Among us at the time were Ben Mellor and his sister, her friend, a Miss Nevil, and two other men named Radcliffe and Mitchell. The colonel was my partner in the rancho (ranch). Bowler was his name-mine doesn't the other members of our party,

'Indians!" exclaimed Miss Mellor; "surely they won't come here!" "Indians is queer cusses. But you may depend when they do come they won't give us much notice. Let us ride up and see."

In the course of a few minutes we all rode out into the plain. On we went until road gave way to path and rath to desert track and this to desert -a wor'd of grass, with here and there a tree. Beyond a pond of water, called by the natives estanque, near which the herds of sheep and goats were gathered. Out on the plain was a moving mass, which the dark shepberd called Indians.

"Why, it's buffalo!" cried my partner. "Hurrah, hurrah!" "You must ride back, ladies," I said: "this chase will be a long one. Radcliffe will escort you, perha; s."

'Oh, no; we can take care of ourselves. We are armed and can shoot if necessary,"replied Miss Mellor. 'Come on. Violet; let these hunters go their own way. Manuel (the shepherd) will accompany us."

So we parted. We all had pistols, and two of us carried rifles as well. Mise was hung by my saddle, but we did not anticipate any attack. The shepherd had turned back with the and mentioned my suspicions to the

habit of the buffalo to do. He knew our object and perhaps in some rough bullish way guessed that he would be the first victim. He gave the alarm and away fled the herd lumbering along in front of him. We dashed down the slope and scattered. To my surprise the sentinel bull, instead of running with the remainder, made a detour, which, if he continued in his course, would bring his pursuer back by a wide circle to our ranch again.

This fellow attracted me, so I quitted the line and went after him, believing that my mustang would soon overtake him, for buffaloes are not rapid runners. But to my astonishment, Pedro, my horse, showed signs of fatigue, and I perceived that some time must elapse before I could overtake the bull. My Winchester ride was now across my saddle; the buffalo headed for home, a most unusual course, and I could not imagine what instinct guided the animal to rush in a direction opposite to his com-

rades and toward our rancho. But I pressed on, getting nearer and nearer. By this time the ladies must be safe at home, I thought, and they will be rather surprised to see me hunting a buffalo close up to the station. They could thus witness the denoument and my prowess, for I was not altogether insensible to Miss this wide, wide world" Mellor's charms and glad to display my unerring aim and my skill in hunt-

In my anxiety I spurred poor Pedro and was intent on dispatching the buffalo, when two pistol shots rang out from the direction of our rancho. One lucky shot; the bull fell; another in the heart; my victory stood com- the condition of matters at this unplete! But my joy was very quickly tempered with alarm, when I heard a savage yell, which I could not mis- established.

The door stood open. In front were six Apaches, held in check at thirty paces distant by a woman and a servant-a youth-both of whom were armed and actual'y defying the Indians for the moment Why they had opened the door i could not understand It would not

Yet here they were, standing irresolute. There was no time to be lost. My approach was almost unheeded as I emerged from the cover of the wood around the house. One glance was sufficient.

Halting, I fired all the chambers of my rifle in quick saccession. An answering fire came from the hall. Four Indians dropped; the others fled at once, after discharging a voiley of arrows at the defenders, who avoided them by promptly lying down as soon as they saw the bows drawn.

My astonishment was extreme when n the defenders of our house I recogrized Miss Mellor and a shepherdnot the young stranger who had informed us of the neighborhool of Indians. In a few moments I was in possession of the facts, but Miss Nevil vas missing and Miss Mellor was in the greatest distress concerning her. It appeared that the dark-skinned new shepherd had carried her away into the wood, and the servants who now began to assemble gave evidence that

he had actually done so. As we were discussing the chances alarmed by the reports of firearms, had come up. A search was at once instituted. The cry which I had heard while chasing the buffalo was still ringing in my ears. We hurried into the wood, or scrub, and after a search were rewarded by hearing a faint cry for help. We searched in the direction of the sound, and a most remarkable tableau met our gaze. On the ground lay the dark-featured shepherd dead, his body pierced by a bullet from my Winches er. Standing beside him was an Indian pony, and strapped to the body b a belt lay-or rather hung-Miss Nevil, quite unable

to move and but half sensible. A few moments sufficed to relieve her from her perilous position. Sh afterward told us how the shepherd, in league with the Apaches, had attempted to plunder our house and carry her off. The buffaloes were only a decoy, driven in by some of the tribe, while others plundered us. The traitor shepherd had attempted to carry off Miss Nevil, but the first shot which I had fired struck him and put an end to his career. My second bullet had glanced away, fortunately, perhaps: but Miss Nevil's scream of terror had

guided me to the house. I need hardly say that the rescue but could not. She attempted to was entirely due to the course adopted arise to stanch the wounds of the ladies.
