SEVEN MEN KILLED.

HORRIBLE BOILER EXPLOSION AT STAPLES, ONT.

Twenty-One Men Injured. Some of Whom Will Die-G. A. R. Veterans Figure in a Wreck Near Fairview, Pa.-Fifteen Injured. Two Fatally.

COMBER, Ont., Sept. 19.-A boiler in Force & Dickinson's stave mill at Staples, four miles from here, exploded this morning, killing seven men outright, fatally injuring one, and twenty others were more or less scalded and injured.

When the night watchman gave way to the regular day engineer there were twenty-five pounds of steam in the boiler. The fire was increased, and it is supposed that there was eighty pounds' pressure on the boiler at the time of the explosion. Fortunately there were a great humber of hands absent, owing to the earliness of the hour. The scene is horrible. gastric fever. Arms and limbs were literally torn from the victims' bodies, while the skulls of some were crushed in and the brains torn out. The air is full of rumors regarding the condition of the boiler. Some say it was old and unfit Mexican Central, but telegraphic infor use, while an employe of the mills says that the boiler was in good runnig condition, but that he believed scales had formed on the plates and stopped up some of the valves.

The boiler was carried fully 200 feet. passing in its flight between two residences. Bricks and other debris were thrown in all directions, but the houses in the neighborhood escaped with a few broken windows. The two | taken ill on his way to this Chauvins and Daust were single men. The others were all married with families depending on them for support.

VETERANS IN A WRECK.

Fifteen G. A. R. Passengers Injured by a Collision on the Lehigh Valley Road. WILKESBARRE, Pa., Sept. 19.-A bad accident occurred on the Lehigh Valley railroad, near Fairview, this morning. The passenger train leaving Wilkesbarre at 7:20 o'clock, and carrying 400 passengers, most of whom were G. A. R. veterans bound for Washington, collided with a switching engine just around a curve. Both locomotives were badly wrecked. The baggage and first passenger car were piled on top of the passenger engine. Strange to say the passengers in the car escaped with their lives. Fifteen of them were seriously injured, two fatally. Andrew Brown, engineer of the passenger train, was pinned under the wreck and will die. George Enterline, the baggagemaster, was fatally injured. The accident was due to a failure to obey orders on the part of the passenger train. All traffic on
