from Holt county, having declared that the vigilantes of the county, a number of his fellow citizens met and passed resolutions asking him to resign his position, of such a proceeding was discussed at because they had found that he was a length, and it is understood some memmember of the vigilantes.

World it not be well for some of our legislators to look up the case of Mrs. Mary A. Logan against the Fidelity and Casualty company of New York to collect \$2,500 on an accident policy held by her son who committed suicide in 18939 Mrs. Logan's lawyers pointed out the to get justice.

Senator Allison's Opportunity.

Senator Allison believes the best men of both parties should unite on some plan of relief for the government finanes at once. He takes the ground that he owes his highest allegiance to his country. Senator Allison is a first-class epublican.—[Chicago Tribune. Why can't the men of all parties

congress unite on a plan of relief through the establishment of postal savings banks? There are now about three billions deposited in savings banks and state institutions for savings. Why can't these deposits be placed at the disposal of the government, thus giving the common people, and especially the wage workers, an opportunity to become creditors of the nation instead of leaving the entire debt in the hands of foreign and American capitalists? Suppose that only one-third of the savings banks deposits were placed in the postal banks. That would give the government an opportunity to accumulate gold for its eserve and to decrease the drain of gold for interest on bonds and redemption of greenbacks. Postal savings certificates bearing 3 per cent interest for one-year time deposits, 2½ for six months deposits and 2 per cent for call deposits would circulate everywhere the same as money. The holders of these certificates would be willing to accept paper, silver or gold for interest and principal. The bond-holder wants gold and gold only. The main object of the \$100,000,000 gold reserve in the treasury is to redeem the

reenbacks, and the demand for the estruction of the greenbacks is inspired by fear that the treasury will not be able to redeem them in gold. This danger can be avoided by using the greenbacks as a reserve for the postal savings de-

This plan of relief has worked very satisfactorily in England and France. where the greater part of the public debt is carried by the middle class and the wage worker. Why will it not work in the United States? Why not give it a trial anyhow? Here is a chance for Senator Allison to popularize himself and save the country from financial disaster.—[Omaha Bee.

The people are the sovereigns, and i heir hired men will provide the opportunity to show their confidence in right principles of finance and in the stability of republican institutions, they will find a response that will be surprising. Give the many thousands who work for their living, and who have a few dollars extra, occasionally, that they would like to invest in a perfectly safe manner, some such plan as that outlined, and they would certainly take advantage of it.

Hepburn on the Greenbacks. "The republican who votes for the reirement of the greenbacks may as well retire from public life," says Congresswhat would become of their party if the man Hepburn of Iowa. "The greened to love to see them on pay day, and many a soldier looked lovingly upon them when the paymaster came around. They were sent home to our wives, and they purchased food and clothing for the necessity for changing our financial system. The greenbacks are all right. Our financial system is all right. The demomit myself to fall into their traps."

with gold. But when any man came I would pay him, according to the law. 'in coin.' I would give him silver and keep the gold. This administration is constantly depleting the treasury of its gold, and there is no necessity for it. The Cleveland administration appears to be in league with Wall street, or else this drainage of gold from the treasury would not be allowed."

deal of uncomplimentary comment by putting more employes on the pay roll than the law allows. The republican legislature of 1889 amended the law and limited the number of employes to sixtysix. The present senate got seventy more on the way when a halt was called. Auditor Moore served notice that he would not sign vouchers for more than the number allowed by law, and the senate then began to strike useless employees from the roll. Both populist senates overrode the law in this matter, but that should not serve as a precedent for a republican senate. The practice of rewarding political friends in this way has grown until it is an outrage and we are glad to see a stop put to it. Eugene Moore and all others who have insisted that the law should be complied with are right, and should have the moral support of every law abiding citizen of the state.

The above, from the Osceola Record, is the right kind of talk at all times, but especially so these days, and we are glad to note that Senator Sprecher of this district has lined up alongside Auditor Moore. No matter if other senates have violated the law-such violation should be all the greater incentive to present duty. Nebraska is perfectly willing to pay for all she receives, but has no money to spare illegally, or for work not needed -let there be more attention given against plundering all around, and less to personal pulling for place, and our counties, with the entire state, will be

J. B. Errox of the Nebraska Bureau of leave nothing undone which furnishes a Labor, in his report to the legislature, describes the dams that would be profitable to build across ravines, at the head of gulches, etc., for catching and holding the extra waterfall, and thus enabling to irrigate. The Allerton (a large ranch near Cedar Rapids), will have eight such reservoirs ready for use, says the Comabout fifty men have been at work on them all winter. Some of the dams are fifty feet high and nearly as broad on top. They are built generally on section lines, and are a great improvement to the roads crossing the gulches. Some of the reservoirs will back water for nearly a mile. Besides their value for watering stock and for irrigation, the larger ones will make splendid pleasure resorts for fishing, hunting, boating and bathing. A peculiar thing about standing water in Nebraska is that it never becomes stagnant. One of these reservoirs was in use last season, furnishing excellent water for stock and during the dryest time had water enough in it to swim a steer. We have no doubt but that in five years this country will be dotted all over with these valuable and not so prove. Republicanism in France picturesque improvements."

SEWARD county is finding artesian me, and they have always looked well to water, it seems, as Platte county has the new president, his administration our people until the recent democratic done. Judging from the editorials of the Frontier, the state of feeling between opposing parties in Holt county is very bitter, and it would not be at all surprising if there should be more bloodshed by mob violence, before the spirit of discord and wrath is quieted. Violence is apt to beget violence in return, and the killing of Scott seems as ganized ostensibly for the enforcement

Every item in regard to the probability of bringing the Scott murderers in Holt county to punishment is read with interest by Nebraskans. The O'Neill Frontier has this in regard to their chief executive officer:

"Sheriff Hamilton is being severely censured for the manner in which he allows the jail to be conducted. Although requested by the state's attorney to permit no one to talk with the prisoners he allows their friends and ispects the freedom of the jail. No kind of business is permitted. But yesdeputy sheriff on his way to the jail. When the prosecution is forced to labor against odds like these it is certainly uphill work."

STATE SENATOR POPE has introduced bill to repeal the depository law, claiming that half a million dollars have been that Saunders county gained \$3,000 a laws, in that it will not enforce itself; but, if rightly enforced, it is all right. We have always believed that Governor Crounse acted too hastily in approving Mosher's bond-hence the trouble.

Ir is estimated that fully \$1,000,000 worth of fuel, clothing, food supplies, priated at the March meeting .- | York | seed grain and cash will pass through the hands of the State Relief commission before it makes its final accounting to SENATOR MORGAN of Alabama gives the secretary of state. In the past sixty

both houses of congress a message on the financial question. He says the real trouble is a widespread and increasing lack of confidence in the continuing ability or disposition of the government to pay its obligation in gold. The only way for the government to obtain gold is by the issue and sale of bonds, and so long as there are currency notes of the government in circulation, for which the gold can be demanded and is demanded. the same notes may do duty many times in drawing gold from the treasury. He gives the large sums that have been drawn from the treasury and adds: they have been expended without any cancellation of government obligations or in any permanent way benefiting our people or improving our pecuniary situation. He insists on a large gold reserve as essential. His opinion is that the secretary of the treasury should be authorized to issue bonds of the government for the purpose of procuring and maintaining a sufficient gold reserve and the redemption and cancellation of United States legal tender and treasury notes issued for the purchase of silver under the law of July 14, 1890; the principal and interest on these bonds should be payable on their face in gold. He

closes his message with an assurance of his anxiety to co-operate with the present. congress in any reasonable measure of relief, and expresses a determination to hope for improving the situation or checking a suspicion of our disinclina-

est honor, every national obligation. Ir would seem that in a state like Nebraska, where the death rate is so low comparatively, mutual life insurance mercial, as soon as the dams now being companies would find a favorable field of constructed, are completed. "A force of operations. The fact is that many thous ands of dollars are sent out of the state annually to keep up life insurance companies in other states, the main items of expense being the large salaries paid to the managing officials. Among the bills introduced in the legislature the present session, there is one for the authorization of mutual life insurance companies. We have not seen a copy of it, but if it i anything like it ought to be, members should lop off any objectionable features. and secure its passage, so that Nebraska may be enabled to keep her money at home and save expense to those who need every dollar they can earn. WRIGHT has contributed to the February Forum an believe that they have found a suitable article entitled "Steps toward Government Control of Railroads" showing how the Chicago Strike has emphasized the need of legislation for the regulation | cific' have—and this may be news "to excepting Jeff. Davis, and he had better we come to them, of all officials, high or kins rendezvous and a few moments which are now going on and which tend Fairhaven coal, mined in Washington, o government control of railroads

Senator Pugit of Alabama presented bill as a remedy for lack of government revenue, which was referred to the finance committee. It provides for the mmediate issue of \$100,000,000 treasury notes redeemable in coin and to be constantly reissued. It further directs the coinage of the seigniorage and the deposit of silver bullion from American

FAVOR FOREIGN GOODS.

Railroad Freight Rates That Discrimina Against American Manufacturers The Association of Tin Plate Manufacturers have published a statement regarding the foreign competition with their business. Probably its most important feature is the table of freight rates on tin plate, which shows that foreign tin plate is carried from New York, Philadelphia or Baltimore to our interior markets at a rate considerably cheaper than that at which the railroads will carry American tin plate from the American manufacturing centers to the different consuming mækets. The bitter fight and the strenuous op-

position against the American tin plate

industry that have been made by the

foreign manufacturers of tin plate and

their active coadjutors in this country have reduced the cost of tin plate to

THE President on Monday sent to very narrow margin of profit to our producer, and which has checked to a very great extent the importation of the foreign article and caused the shutting

down of the foreign factories. The reduction on tin plate under the Gorman tariff was made, as is well known, at the instance and for the benefit of the tin plate manufacturers in Wales and for the English transatlantic transportation companies. The existing rate of duty is not so low as these foreign friends of the present free trade Aministration had anticipated and does not give them such absolute control of the American tin plate market as they had hoped for. It would appear, therefore, that the

American transcontinental railroad companies have been called upon to contribute their mite in support of this lement of foreign trade by giving to foreign tin plate a freight rate that discriminates against American made tin plate in reaching the consuming market. Adding this concession by the railroads to the concession made by the Gorman tariff bill, the Welsh manufacturers secure double advantage over the American tin plate makers, an advantage that may secure for them absolute control of our tin plate trade. It is not stated in the report of the

Association of Tin Plate Manufacturers what railroads quote this particularly low rate of freight on the foreign tin plate, while charging a higher freight rate on the American article. This is a point that we should like to know. That it is done, however, does not surprise us so very much when we recollect that large blocks of stock in certain American railroad companies are held and controlled by English capitalists, which, therefore, would naturally seek to serve English manufacturing interests. This is a subject of much deeper significance than appears at first sight, and one that will bear further investigation.

No Free Ships. Not less than \$4,500,000,000, or an annual average of \$150,000,000 a year during 30 years past, has been paid out to foreign ships for ocean transportation. Is it any wonder that we are called upon to export gold to Europe? We can stop doing this by building up the American mercantile marine, by carrying our own freight and paying our own gold to our own shipowners.

Call the Roll. Missing, missing, 6 my soul! Mark the missing, call the roll. 'Mr. Outhwaite of Ohio!" Wraithly voices answer, "Hence," And the tomcat squalls "Mariah" Up and down the alley fence. Fateful ides of drear November Long will Democrats remember "Tom L. Johnson!" At the call

FOREIGN COAL FOR WARSHIPS. Although American Coal Is Satisfac Used on Merchantmen.

British coal, mined by Chinese labor, has been purchased for the use of American warships on the Pacific coast, instead of American coal, and since the exposure an apology has emanated from Washington where "the naval engineers coal for the marine furnaces of steamers in the Pacific." They have certainly been a long time discovering it. The owners "of steamers in the Pa-

with every degree of satisfaction and success. The steamship owners were patriotic enough to be satisfied with American coal, mined by American miners in American mines. They had no complaints to make "that it burned out the furnaces and caused dense black smoke. This was left for "the naval engineers" to do. We are sorry for the British coal mine owners and for their "Chinese laborers;" but, though long delayed, this symptom of reform in the United States naval department will be welcomed by Americans who have American interests at heart.

WANT RECIPROCITY

A MOVEMENT ON FOOT TO EXTEND OUR FOREIGN TRADE.

Organize For Their Mutual Benefit and

There is a movement on foot toward the establishment of expositions of American manufactures, under American auspices, in the South American republics. The following correspondence, published in the Cincinnati Commercial Gazette, bears upon the sub-

MANUFACTURERS' ASSOCIATION, CINCINNATI, Oct. 25. Thomas P. Egan, Esq. :

DEAR SIR-Noting your communication of his day addressed to the editor of The Comnercial Gazette, it occurs to me that this is association should undertake to accomplish, and, as you are a member of that association, if you agree with me, I will convene an early neeting of the executive committee to consul with you and any others who may be interest ed in the proposal you put forward for the purpose of taking practical steps toward its plishment. Yours truly, W. T. PERKINS, President.

Manufacturers' Association of Cincinnati and Hamilton County, Mr. W. T. Perkins, Presi-dent, Cincinnati:

DEAR SIR-Your favor of the 25th is at hand noticing an article published in the Cincinnati Commercial Gazette in regard to a meeting of the manufacturers of the United States who export their goods and are looking for that trade. The plan is to organize the manufacturers of the United States into a compact body, so that there will be some organization The interest of the manufacturers is the advancement of their trade with all the nations o the earth, and we expect to accomplish the fol

owing: First.—The renewal of the reciprocity trea ies between the United States and all foreign countries, which treaties were rescinded by the recent Wilson, or Gorman, tariff bill. Second.—To hold world's fairs, or United States expositions, in the capital of each South American country, the first exposition to be held in the City of Mexico not later than 1897. Third.—To devise ways and means to better and facilitate trade with our South American cousins. These, of course, are only some of the points to be taken up. Your Manufactur ers' association being an organized local body and right in line for handling this busines and being a member of your organization, I thought best to submit the matter to you and suggest that your organization call a special meeting of the manufacturers, so as to start

Part of this plan-viz, the holding of a Mexian exposition under the patronage of Presi-lent Diaz—originated with Dixie of Atlanta, and a committee of manufacturers of Cincin nati, who decided that, as Cincinnati is very central and easily gotten to from north, south, east and west, the convention be held there Awaiting your further pleasure, I remain, yours truly, THOMAS P. EGAN, yours truly, President J. A. Fay & Egan Company, Cincin

A meeting has been called for early in January, particulars of which may arned from Hon W T. Perkins Cincinnati.
