At Denver-One 2housand Armed Men Ready to March to the Aid of the Strikers. Conference of Colorado, Wyoming and New Mexico Miners to Be Called-Mines Loaded With Dynamite-Strike News.

DENVER, May 29.—The mine owners have decided not to arbitrate differences with the Cripple Creek miners and trouble may begin at any moment. Information has been received from Cripple Creek that even had the strikers been driven from the camp, the men who took their places in the mines would

be in immediate peril. Every mine in the camp over which there has been trouble is "loaded." Large quantities of dynamite have been stored in the shaft: back of the timbering by the strikers and hidden wires attached to these charges in such a manner that they can be exploded and every person in the mines instantly killed, while the men who start the battery remain out of sight. Ex-Policeman Hobart, second in command in the squad of deputies organized here and sent to Cripple Creek, has returned for the purpose of recruiting men to take the places of deserters. About

which they were subjected. William Howells, a member for Colorado of the national committee of the United Mine Workers who attended the Columbus meeting, has returned. Mr. Howells will issue a call to the miners asking them to send a delegate representing each mine in Colorado, Wyoming and New Mexico to a convention to settle the question whether they will join in a general suspension of work or not. Speaking on the national situation he said a compromise basis will undoubtedly be reached in the course of a short time.

Sheriffs and Strikers Are Both Strengthening Their Forces For a Conflict. The armistice declared was made use of by the sheriffs to increase their forces. Nearly SPRINGFIELD, Ills., May 29 .- Articles 400 men have been recruited in Denver in as deputies. The strikers seem to have taken courage from the action of Governor Waite and affect to believe that the militia would tend to aid them in carrying out their purposes. Be this, as it may, the strikers are being encouraged by the temporary absence of the deputies and are becoming bolder and more imperative and intolerant. There is no danger that a nonpartisan will be fired upon without first being warned, but when ordered to stop, it means that he must stop just where his feet are resting. It is but a step from this attitude to one of most reckless daring, and people in the camps fear the

All day Monday strikers were searchng for arms and ammunition in the nining camps, and wherever arms, ammunition or provisions were found they were confiscated and receipts given for hem. No one about the camps, except the strikers, are permitted to carry arms and the strikers, who reign supreme, have issued the order that every ablebodied man found in camp when the real contest comes will be forced to carry arms in their ranks. The result is that many people are moving away from the camps to the city of Cripple Creek and elsewhere. Town and county officials are utterly unable to do anything in the face of such an overwhelming number of desperate men. Parties of men who are in sympathy with the mine owners have gone to Midland, where they will met the deputies and conduct them to the

strongest points about the scene of trouble. A large party of strikers have also one towards Midland to meet the deputies and retard their progress as much as possible. The country about Bull Hill, the strikers' stronghold, for eight miles is held and patrolled by the strikers. The miners have received telegrams in

cipher from Denver, Pueblo, Leadville. Ouray, Coal Creek and other points, offering them aid if a battle becomes inevitable. It is said that 1,000 armed men will be sent to the strikers on 48 hours notice.
