5,000,000 of which were donated to the World's Columbian Exposition by the Government, are being rapidly taken by an enthusiastically patriotic people.

As there early promised to be a demand for these Souvenirs that would render them very valuable in the hands of speculators, the Exposition Authorities decided to place the price at

and sell them direct to the people, thus realizing \$5,000,000, and using the additional money for the further development of the Fair.

Considering the fact that there were but 5,000,000 of these coins to be distributed among 65,000,000 people, in this country alone (to say nothing of the foreign demand,) and that many have already been taken, those wishing to purchase these mementoes of our Country's Discovery and of the orandest Exposition ever held, should secure as many as they desire at once.

 Realizing that every patriotic American will want one or more of these coins,
