Pullman Shop Reopens: CINCINNATI, O., July 16.—The Pullman shops at Ludlow, Ky., reopened with eighty-five men.

A TERRIFIC EXPLOSION.

Caisson Explodes, Killing Three Soldiers, at Chicago.

TWENTY OTHERS WERE INJURED.

Great Damage Done to Neighboring Property—Horses Killed by Flying Missiles—Bullets Were Shooting in Every Direction—One Body Mangled Beyond Recognition—Investigation Ordered.

CHICAGO, July 16.—A caisson of battery F, Second artillery, U. S. A., exploded with terrible force shortly after 1 o'clock Monday afternoon at Grant and Oakwood streets.

The caisson, which was being moved by a team of mules, was struck by a shell from a battery of the Second artillery, which was firing at a target in the distance.

The explosion was so terrific that the caisson was blown to pieces and the mules were scattered in every direction.

Three soldiers were killed and twenty others were injured. The damage to property was great.

The investigation is being conducted by the military authorities. It is believed that the explosion was caused by a shell from a battery of the Second artillery.

The caisson was being moved by a team of mules. It was struck by a shell from a battery of the Second artillery.

EXCITING COURT SCENE

Regular Soldiers Enter a Court-room For Prisoners.

MET A JUDGE READY FOR A FIGHT.

Mobs Cause Trouble at Oakland—Troops Have a Lively Time Getting Out a Freight Train—Twenty of the Strikers Arrested.

SACRAMENTO, July 17.—During the hearing of a writ of habeas corpus for the release of three demonstrators arrested before Judge Catlin, of the state supreme court, a detachment of regulars marched into the court and with evident intention of taking the prisoner.

Judge Catlin immediately arose and called upon the person who had custody of the prisoner at the moment of the regulars' entry.

The man who had custody of the prisoner at the moment of the regulars' entry was a sergeant of the regulars.

The sergeant of the regulars was a man of the regulars.

The man who had custody of the prisoner at the moment of the regulars' entry was a sergeant of the regulars.

AN ENGINEER TALKS.

HE ANSWERS A FEW QUESTIONS SUBMITTED BY VOORHEES.

Shows His View of Wages Under a Democratic Administration—Immigration One of the Causes of the American Laboring Man—Advice to Congress.

TO THE HON. D. W. VOORHEES, Chairman Finance Committee, United States Senate, Washington:

DEAR SIR:—Your circular letter of inquiry at hand and contents noted. In reply will say:

First—The Brotherhood of Locomotive Engineers.

Second—I am not in possession of any means whereby I could inform you accurately as to the number of people employed in the various industries in my district.

Third—The wool industry is one of the most permanent here. The wages of labor have been reduced 24 per cent and employment reduced about one-third.

Fourth—My industry from a workman's standpoint is at present in a depressed condition.

Fifth—The expenditures of the families of workmen have been lessened by reason of a reduction of wages and lack of work during the past 12 months.

Sixth—I had been working full time of 60 days a month for 11 months.

Seventh—A reduction of import duties, in my opinion, would cause more illness.

Eighth—It is also a peculiar question for me to answer as to the best methods of placing the industry upon a prosperous basis because I never was educated to make a good statesman.

Ninth—Immigration is one of the causes to the American laboring man. I look at it as a living disgrace on all American statesmen for stooping so low as to aid the bidding of foreign steamship companies for the mere pitance of a free pass over the ocean or to be so cowardly as to be afraid to lose a few ignorant foreign votes.

Tenth—I am an engineer, and hoping it will be of some benefit to you I am, yours respectfully,

J. W. REEDY, Engineer U. P. Railway.

Japanese Woolen Manufacturers.

The competition that our woolen manufacturers are likely to meet with in a few years from Japan is considerable.

In the Dismal Swamp.

President Cleveland has a woolly record. He expressed himself very plainly, telling the people all about the farmers and their wool in his third annual message to congress, Dec. 6, 1897.

Up to the present time it has been the belief of the present tariff on wool is illusory and proceeded to show from his point of view that it was a burden upon the poor, the employed and unemployed, the sick and well and the young and old.

Senator Jones of Nevada, in his great speech of 1892, took up Mr. Cleveland's sheepfulness, and estimating 65 per cent as being "a large proportion" showed that he had in 1887 as many as 330,960 separate farmers who owned flocks of 45 sheep each and that there were 4,000,000 farmers and sheep and peculiarly interested in the wool trade.

As President Cleveland desired free trade in wool because "a large proportion of the sheep owned by the farmers throughout the country are found in small flocks numbering from 25 to 50."

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil.

Castoria is an excellent medicine for children. It is so well adapted to children that I recommend it as a superior to any prescription known to me.

Castoria is the best remedy for children of which I am acquainted. It is so well adapted to children that I recommend it as a superior to any prescription known to me.

Castoria is the best remedy for children of which I am acquainted. It is so well adapted to children that I recommend it as a superior to any prescription known to me.
