—Wonderful stories are passing of the new forage plant machine, which is said to produce as much as 100 tons to the acre, and relished by cattle, horses and sheep. It belongs to the buckwheat family.

—An old-time Columbus boy now of the great northwestern country writes to a former boy acquaintance here expressing his desire to send a car load of wheat, and asking him to take charge of its distribution.

—Arrangements are being made to hold a meeting of the Dodge County Farmers' Institute in Fremont early in February. A number of leading farmers and others have been requested to prepare and read papers.—[Herald.]

—Mr. Weir has resigned his position as secretary of the "Y." to take effect the first of the year. The association has been and is in very many ways, helping the youth to help themselves, and their work is beginning to tell.

—Editor Parks has been down south and says it is a good land for the Nebraskaan to stay away from. This is his deliberate opinion not only as the result of his recent trip but from "a long residence in the sunny land in the long ago."

—On the margin of THE JOURNAL, or on the wrapper, following your name you will find the date to which your subscription is paid or accounted for. If the date is past, you are respectfully requested to renew your subscription. See rates elsewhere.

—Next Sunday Rev. T. C. Clendening of Omaha will preach at the Methodist church, at 10:45 a. m. Preaching in the evening as usual by Rev. Ross. Rev. Olcott will lead the prayer meeting, Thursday evening in the absence of Mr. Bross at Omaha.

—Starting with Oct. 15th, 1894, THE COLUMBIAN JOURNAL subscription rates are \$1.50 a year, if paid in advance, otherwise \$2.00 a year. Settlements up to that date must be made on the basis of the former rate. All premiums now advertised hold good.

—Judge Marshall of the district court was hearing some equity cases Monday forenoon. It was thought that the Thurston property deed question would come up in the afternoon. As we go to press early Monday afternoon, we cannot of course give the result.

—Frank Prince is to be manager of Madison's new opera house, and he will doubtless make a good one. He certainly has a well-developed love of amusement, and will know a good company by instinct. Our northern neighbor is to be congratulated on house and manager.

—Two strangers taken before Justice Hudson Thursday for stealing goods at Barber's and sentenced to ten days in the county jail, five of them on diet limited to bread and water. One of them insisted of the judge enlightening him as to the constitutionality of the limited fare.

—A Seward county man, from apparent appearances, stands a mighty good show of receiving one of the largest and juiciest plums that is soon to be given out by Governor-elect Holcomb. It is that of chief of inspector and the, in all probability, successful candidate is the Hon. Simon Johnston of Milford.—[Blade.]

—A Grand Island jury in the case of Edward C. Hockenberger, returned a verdict of acquittal. The suit was brought by the county board of Hall county, based upon a report by Expert A. E. Fowle, in which it was charged that County Treasurer Hockenberger was short during his two terms something like \$6,400.

—John Wurdemann jr. will answer to the same charge that he was tried on Thursday at the district court, Judge Hudson considering that way correct. Bond \$1,000. It would be better, it seems to us, if in all such cases the parties in interest could settle between them, without bringing them into the public gaze.

—A tin plate and glass factory are to be erected at Des Moines, Ia., at a cost of \$500,000. The price of steam coal 50 cents a ton, is given as the reason for locating. With such power as Columbus could furnish, with a power canal from the Loup, we could have here all of such factories that we could accommodate, and why not?

—During the past week Mrs. M. K. Turner, at her dwelling-house in the city has been nursing four of her children sick with scarlet fever, and differently affected. Rena came first, then Gladys, Martha and Frances. At this writing they are all as well as could be expected, and with no relapse, are expected to be all right in due time.

—One of the city papers contained an item last week that might possibly be misconstrued by some people. It was concerning the electric light repair at the Methodist church. The connection was made outside without the knowledge of Rev. Bross, and it seems, during preaching, the jets have been inside the church for a long time.

—Sunday school noon, while Walter, 4 1/2-year-old son of Otto Heuer, was cutting a string on his shoe, he fell forward and both points of a pair of scissors opened his right eye, one of them on the side, the other in the middle; it is feared penetrating the brain somewhat. The child may live, but it is said that the injured eye is destroyed.

—Moses Kennedy, formerly of Cadiz, Ohio, was in the city Thursday, stopping between trains, on his way to San Francisco. He was in good health and spirits, and had evidently set his heart upon seeing the far-famed land of sunshine, flowers, gold and Chinamen. An honest lad, he is determined to make his way in the world, and he will do it.

—Mr. Plath has completed the irrigation plant on the farm of McAllister & Cornelius south of the Loup. A 13-foot wheel is the moving power, under the manipulation of Nebraska zephyrs. The stroke is 18 inches to be lengthened to 12, the well 15 feet deep, with 6 feet of coarse gravel, and the combination will doubtless be a grand success.

—First it was an advertising agency, then it was Editor Rosewater of the Omaha Bee, and now it is Dr. Little, superintendent of the asylum for the insane at Norfolk, all of whom have been, are now or may soon be after our esteemed contemporary, the Telegram, for uttering words alleged to be out of the strict line of truth. Certainly Brother Parks is having more than his share of free advertising these days.

**DIED.**

—Ray—December 24, 6:30 a. m., of lung trouble, after an illness of one week, Frank, son of Mr. and Mrs. S. J. Ryan, aged seven years.

The funeral will be from the Catholic church Tuesday afternoon, Dec. 25, at 4 o'clock.

The sorrowing parents have the heartfelt sympathy of all in their affliction.

—The Humphrey Democrat says: E. A. Stockinger and Mr. and Mrs. Geo. W. Clark started Thursday for California, expecting to be gone till March. The six months old child of Peter Bender, jr., died last Friday, its mother died Dec. 11. W. E. Harvey went to the hospital at Columbus, Wednesday, David Thomas and R. E. Jones went to Columbus last week and bought sixty tons of hay and a car load of corn.

The editor thinks that locality should figure in county and official printing, and says that so far as charges for legal notices which widows and orphans have to pay we are all willing to do our share as well as Mr. Turner.

—W. W. Mannington, J. H. Staerider, E. A. Gerrard, R. B. Thompson, A. Watts, Henry Clayborne, P. H. Kelley, Ed Hoare, W. T. Strother, John Potter, F. H. Gerrard, Will Potter and Ern Hoare were in Lincoln this week as witnesses in the Thompson-Gerrard land case. Bert Priest met with a very painful accident last week. He was riding in a lumber wagon, and one of the horses was a colt. Something started the colt to kicking and she struck Bert in the face, making a bad gash in his upper lip and lacerating the gum. This accident will make it impossible for "Cody" to do any "showing" for awhile and he will be missed by the band boys till he gets in shape again.—[Monroe Republican.]

—There are several counties in western Nebraska that have issued appeals for help against the appeal has both heart and merit in it. But the condition has made it possible for an army of long-haired and gilt-tongued frauds to travel through the east and prey upon the credulity of the charitably inclined people. The Sun has noticed articles in quite a number of eastern papers speaking of meetings for the relief of Nebraska drought sufferers. As a matter of fact one-half these charity emissaries who are working the east are frauds, who will convert every dollar donated to them to their own use and benefit. Many of them never saw Nebraska and their tales of woe are purely a production of a fertile brain. If the people in the east desire to aid those who are in distress on the frontier, there are many channels through which they can reach those in need. Let them send money or clothing or food to the local relief committee at any county seat in the state and it will reach persons who are in need.—[Kearney Sun.]

—Those having eyes to see could look any direction Saturday and see Santa Claus. He can do a good deal of business in a short time if he becomes so used to it, but Saturday he evidently had an extra "rustle" on himself, because he made things fly at a pace we, at least, never before saw. Ordinary beings seem to be greatly affected by the "labor question" and such, but good Kris Kringle seems the same jolly old fellow that he always has been. Some little children may possibly have to wait a few days for his visit, but we are sure he comes to all—in his own way, not always our own way. THE JOURNAL wishes all who read its columns, and all the little men and women, as well as the old boys and girls in the world a Merry Christmas in the good and true sense, a Happy New Year, and progress in all the paths of right living, sound thinking and pure motives. Surely the same Kind Providence which has certainly guided us thus far as a nation, and permeated our whole life with the spirit of civil and religious liberty; enlightenment of mind for all degrees of intelligence; and thoughtful care of the weak and unfortunate, is still our Strength and our Habitation.

—The Quill believes that the proposed irrigation ditch should be built by all means and hopes our land owners along this valley will favor it. With irrigation not only will all crops be assured as well as increased, but we could then raise potatoes and sugar beets in fine style, as both need plenty of moisture. A gang factory for Schuyler would be an assured fact with that ditch in to guarantee the raising of the beets in large quantities and when a crop failure is out of the question. Irrigation means also smaller farms and that is what we must come to. Renters then could raise as much off forty acres as they do now off eighty and their rental prices would be just half as much in total. What the Quill says in the above concerning Schuyler applies with equal force to that part of the ditch in Platte county. Work was begun on the ditch Wednesday last.
