to returning to work at the company's terms. There was no hostile demonstration made by any of the strikers, and this was probably due more to the presence of the national guard than to indifference on the part of the Homestead men.

FRED W. NYE'S RECORD. It is Claimed He Served a Term for Horse-stealing. CINCINNATI, Ohio, Aug. 1.—The Commercial Gazette this morning prints a Columbus, Ohio, special which says that Fred W. Nye who is president of the union men at Homestead, is the same Fred W. Nye who was sent from Cincinnati to Columbus penitentiary on a fifteen-year sentence for horse-stealing and that he was released last February under the good-behavior law.

Terrible Mortality From Sunstroke Reported From Gotham. NEW YORK, July 30.—Yesterday was the worst and most malignant day of all the eight of affliction before the almost unprecedented hot visitation caused by the hot west wind which was worn out inhabitants of the metropolitan region from this morning's onset from their sleepless pillows and looked eagerly for some sign of the promised relief. Instead of coolness in the air it was hotter than ever. There was no respite to the heat in New York and its suburbs during these memorable eight days, and nearly 300 others have been prostrated. Old-timers at police headquarters united in declaring that yesterday was the banner day in the history of that efficient telegraph bureau connected with the police department, so far as the receipt of messages from the thirty-six precincts and the hospitals were concerned. All previous records of this sort in the department were smashed. No less than ninety-four persons succumbed to the fearful heat.

FIRED ON THE PILAR.

MOORS WAR AGAINST A SPANISH CRUISER.

Only Driven Back After a Desperate Fight—An Ammunition Boat Carried—Sixteen Men's Heads Decreased—General Foreign News.

MADRID, Aug. 1.—The Spanish gunboat Pilar, while cruising along the coast of Morocco, was fired upon by a party of Moors on shore.

Immediately upon the firing of the first shot the commander of the gunboat hoisted the Spanish flag, thinking that the attack was the result of a mistake and expecting that it would cease as soon as the nationality of his vessel was made known.

In this, however, he was disappointed, for no sooner did the Moors see the flag than the firing became more vigorous.

Thereupon the commander ordered the fire to be returned, and for a time a brisk cannonade was kept up between the vessel and the shore. The course of the gunboat was changed so as to bring her nearer the shore and render her fire more effective. The Moors held their ground until the vessel neared the shore, when they fled precipitately.
