Why so much worship of gold? It is just as much of a commodity as silver is, or wheat, or corn. For a given number of cubic feet, it is worth more than wheat, ordinarily, but if a man was starving and had within reach, only gold or wheat, he would be much of a fool if he preferred the gold.

At the Commercial bank are two sample specimens of Platte county grain that are worth looking at. The winter wheat is from the farm of Welch & Son in the western part of the county and is from a yield of 580 bushels on 17 acres, or very nearly 34 1/2 bushels to the acre and weighing 62 pounds to the bushel from the machine—pretty fair for what is now known as a dry year.

The other is corn from the farm of C. H. Sheldon, purchased of S. C. Gray, the ears being large and plump, and approaching the dimensions of John Tannahill's biggest ear of corn in the world.

The following bit of advice is worthy of consideration: "When you are preparing to come to town to do some trading, pick up your home paper, glance at the advertising columns and see who wants your trade. We'll guarantee that if you trade with those who recognize the local papers as an incentive to their business, they will save you money. The man who advertises certainly has inducements to offer you or he wouldn't ask you to call on him before buying elsewhere.—Schuyler Herald.

Henry C. Bean was at the re-union at Grand Island last week from Wednesday to Friday. He heard the speeches of the governors, saw the big ox weighing 4,000 pounds, the big watermelon and the big crowds of people. Comrade Spoerry says that the number at the re-union seemed about as usual, but many of the old faces were replaced by younger ones.

The Fair Association have secured the celebrated Donbt family, orchestra and band players, for one of the attractions of the fair next month. They have been playing at Chautauqua grounds and Burlington Beach at Lincoln during the summer, and are highly spoken of. There is nothing like music to draw a crowd, and the association have secured a treat for the people in getting this family. A balloon ascension by a lady aeronaut is one of the attractions.

State fair this week, and the attendance, we think, will be unusually large. It certainly will be one of the very best fairs in the history of the state. As the commonwealth grows in age and in wealth more interest is naturally taken in exhibits; more people can attend, and the results will naturally be greater. Columbus should take especial pride in the state fair these times, as one of her prominent citizens is at the head of the association—R. H. Henry.

Moody, the great evangelist, is not only a preacher of the good tidings to men, but he takes some very good common-sense views of the situation. When asked what advice he would give those who are out of employment, he said: "First of all, to seek the kingdom of God and his righteousness, believing his promise, which I never know to fail, that all things will be added unto them. Second, to pray to God for work. Third, to be as patient as possible during these times of hardship. Fourth, to look earnestly for work. Fifth, to take any honest employment that offers itself. Sixth, to study economy. I think one of the great needs of our country is that the laboring men own their own homes. What these men want is not charity, but an opportunity to earn an honest living. Charity is degrading. Employment is elevating. No self-respecting man wishes charity. Give him a chance to work and he will support himself and family, and at the same time, preserve his self-respect."

Down at Lincoln the county attorney is making quite a rattling among the dry bones of the justices who have collected fines and not turned them over. He has notified justices of the peace, police officers and other magistrates of the county that according to sections 534 and 539 of the criminal code of the state, they are required to turn over to the county treasurer all fines, costs, etc., due to the county or state, within ten days of receiving the same, and also on or before the 1st day of February of each year to make out and deliver to the county clerk a statement in writing of all fines assessed for the year ending the 1st day of January next preceding.

A genuine surprise was given Mrs. O. D. Butler and Mrs. J. E. Leedom at the M. E. church Wednesday evening. There was a small entertainment, at the close of which Mrs. Butler, in behalf of the ladies of the church, presented Mrs. Leedom with a black dress, but before Mrs. Butler was comfortably seated again Mr. Adkins called her up and with a neat little speech presented her with an upholstered rocking chair and two dainty finger bowls. It was such a surprise to both ladies that the audience derived as much pleasure from it as the recipients of the presents. Both worthy ladies are held in the highest esteem of the entire church.

A lady has discovered a plan to keep watermelons in their natural form and flavor for an indefinite length of time. She has successfully tried in past seasons and as a consequence has been able to treat her family to a watermelon at Christmas. The plan is an inexpensive and simple one and consists in giving the melon three or four coats of varnish to exclude the air. She says they not only keep from decay, but that the flavor and sweetness are retained, and when eaten at Christmas or New Year's the fruit seems wonderfully improved in these particulars.—Lincoln Journal.

The hoarders of money are making trouble for themselves. Business cannot be conducted with all the money laid away, and business cannot stagnate without injury to all, including the hoarders. Put your money where it will circulate, and everybody will be benefited.—Fremont Herald.
