If the cholera gets a foothold in the United States next summer by reason of inadequate guarantine laws, the Tammany members of the house, aided by a few others of the Kilgore stripe, will be responsible for it. The quarantine bill, which recently passed the senate without a division is generally admitted to be a good bill, and entirely free from even the slightest taint of partisanship. About the only criticism made of the measure

was that it does not actually provide for a complete system of federal quarantine, but as it practically does the same thing was supposed that the house would promptly pass the bill just as it was, in order to avoid delay and possible failure to meet the emergency that every intelis almost at hand, and if orders had not

to oppose it such would probably have been the case. As it is, the Tammany members and a few others held out against the bill and loaded it with amendments, none of which have improved it, the evident object being to defeat quarantine legislation.
