Strange Predicament Confronts the Democratic Convention.

IT MAY BE A REPETITION OF 1876.

When the Galleries Nominated Seymour For Governor-Probable That Hill Will Be Nominated In the Same Way-Tammany Delegates Favor William C. Whitney-Judge Gaynor Not a Candidate.

SARATOGA, Sept. 25.—There is not a man versed in the ways of conventions of political parties that ever saw a scene like that which confronts the Democratic convention. The predicament is explained in a very few words by Lieutenant Governor Sheehan. He said: "There is not a man or politician here that knows who the nominee will be until the convention completes its work. It is anybody's or any faction's candidate and the convention will be a democratic one in every sense of the word."

It is perfectly probable there will be a epetition of the convention of 1876, when the galleries nominated Seymour for governor, he afterwards declining to run and Robinson being selected as the candidate. The reception that will be accorded to Senator Hill by the convention will undoubtedly take on a remarkable phase. It is probable he will be nominated by acclamation from the galleries. That he will decline, however, is almost certain.

Senator Hill Opens Headquarters. Senator Hill arrived late Monday evening and opened headquarters at the Grand Union hotel. Said he: "I received word that I was to be the temporary chairman of the convention. I know nothing about who is the most probable candidate." He was shown the dispatch about the declination of Mr. Gaynor, and he said laconically: "It seems the proper thing is to refuse to be a candidate."

Several Tammany delegates were seen in regard to the placing of Tammany's strength, and every man favors William C. Whitney. When asked as to the "Flower boom" they seemed to be unanimous enough, but expressed little hope of his retracting his withdrawal. Tammany delegates will hold a conference and will probably come out as one man for William C. Whitney.

It is announced by the Tammany people that Mr. Whitney will be in Saratoga on Wednesday. This is in itself Ex-Vice President Levi P. Morton, significant, for Mr. Whitney was not expected to be a visitor at the convention. Further, those who arrange for the meetings of the convention have decided to wait a whole day before they take up the nominating of candidates, and it is urged this is in favor of the Whitney boom, because the delay is evidently to let Mr. Whitney's decision be known before final action is taken.

The Erie county people, who were credited with having a boom for Daniel M. Dockwood, and the Monroe county people, who were credited with a similar move for Frederick Cook for governor, are rather apathetic.

The Lockwood boom looks as if it might die, and, indeed, it is said, that Mr. Lockwood may make a speech nominating Spencer Clinton of Buffalo for judge of the court of appeals. This being so, would argue that Mr. Lockwood had decided to withdraw. For lieutenant governor the name most prominently mentioned is that of Frederick Cook, who, it is said, will accept the place under Mr. Whitney, but nobody else. For judge of the court of appeals. Spencer Clinton of Buffalo has the call, but D. Cady Herrick of Albany is mentioned as a very probable candidate to appease the antimachine men.

WASHINGTON, Sept. 25. - Solicitor Reeve, of the treasury, rendered an opinion which involves the constitutional question whether congress has a right to pass a law which impairs the obligation of contracts. At its last session congress passed an act reducing the compensation of surfmen employed at life saving stations on the great lakes. The question at issue was whether this reduction applied where contracts with surfmen at the old rate had been entered. The solicitor finds that the said act was not intended to apply to existing contracts with surfmen at lake stations.

Farmer Who Put Up Six Hundred Barrel Goes Hunting a Market-The Stores Make No Sales and Refuse to Buy-No Work.

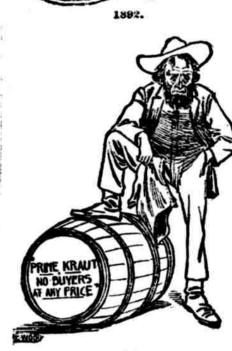

I have recently been down to West rirginia, where the people are much roubled over the prospect of free iron and free coal, because these are about the two largest industries in that Dem-

ocratic state.

I find that the very fear of free trade has hurt West Virginia in more ways than one. Even the farmers have felt it. I had a valuable conversation with one farmer, who has been a lifelong the train as he was returning home after trying to sell his products.

My new found friend owns a large farm along the Ohio river and raises cabbages to make kraut. I asked him "where he usually sold it." "My market has always been in Pitts-

"No, sir," he continued. "Those fellows then were so doggone mean that they wrote back and told me they couldn't take it at any price; that the men who usually bought kraut from them were out of work and had no money to buy anything."

"That must have made you fee mad?" I suggested sympathizingly. "Mad! Mad wasn't in it. I cursed that state, has been received and the around so that nobody came near me papers issued. I said, with interest. "Do? Do?" he answered. "There's only one thing to do, and that is to turn these fellows out. I'm a Republican now. No more Democrats for me. I'm for protection. No more free trade for me. This free trade talk has cost me \$4,200, and I'm working hard now for the Republicans, sir, and we Republicans expect to carry this state of West Virginia by a majority of 15,000 or 20. 000, and, by ---, we'll do it."

is in wages and savings that the greatest advance is shown, and where do we ever see the fruits of protection that we do not see increased wages and savngs? In the last generation the wages of our people have increased more than sevenfold and our savings more than twelvefold, and during the same time we have paid off nearly \$2,000,000,000 of national debt. In 1860 our exports amounted to \$333,576,057, in 1892 to \$1,030,278,148, and yet, enormous as is our foreign trade, it is small indeed compared with our domestic trade.

Her Own.

It is astounding to note how falsified are all the predictions of Richard Cobden and how true, in only 60 years, have been the statements-unheeded at the time-that the days would come when Englishmen would have to submit to German wages, German hours of labor. German food, or to leave their land of birth and seek for fair remuneration in lands where protection to native labor was in force, and the bone, sinew and capital of man was not handicapped by pauper labor. Do not all our ablest statesmen of both political parties, our bankers, our merchants, our manufacturers concur with our landlords and farmers that without protection, wisely and carefully sustained, England can not hold her own against all "the civilized world?" Driven out of all "civilized markets," the search for new markets among the uncivilized millions of Africa, who only use three yards per annum of calico to cover their loins, will not replace the loss of our European, American, Indian, Chinese and Japanese customers.—Cor.
