The sheep farmers of the United States have lost over \$100,000,000 through the decrease in the value of their sheep and of their wool through the mere threat of free trade. A careful comparison of the number of sheep in the 47 different states and territories shows that there was an increase of less than 1,000,000 sheep between January, 1892 and 1894, a period of two years. Such wretched lambing seasons the country has never before witnessed. The total loss in the value of the sheep was nearly \$60,000,000, and the loss through the cheapness of wool was nearly \$45,000,000, distributed among the different secti as of the country as fol-

THERE seems to be an opening now for a central Nebraska man on the republican state ticket, and, as the name of Gus. G. There is no doubt but Becher would make a very strong candidate and what is more, would make a very excellent officer, after election. Strike while the iron is hot, and let Platte county republicans get to the front and give the state ticket a man of character.

THE Palmer folks in Merrick count are making a heroic effort by legislation to be effected to rid themselves of Russian thistles. It is such a pest that it must be exterminated or the farms be made worthless by it. There is no middle course, and individual work here and there, if ever so good, will not answer the purpose. From all accounts it is one of the very worst enemies that may strike the farm. THE JOURNAL, months ago, gave a complete description of the pest. and the best means of getting rid of it.

In the Dakotas the Russian thistle has already proven to be the most serious evil farmers have ever had to contend with, whole counties in some localities having been depopulated and given over entirely to its overwhelming spread. Its appearance in this county has justly caused our people the greatest alarm, and the need of prompt action is apparent to all. It is perfectly plain that to wage any successful warfare against this pest the work must not be left to individual effort. The neglect of to explain the merits or to dwell upon the one farmer may sow the farms of a demerits of 600 odd amendments to this dozen neighbors with the thistle in bill which this house is about, of necesspite of all their efforts to exterminate sity, to concur in.
