For Representative in Congress from This GEO. D. MEIKLEJOHN of Fullerton

THE best definition of the season: The Sioux City Journal says that the democratic party is the Russian thistle of American politics.

GOVERNOR WAITE was arrested Tues day at Denver charged with opening and retaining a letter addressed to Mrs. Likens, formerly matron at police head

THERE is a scheme for the nation purchasing about 4,000 acres in and around Gettysburg and forming a grand national park. Gen. Sickles' plan is to establish a military post, a soldiers' home, an Indian school and a G. A. R. museum

THE republican congressional convention held at Norfolk Tuesday evening of last week nominated Hon. George D. Meiklejohn, present congressman, by acclamation, there being no other aspir ant for the position. Republicans generally feel confident that Meiklejohn will be his own successor.

It was said that Meiklejohn couldn't succeed himself as congressman because he wore corsets; because he was pretty; now they call him a fashion-plate, and yet the young congressman is an American gentleman, who keeps himself cleanly in person and attends strictly to business at the national capital, when duty calls him there.

THE Hennepin canal, it is supposed will have 2,000 men engaged in its construction by the middle of September. Let the general government and all state and municipal governments make their needed public improvements now. This is undoubtedly the sensible policy. People do not want charity, but they do want work, so that they may be able to earn their living.

THE belief in obsession or "being possessed of the devil," has not entirely died out, it seems. In the district of Barnaul, Russia, the other day, an old woman, driving in a cart, was set upon by a crowd of people, they saying she was the cholera devil. She protested that she was human like themselves and could not disappear miraculously-but her cries did not save her life. Her corpse was not allowed in the village.

LET the citizens of the country stead ily and firmly oppose the issuance of any more bonds of the general government in times of peace, to pay running expenses. Coin silver and pay it ont for salaries. Let the people's servants take the people's money, without in terest, and if they are too uppish for that, there are plenty of others who can take their places. We must not get prouder than our good forefathers were in the matter of gold and silver money.

Kansas is certainly one of the most remarkable portions of our beloved land, and this is true in several respects. It is a state for peculiar productions, and especially of phenomenal human beings. Among the latest is a woman named Mrs. Frank Roadson, who lived six weeks with a six-penny nail in her brain. driven there by her own hand to end her life. After partial paralysis and two surgical operations, she is about to regain full control of her muscles, and physicians pronounce it the most remarkable case on record.

THE TREASURY CONDITION. Republicans Increased Our Cash and Do-

creased Our Debt and Interest. Will you be kind enough to state the assoun 4, 1889, and at the same date four years later? CHARLES E. WEBER.

We have not at hand the figures asked for on March 4, but give those at the end of each fiscal year June 30, 1889 and 1892, as supplied in the statistical abstract of the United States, published by the treasury department, as follows:

CASH IN TREASURY.

...... \$643,113,172 01 061,355,894 20 694,083,839 83 746,937,681 (6 Increase in four years......\$108,824,309 02 It will be seen that within four years the cash in the treasury increased by \$103.824.509. In this connection it i interesting to compare the amount of the national debt, less cash in the treasury, and also the per capita debt, as

supplied by the same official authority. DEBT LESS CASH IN TREASURY Per capita \$975,989,750 22 \$15 92 851,912,751 78 841,526,463 60

Decrease four years, 134.413.286 62 Here it is seen that during the four years ending June 30, 1892, the national debt, less cash in the treasury, decreesed by \$134,413,286.62, or at the rate of \$3.05 per head of our population. This showing is slightly different from that made during the first year of the present administration, which added almost \$75,000,000 to the national debt. It is of further interest to study the amount of interest paid on the national debt within the same period, which, it will be seen, decreased by \$17,628,368, or at the rate of 19 cents per capita:

WASHINGTON, Sept. 4.—Rear Admiral

Walker, who is in the city for the purpose of laying before the navy department the information acquired by him in his recent trip to the Hawaiian islands. Speaking of the affairs in the islands. mid: "Everything was quiet at Honolulu when I left there in August and there was no prospect of an outbreak. The new republican government seems to be firmly established and thoroughly competent to take care of itself unless there is interference from the outside. Pearl river harbor, where it is proposed to establish a United States coaling station, is a beauty. It is one of the finest harbors in the world and is large enough to accommodate all the ships affoat. All t wants is the removal of a little bar at its entrance. This bar is all sand and can be easily taken out and at small expense. It was thoroughly surveyed while I was there by Max Wood, one of

our officers. "How about annexation? Oh, I can't say anything on that subject, except the sentiment among the people for annexation to the United States appears very strong. By the way, Honolulu is a most charming place and I had a most delighttul experience there.

"Will I take charge of the naval academy? Well, that depends altogether on circumstances. I will have to remain in Washington for some time for a conference with the secretaries of state and navy in regard to Hawaiian affairs. They may want more information than I have given in my report. How long that will keep me here I do not know. but the probabilities are I shall not go to next term, early in October."

perus Given a Few Days Longer. San Francisco, Sept. 4 .- Thomas St Clair, one of the murderous sailors of the bark Hesperus' crew, under sentence to be hanged Sept. 21, has been granted a respite till Nov. 2 by President Cleveland. Two others of the crew are un der sentence for the same crime, the killing of Mate Fitzgerald, and the exe ention of St. Clair is delayed pending the action of the United States supreme court on the appeal of their cases. A similar appeal in St. Clair's case has already been passed on and the sentence of the lower court sustained, so there i little probability of a contrary decision in the other cases. It is probable that

the three mu tinous sailors will be hanged The three condemned men were of the crew that conspired to kill off all of the officers of the Hesperus, including the captain's family, save his wife, who was to be kept a prisoner, and then to cruise as pirates over the southern seas. The killing of Mate Fitzgerald as he paced the quarter deck one dark night was the first murder agreed upon. Fitzgerald's body was thrown overboard by the murderers and when the captain came on 19 deck early in the morning he was told

that the mate had fallen into the sea and drowned, but there on the quarter deck were the telltale blood-stains that the murderers had been unable to wash from the boards. Before night came on again one of the conspirators confessed all to the captain and the plotters were thus foiled.

"Any great fall of the price of wheat is no longer possible, as the consumption increases faster than the production.

The above remark was made by Mr. Charles A. Dana, the editor of The Sun, when interviewed in Paris. Mr. Dana may be correct in stating that "any great fall in the price of wheat is no longer possible," because farmers have seen the price of wheat tumble down to bedrock since the election of a Democratic administration, which was aided and abetted by The Sun.

Mr. Dana is wrong, however, in stating that "the consumption increases faster than the production." There was a surplus of wheat stocks throughout the world larger by 52,000,000 bushel-July 1, 1894, than on the same date two years ago, larger by 65,000,000 bushels than three years ago, larger by 80,000,-000 bushels than four years ago and larger by 86,000,000 bushels than five years ago, when the area planted to wheat was 5,000,000 acres greater than last season's area. ### IRRIGATION CONGRESS.

Seventeen Western States and Territories Represented.

ABOUT TWO HUNDRED DELEGATES.

Canada, Russia and Several European Countries Represented-George Q. Cannon of Utah For Temporary Chairman. Colorado Delegates Stirred Up Over Secretary Morton's Letter.

DENVER, Sept. 4.-The third national irrigation congress convened at the Broadway theater Monday. There were about 200 delegates in attendance, representing 17 western states and territories. Representatives are present from Canada. Russia and several European countries. Don J. Ramond Jooral presented credentials as the personal representative of President Diaz of Mexico. The United States government is represented by H. Newell, Arthur P. Davis and Morris Bean of the general land office and geological survey. Object of the Convention

The first object of the convention will be the formulation of a bill to be presented to the next congress regarding the reclamation of the arid lands of the west. After this will come the question whether or not the meeting shall indorse the recent action of congress in ceding 1,000,000 acres of arid lands to each arid land state and territory on the western proposition to have the government re- this city. claim these lands. Colorado will oppose this plan on the grounds that the western states and territories have not the money to develop these lands after they come in possession of them.

The congress was called to order by National President W. E. Smythe, who delivered his annual address. He said: For nearly 300 years humanity has sought to realize on this continent its long dream of independence and equality. Religious independence, born of the perils and hardships of Plymouth bay, we inherit from the Puritan. Political independence we won with the sword in a 7-years' war, we inherit from the revolutionary patriot. And yet, with two such precious legacies-freedom of conscience and popular sovereignty-the closing hours of the 19th century records the startling fact that only 5 per cent of the American people own the land on which they dwell.

Periods of depression inevitably succeed periods of prosperity. Is it any wonder that with the ebb of industrial tide men grow sullen and the women heart sick? Is it any wonder that the fruit of hard winters is a crop of idle, wandering men? Is it any wonder that a LONDON, Sept. 4 .- A report has been great employer of labor, who holds received here from Morecambe, county dividends more precious than humanity, can starve his workmen into submission! The peace and prosperity of this nation depends upon whether there is sufficient wisdom and patriotism in this body, and in public life of the United States to add to the legacy of puritan and patriot the realization of industrial independence. Founding our faith on this conservative authority, we send to the people of this troubled nation the message: "We are coming, Father Abraham, with homes to augment the productive manufacturfor 70,000,000 more-homes where irrigation shall guarantee industrial independence and the small farm units the quality | ed to the government that the sum of Another message we send to our coun-

Governor Waite, who has gone to the Populist state convention at Pueblo, welcomed the delegates to the state through his private secretary, M. Lorenz. Mayor Van Horn and President Byers of the chamber of commerce welcomed them to the city.

Ex-Governor Prince of New Mexico introduced a resolution giving every person who had come to this convention a right to participate regardless of the representation fixed by the Los Angeles congress. After considerable discussion the resolution was referred to the committee on credentials.

George Q. Cannon of Salt Lake City was unanimously chosen temporary per capita of population, with those of other countries?

until 2 o'clock. On reassembling the committee or credentials submitted a resolution, which was adopted, to the effect that each state and territory represented be entitled to its full vote, and that all persons appointed by any authority be permitted a voice in determining how the vote of his state or torritory shall be cast. Committees on permanent organization, resolutions, rules and order of business, each consisting of one delegate from each state and territory, was the next business transacted.

Permanent Officers Chosen. After a short recess the committee on permanent organization recommended for permanent officers of the congress: Edward Mead of Wyoming, president; John C. Foster of Kansas, first vice president; Thomas L. Smith of Colorado. secretary: A. M. West of California, first assistant secretary; H. V. Hinckley of the per capita of debt and of revenue Kansas, second assistant secretary. Vice presidents from each state and territory | than in any of the other countries enuwere named. The report was unanimously adopted and several resolutions were introduced which were referred to the committee without debate.

Among them was one by Mr. Pierce of Texas, who asked that congress be requested to appoint, and also to ask the republic of Mexico to appoint irrigation pire, Emslie. commissioners for the purpose of agreeing upon the division of the waters of the Rio Grande. Mr. Dennis of Canada asked that Canada be included in the resolution. It was agreed to. In the evening reports from the sev

eral state commissioners were heard to the exclusion of any other business. Denver Delegates Stirred Up. The Denver delegates were stirred up by the receipt of the following letter

from J. Sterling Morton, secretary

of agriculture, in which he paid his re spects to the convention as follows: "The questions considered by these irrigation conventions have nothing to do with practical irrigation. They amount simply to the coming together of a body of citizens for the purpose of petitioning congress for grants of lands and acession of whatever control or ownership the general government may have of the

waters of the arid region.' A delegate objected to the words of Mr. Morton as an insult to the convention and moved that the document be returned to Washington. J. E. Leet appeared in the role of peacemaker and the letter was placed on file.

It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guaranteo is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd. cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Case toria is the Children's Panacea-the Mother's Friend.

"Castoria is an excellent medicine for .... dren. Mothers have repeatedly told me of its good effect upon their children."

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not for distant when mothers will consider the real interest of their children, and use Castoria in stead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hartful agents down their throats, thereby sending

NOTICE OF ADOPTION.

Platte County, 5 St. HEREAS, on the 16th day of August, 1894, F. M. Kerr, father of Viola Blanche Kerr, female child of 5 years of age, made and filed in this office his sworn statement duly attested

and stated that he desired to relinquish all right

to the custody of and power and control over the said Viola Blanche Kerr, and all claim and

interest in and to her services and wages; and also came F. M. Cookingham and made and filed

in my office a statement under oath, duly attested that he desired to adopt said Viola Blanche Kerr as his own child. I have therefore appoint-

ed the 20th day of September, 1894, at 1 p. m. of said day at my office in Columbus, as the time and place where a hearing will be had in said matters, at which time and place all persons

interested may appear.
It is ordered that a copy of this order be pub-

lished in THE COLUMBUS JOURNAL, a newspaper published in said county, for three successive weeks prior to the time set for hearing.
