REPRESENTATIVE LOCKNER has introduced a bill to prevent the mortgaging of personal property without the consent of husband or wife; another providing for the registration of all marriages, births and deaths.

A usury bill is pending in the house which provides that rates of over ten per cent shall be pronounced usurious and as a penalty, fixes a forfeiture of both principal and interest. One correspondent gives it as his opinion that the bill is almost certain to pass the house and probably become a law.

Public opinion is growing in favor of the annexation of the Sandwich Islands. The people are not now desirable citizens, the location of the islands makes their acquisition quite important to the United States, at all times in the interests of commerce, and at critical times in case of actual or threatened war with foreign countries.

Friday morning between 12 and 1, fire broke out in the Ponca roller mills and completely consumed the mills and ele-vator containing many thousand bushels of wheat. The mill was a three-story brick structure, with a capital of \$40,000 and a capacity of 125 barrels a day. Insurance \$15,000, which is about onefourth of the loss.

A BRUTE negro of Paris, Texas, was most horribly burned to death at the stake last Wednesday in revenge for a flendish crime he had committed upon a girl four years old-outraging her and killing her by tearing her in two. Ten thousand people are said to have witnessed the punishment inflicted, which is most terrible to think of.

A Swede farmer named Carl Blom quist was killed by a neighbor, Henry Zeigler, near Rushville, 2 o'clook Sunday morning. B. was in Rushville Sat-urday, stayed till 12 o'clock at night, going home drunk. About 2 he went to Zeigler's and tried to get in, assaulting the house with a crow bar. Z. got up out of bed and struck B. with a heavy poker, killing him almost instantly.

FREDERICK DOWHOWER, a patient at the Norfolk Hospital for the Insane, committed suicide last Tuesday night by hanging himself to the corner post of his bed with a pocket handkerchief. He was committed to the hospital for the fourth time the Saturday previous, and arrived that evening in charge of the sheriff of Valley county. The coroner's jury rendered a verdict in accordance with the above facts and exonerated the

THE island of Zante is having a very serious time of it, having been shaken ip several times by earthquakes. The shocks experienced Thursday night did enormous damage,—the whole island was devastated. The torrents of rain, the hail storm, the roaring thunder, the blinding flashes of lightning, and the dreadful rumbling beneath the surface of the swaying earth, caused such excitement and fear that many persons entirely lost their reason.

OUR Washington correspondent usually hits the nail squarely on the head, but he missed his guess in the appointment of a successor to Justice Lamar. The president's appointee, Judge Jackson, is a democrat, but not a states- at Washington. The services were of rights man; a democrat, but a protectithe simplest, no singing, no music, extionist, and the appointment was made by the president outside the ranks of his own political party, because he was lican was extremely improbable.

SENATOR TEFFT is one of the ables embers of the present senate, and is a level-headed republican, as well as a good member of the body on general principles. In advocating a constitu-tional convention he remarked: "The present constitution is not large enough. This fact was demonstrated at the last dection, when meritorious amendments failed of adoption because of the barriers raised in the constitution. The legislature is going ahead piling up new duties on the executive officers of the state, which the constitution never contem-plated. Already a bill is pending to enlarge the supreme court. The people are ready for a new constitution. They demand it."

CHARLES CAMERON, elsewhere spoken of in today's JOURNAL, president of the city council of Hastings, and a prominent business man of that city, who had recently met reverses in business, had disappeared after his break-up. It was supposed that his financial troubles had unbalanced his mental faculties. About noon Saturday he was found dead by the side of an orchard of small peach trees, in the extreme southern portion of the city. Near the body an empty bottle was picked up, one of two that he had purchased, filled with whisky. The verdiet of the coroner's jury was that Cameron came to his death from exposure and freezing between the night of January 30 and the morning of January 31.

THE first real debate in the senate occurred when Tefft moved the indefinite of time such a memorial in bronze or for the choice of presidential electors on | Blaine will have a monument in the histhe Michigan plan. County Depositories.

Senator Moore of Lancaster has a as senate file No. 154. The present way of getting some in terest for the use of public funds may not be all that is desirable, but the idea has come to stay, so far as the people are concerned, and if present laws are defective they will continue to amend them until they get what they want, viz: a reasonable rate of interest on balances that they have to carry any length of time, and as perfect security as can be had for the delivery of the money on the delivery of the delivery of the money on the delivery of the delivery of

The little flurry over the \$200,000 more or less that is anxiously concerning some of the state officials ought to make the people's representatives carefully consider the action they take on the subject of depositories.

THE death of ex-President Hayes has called forth considerable discussion of his life, and, among other things, his "title to the presidency," concerning which the New York Sun has made some pretty strong assertions. The Chattanooga Times is more sensible, and rebukes its great cotemporary in following wholesome fashion:

"The Sun knows, as well as we know, that Hayes' title was perfect, and that he could have done no other than he did in accepting the office. "The Sun knows that the electoral

commission was a democratic contrivance, and that decent men should always accept the finding of arbitrators of their own choosing. "The Sun knows that Haves never

lifted a finger, spoke a word or gave a sign of approval or disapproval of the commission scheme and accepted what the extraordinary court gave him, as he was duty bound to do." The truth is that, considering the

number of men the republican party has placed in the presidential chair, and the troublous times in which they have served their country-the record is remarkable, both as to the party's repre-sentative men in position, and the purity of purpose of the political organization which has accomplished more of good to zations in our history put together.

Mr. T. was a breeder. His name was a synonym for the choisest aud best in his line. He was a man devoted to his family, indulging them in every want possible or practicable. He nsually kept three, sometimes four of his favorite breed for family cows to supply the cream and butter needed. His wife went to Ohio on a visit, and while there became very much infatuated with a Jersey cow, a pet of one of her sisters. Coming home she importuned her husband to buy her a Jersey, but he told her he would be ashamed to let the neighbors see one stock who kept a Jersey

"Why" said he, "I'd rather keep a goat, for that wouldn't look as though were trying to keep a cow and were too poor to do so. But his wife (as he told it) "plagued the life out of him," wanting a Jersey; so one day at a sale having lately joined it, and the boys, old some miles distant he bought, for a and new, are helping forward the cause mere song, a poor little runty, ill-kept of harmony, by mutual instruction and Jersey heifer, said to be with calf. "Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children. Da. G. C. Oscood.

Lowell, Mass. "Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium,

morphine, soothing syrup and other hurtful agents down their throats, thereby sending favor upon it." them to premature graves." Da. J. F. Krichmon. Conway, Ark.
