that it would be a great idea to pretend THERE is a project on foot to bring New York city and cities and towns adjacent, under one city government, with a population of 3,000,000 under control. What to do with the great ante-election promises made to Tamcities? is the question for the American many, and would not hurt either Hill or patriot. Perhaps none of them in all the country is governed by the people who pay the taxes and foot the bills, a fight of any kind against Mr. Cleveland, but all domineered by the hoodlum ele- in the U.S. senate, the vote of Murphy

Mr. Wm. Steinbaugh is quite sick with rheumatism. Dr. Okey is attending him and may succeed in making him O. K. pretty soon. Many seem to suffer from that not very agreeable trouble. Mrs. J. S. Henrich is having the house finished that her deceased husband

planned and began but could not finish, being stricken down by the cruel hand of death in his young years. Sad to

thing of it! Rev. Mr. Benthank is quite feeble Cataract has made him nearly blind, and age is creeping on slowly.

Human depravity has not stamped out entirely the good of everybody, it seems. A gentleman had to pay a note of about \$250. The paper was in a private house but a banker was to receive the money for the holder of the note who was absent from home. So when the man called with the money the lady of the house entrusted him with the note to take to the bank and pay it there. Here was confidence in a stranger which in this case was not misplaced. Perhaps not one in a thousand would make the venture, and how many or how few

would honor such confidence? A German family from Lorraine, relatives of Mr. Schumacher, has just arrived at Platte Center and moved into Mr. J. Moffat's house. They seem to be very respectable people and have a num-ber of sturdy sons and daughters; very sensibly they want to work out for a while until acquainted with men and When she was a Child, she cried for Castoria, things, and then will buy land. Those politicians that want to stop immigra-

tion and keep such people out of our country must indeed be "know-nothing." The writer a few days ago received from a family that moved to Colorado perhaps six or eight years ago, a money order for a small debt they owed a man who died about four years ago, the money to be given to his widow if found, else to the missionary treasury. Another little remnant of houesty and confidence in "a wicked world."

If the assembly of sages (?) in Lincoln would make a law to compel reckless debtors and men who let others pay their notes to work in the work-ho for the support of their families and to

pay their debts, there might many such an evil doer have the fear of the law if not of the Lord before his eyes, and many a kind creditor and note-endorser be saved the bitter reward of his kind-
