LEBANON LODGE No. 58, A. F. & A. M. Regular meetings 2d Wednesday in each month. All members invited to attend. Officers: G. W. BECKER, Sec'y; E. H. CHAMBERS, W. M.

WILDEY LODGE No. 44, I. O. O. F. Meets Tuesday evenings of each week at their hall on Third street. Invited. H. C. NEWMAN, S. R. H. NOVEMBER, Sec'y.

ROMANIZED CHURCH OF LATTER-DAY SAINTS hold regular services every Sunday at 2 p. m., prayer meetings on Wednesday evenings at their chapel, corner of North street and Pacific Avenue. All are cordially invited. Elder H. A. HUNSON, President.

## A Joke in the Raw.

A man; a maid; A beefy glade; A savage dog; a father; Then well mix up Young man and pup And dad-and you have your joke all compounded without any further bother. —[Indianapolis Journal.]

## "Fitz."

Patrick, Dry Goods, Furnishing Goods, For Ladies and Children. See Fitzpatrick's new stock of dry goods.

—Clean excursion to Omaha next Sunday.

—Dr. T. R. Clark, Olive street. In office at nights.

—Dave Smith was in Schuyler the other day on business.

—Reunion week, thirty-five went from this station Monday.

—Dr. E. H. Nauman's dental parlors in North block, 13th street.

—The Episcopal Sunday school had a picnic Wednesday afternoon.

—Nobody could wish for finer weather than Nebraska has generally.

—You can buy any goods at less than cost for 30 days at Arnold's. Call now.

—E. C. Morrow of Grand Prairie has been improving his dwelling home considerably.

—Mr. Powers, the noted alliance man, speaks at Platte Center tomorrow evening, August 31.

—It was said of a self-conceited person that he is continually apologizing for knowing so much.

—Mark M. Coak of Fremont, carried off prizes for several fine horses at the World's fair last week.

—C. C. Johnson made a flying visit to Platte Center Friday making the trip in five hours with a team.

—The teacher engaged to succeed Mrs. Ballou has, in view, concluded not to come, for some reason.

—When you want a good pair of shoes made, it will pay you to call on F. M. Cannon, fourteenth street.

—We are in receipt of a communication from Platte Center but it is without a signature it is hid to one side.

—Miss Ola Able, who has been under the care of Dr. Voss for asthma, returned to Madison last week much improved.

—Saturday a tramp was arrested, being in a box car loaded with sugar in barrels. The seal was broken off the door.

—When in need of an auctioneer, call on Dave Smith. He will act for you with promptness, safety and dispatch.

—Next Sunday, Rev. Leedom preaches his last sermon before attending the annual conference of the M. E. church.

—I have \$3,000 in watches and jewelry that must be sold within 30 days at cost. Please come and see us. A. J. Arnold.

—On Saturday Oscar Burns had a narrow escape from an injury to his left eye, a rod of iron striking uncomfortably close.

—Eggs-Barred Plymouth Rocks, Light Brahma and White Leghorns, \$1.50 a setting of fifteen eggs. H. P. Coolidge, Columbus, Nebraska.

—F. P., son of M. E. Clothier of Platte Center, was in the city last Wednesday on his return home from attending the Fremont Normal the last three months. He went with the students, about three hundred, who had a special excursion train to the world's fair.

—Father Pacificus will give a lecture Sunday evening at 7:30 o'clock, in the Catholic church, entitled: "The Catholic church and Civil Government," or "The Catholic church not the Danger but the Support of the Great American Republic." Everybody invited.

—A social entertainment will be given this (Wednesday) evening at the Methodist church. No admission charged, and everybody is most cordially invited to come out. There will be songs, recitations, duets, quartettes, a cornet solo, and last, but by no means least, and so forth. Come sure.

—Three men came into Honahan's shoe store the other day and while one engaged Mr. Honahan in talk about a purchase the others stole several shoes in a box and got off with them. Afterward Policeman Coleman apprehended a man with the shoes, but he was not one of the men who had stolen them.

—Under date of the 25th we had our first word from J. A. Turner at the World's fair. He says, among other things, that Adolph Werner called Thursday, also called Werner called Thursday, also called Werner called Thursday, also called Werner called Thursday. The fair is too big a thing to see in a short time, something new to see in buildings every time you revisit them. Yesterday was Illinois day, and it was a hummer—more people than I ever saw before, at one time; the procession and fire-works displays were grand.

—Last fall Robert Smith sold his farm of 160 acres near Wernerville for \$3,200, and loading his personal effects into a wagon, started south to the land of promise. After wandering around Missouri, Kansas and Oklahoma the greater portion of a year, and failing to find any location that suited him he returned to Madison county recently and purchased from R. C. Milligan eighty acres three miles west of Norfolk, paying therefor \$2,200, or \$27.50 an acre, nearly one and a half as much as he received for his farm last fall.

—The Cedar Rapids Commercial is the first newspaper in this region to note the name of one of the "old boys" whose scalps Cleveland's Hoke Smith is after. It says: "P. D. Wakeland received notice last Saturday from the pension department that he was suspended from the rolls and was ordered to report for re-examination inside of sixty days. Mr. Wakeland is the first old soldier in this vicinity to be suspended. The beauty (?) of the administration's pension policy is beginning to be apparent."

—The most thoroughly despised man now breathing the free and unlimited air of America, goes by the name of Hoke Smith. The old soldier who turned in and helped to elect Grover Cleveland president are now put to the trouble and expense of limping to the inspector's office to show cause why their suspended pensions should not be permanently lopped off. The worst feature of the case is that the innocent must suffer with the guilty. —[State Journal.]

—When in need of any kind of job work, calling cards, bill heads, envelopes, bill heads, statements, doggers, posters, auction bills, receipts, notes, bank check books, scales books, pamphlets, briefs, circulars, or specialty work of any kind in the printing line, bring your orders to THE JOURNAL and be pleased, both as to quality of goods and work, and also price and promptness. Orders by mail receive careful attention.

—Of all the great, great newspapers of the middle and western United States, the Chicago Inter Ocean, as a paper for the home, is the best, because it can be enjoyed by every member of the household, and the paper has not only struck its gait, but is bettering it every week. We have made arrangements so that we can furnish you this paper along with your other literature. Come and see us about it, or drop us a line.

—Camp Logan has been lit up with electric lights; telephone and telegraph service to all parts of the country has been put on the ground; the street car company has secured extra cars for the re-union this week, and every detail has been looked after. Music is one of the special features, the committee having secured fourteen brass and reed bands of the state.

—Mrs. A. C. Ballou and son James, will return to Schuyler and live in the old home in South Schuyler. On Saturday of last week Columbus voted to aid in building the canal projected by its enterprising citizens. Columbus contains within its confines, the material necessary for the making of a first-class city. —[Schuyler Herald.]

—Carl Heinrich's gun store on Broadway street was burglarized during Saturday night. The robbers entered the place by cutting out a panel of the back door, and they managed to get away with several revolvers and ammunition for the same without being heard by any of the family who were sleeping up-stairs. —[Fremont Tribune.]

—To any of our readers who wish a Chicago paper, we make the following offer: THE COLUMBUS JOURNAL, the Semi-weekly Lincoln Journal (published Tuesdays and Fridays of each week), and the Inter Ocean, all one year, when paid in advance, for \$2.70. Call and see us; we can start your subscription at any time.

—One day last week Albert Gerber found, on a meadow at William Ernie's place near Duncan the skeleton of a man supposed to have been buried years ago and recently exposed by the washing of the river. Coroner Heintz, while retaining the skull here, advised that to bury the other remains where they found them.

—A fire alarm was sounded Monday evening and the department turned out very promptly, but their services were not needed as the flame was put on a bucket of water. Carl Kramer's little girl, lighting a lamp, set fire to a clock shell drapery which was burned, also a hole in a table cloth.

—A petition of business men of St. Louis, Mo., has been presented to George Gould for the appointment of G. C. Smith as general manager of the Missouri Pacific road instead of W. B. Diddridge, formerly of this city, the petitioners being dissatisfied with Diddridge's policy.

—GOLD WATCH LOST.—At the Baptist church, this city, Sunday afternoon last, a gold watch, "E. T." engraved on the case; lady's chain attached, with a charm, a cantee, set with blue stones. A suitable reward will be paid for the return of the watch to Wm. Lohr's, Mrs. Eliza Thomas. If

—The Humphrey fair and races are to be given Sep. 25 to 27. One of the special attractions announced is a three-mile bicycle race Tuesday Sep. 26, four prizes of \$25, 15, 7.50 and 2.50. G. W. Clark is president of the association, D. L. Bruen vice president and E. A. Stockdale secretary.

—Mrs. J. S. Johnson, wife of the cashier of the Schuyler National bank, had the misfortune to have her jaw broken the other day while having a tooth pulled by the dentist. She has mended considerably with it but is improving at present. —[San.]

—S. K. Wombold of Gothenburg was in the city Monday on his way south. He met a number of gentlemen who had been interested in the canal power enterprise, at the residence of Adolph Jaeggi. He is a very intelligent gentleman, and has had large experience in manufacturing enterprises. He had prepared a profile of the canal showing the distance, fall, etc., in the six miles length of the canal, allowing a fall of six feet (one foot to the mile) for the flow of the water, there is yet a fall of 34 feet for working force. The number of horse-power is found by multiplying together the width of the canal, 80 feet, the depth, 5 feet, the velocity of the water, 150 feet to the mile, the weight of a cubic foot of water, 62 1/2 pounds, and the fall of the water, 34 feet, and dividing by 33,000, and gives 4,636 horse-power. Mr. Wombold says that this canal, rightly constructed here on the valley, would give us an increase of our population of 75 per cent in three years; that there is no doubt whatever but with such a splendid power as we evidently have here, the factories would come—around to come.

—The North Loup Loyalist is setting forth in brilliant phrases the beauties and the benefits of irrigation in the Loup valley, and among its interesting paragraphs is the following:

"The first English speaking community to adopt the practice of irrigation on a large scale was the Greeley Union colony at Greeley, Colorado. Beginning its operations upon a barren plain of cactus, and passing through the experimental stage with many discouragements, it is now a solid and prosperous community, shipping out of potatoes alone from 1500 to 2000 carloads a year. Would it do anything towards helping out the "hard times" in the Loup valley if our farmers could ship out about 100 train loads of potatoes of 15 cars each? The supply in Omaha is reported "very light and the market firm."

There is no question but irrigation would make this portion of Nebraska one of the most productive portions of the globe, and that each year, almost unfaithfully, as the water supply from the Loup is abundant.

—Don't forget to prepare something for the Platte county fair. It will pay you in more ways than one. In merely determining what you will take you will doubtless think of many important little things that have escaped your attention for some time. There is nothing like going over your possessions once in a while to see what you really have got around you. A little thought of how your products may chance to look in the eyes of your acquaintances will not hurt the just pride that you should always entertain for what is yours because it is yours. Then, wife and children will think no less of you if you provide that all of them shall have good opportunity to attend the fair. Try it and see how it works.

—W. H. Lewis has received word from John Wiggins, at Highland, N. Y. They were having a very pleasant time, although the weather was unusually warm. John and one of his boys had been enjoying Massachusetts sea baths, ocean rides, and all the thousand things that eastern folks know so well how to provide. All their beef steak comes from Chicago in refrigerator cars, and costs there 22 cents, round 15, eggs 25, hard coal \$6.00, fuel 3.50 per cord—everything except fuel being higher than at Columbus. The principal crop is grapes and other fruits, besides plenty of rocks and hills. All are well, but pretty tired tramping around.

Y. M. C. A. Notes.

The subject next Sunday is "Men too busy to be saved."

Last Sunday closed the meetings in the park for this season.

K. P. Kiser of Fremont addressed the people at the park service last Sunday.

A union meeting was held in the Congregational church last Sunday, Henry Zinnecker delivering the address to a crowded house.

E. F. Riedent of North Platte, who was to have been here last Sunday, did not arrive, but he is expected to speak here in the near future.

—This is how it works. The particles of earth tend to crystallize, so to speak, and thus leave little air spaces all through the soil. Then the rain water in sinking into the soil makes a great number of minute, crooked wells with their mouths open to the sun's rays. Immediately after the rain has ceased the sun comes out and begins pumping the water out of these crooked little wells and storing it again in the clouds, but by shallow cultivation the tops of these little wells are broken off, or filled with fine soil. The water is thus held prisoner till the roots of the plants pump it up and put it to some use. This is why we cultivate shallow and often. —[Nebraska Farmer.]

Notice Republican Central Committee.

There will be a meeting of the Republican County Central Committee at the court house in Columbus, Saturday September 2nd, at 1 o'clock p. m., to arrange for caucuses and county convention and to transact such business as may properly come before the committee. All members are urged to be present.

C. J. GARLOW, Chairman.

J. N. HEATER, Secretary.

—We hear that Dr. W. A. Hampton of Humphrey is a possible candidate for county judge; Philip Bender is likely to ask to be nominated county treasurer by the democrats; that Parky Doody is prominently mentioned as supervisor from Lost Creek township; R. Y. Lisco is much thought of by his friends for sheriff; Judge Hensley would not object to being named again as the democratic candidate for county judge.

Letter List.

List of letters remaining in the post-office at Columbus, Nebraska, for the week ending August 29, 1893:

Miss Jennie Davis, 107 S. 10th St., 107 S. 10th St., 107 S. 10th St.

Parties calling for the above letters will please say "advertised."

CARL KRAMER, P. M.

—Miss Clara Brown of Cedar Rapids returned Saturday this far on her way home after a visit of several weeks among friends in Craig, Omaha and Lincoln. She left for home Monday afternoon.

—Oshirich von Bergen, who went to Switzerland some months ago, has a fine position as conductor on a railroad. His being able to talk English was a help in securing the position.

—S. K. Wombold of Gothenburg was in the city Monday on his way south. He met a number of gentlemen who had been interested in the canal power enterprise, at the residence of Adolph Jaeggi. He is a very intelligent gentleman, and has had large experience in manufacturing enterprises.
