## IT LOOKS BAD FOR DURRANT. Damaging Testimony Introduced to Show

He Murdered Blanche Lamont. San Francisco, May 4.—The preliminary examination in the case of Theodore Durrant, charged with the murder of Planche Lamont in Emanuel church, was damaging to the defendant. Some new and startling evidence was introduced, and still further connecting Durrant with the crime. A. Oppelheimer, a second hand dealer, testified that between April 4 and April 10 Durrant had offered for sale a lady's diamond ring. The witness was shown three rings. He positively identified one among them as the one offered by Durrant. The ring was one of three returned to Blanche Lamont's aunt wrapped in a newspaper the day before Marian William's body was found. When Oppenheimer identified this ring Durrant started violently, turned pale and exhibited more uneasiness than at any time since his ar-

The defendant's counsel vainly tried to break down this witness' testimony and that of three other witnesses who repeated the evidence given by them at the inquest on Wednesday. These were Martin Quinlan, the attorney who saw vard. Durrant and a girl resembling Blanche approaching Emanuel church at 4:30 p. m, on April 4, David Clark, who corroborated Quinlan's statement of his whereabouts on that day, and the janitor of Emanuel church, who testified that there was no defects in the gas on April 3, and therefore no reason why Durrant should have been fixing the gas pipe at the roof on that afternoon. The janitor's evidence was for the purpose of discrediting Durrant's explanation to Organist King of his appearance when he came down pale, sick and weak, as the prosecution maintains from the belfry where he had just murdered Blanche Lamont.

KILRAIN KNOCKED OUT.

He Faces Steve O'Donnel For Twenty One Rounds CONEY ISLAND, May 8.-Since God-**Cast** and Maher fought here in December, 1892, there has not been a heavy-.. eight contest brought off in the vicinity of New York. The fact that Jake Kilrain of Baltimore and Steve O'Donnel of Australia, were to meet here Monday night at catch weights in a 25-round go, naturally attracted a large crowd of sports, as every person who had an opportunity was anxious to see these heavyweights prove which was the better man, after the very unsatisfactory 10-round draw which they

fought a short time ago in Boston. Twenty-one lively rounds were fought, but in the 24th the big Baltimorean was unable to come to the center and O'Donnel was awarded the decision. After the bout was finished Charley Johnson said he would bet \$10,000 that

the Speakers. CHICAGO, May 5.—The county Demo cratic convention held here today preparatory to the Democratic state monetary convention, to be held in June, developed into a hot anti-Cleveland gathering. The president was denounced and repudiated amid the wild applause of the delegates. Ex-Judge McConnell delivered a lengthy address, in which he declared that the president, elected by Democrats, had become the prophet and standard bearer of anything but the true Democracy.

Ex-Congressman Bryan of Nebraska roundly scored the administration, and other speakers did the same. Out of the 700 delegates to the convention, only about 350 were present.

Governor Morrill Arrested. TOPEKA, May 8.-Governor Morrill was arrested on the charge of obtaining money under false pretenses This is the statement of Walters & Walters, attorneys, who are preparing the papers which will be signed by Warden Chase of the state penitentiary. TORNADO IN IOWA.

OR DYING. Victims of the Great Cyclone Are Buried

During a Teprible Storm at Alton-Forty Farmers Homeless and Ruined-Appeals Have Eeen Sent Out to Adjoining Cities-

SIOUX CITY, May 7.—Order is coming out of the chaos in the narrow district of Sioux county, which was swept by the tornado on Friday afternocn. Prompt aid has made the survivors of the devastated country as comfortable as possible; nearly all the dead are now

This storm, widespread as it was, appears to have been a true cyclone in some places, and in other parts of its territory partook more of the nature of a tornado, and in others, even where the damage was considerable, was not more than a high wind, with severe hail and for 12 or 15 miles in Sioux county. The | hence the suit. same storm, or another one, touched at Sibley and did great damage there. In South Dakota, even where there was severe destruction, there appears to have been no real cyclone, with the swirling funnel-shaped clouds. The

Sioux county cyclone appears to have originated near Ireton and to have traveled northeast to a point on the Sioux one-half miles north of Sioux Center. Then it took a course of an elongated letter "S," crossing the track twice and for two miles it seems to have followed straight up the track of this railway, where it struck the town of Perkins from the southest, and those who saw it there believed it rose or was dissipated at that point, but it is possible the same awful cloud continued its

The Journal's staff reporter, who went all over the ground swept by the the mails for purposes similar to a lotstorm, says \$10,000 will cover the property damage, including houses, outbuildings and fences. In few places are the crops seriously damaged, for grain was not up far enough to be killed or lodged by the wind, and the permanent injury in the fields was by the plastering of mud which they received. This "mud shower" was a prominent part of the phenomenal storm, but it seems the power of the wind simply scooped up the black, wet earth from the surface in several places and distributed it

over other fields. The correct list of dead numbers 20, as has already been stated. None have died since Saturday. About 40 persons money. Officials of Sioux county, however, say it is not needed; that all have been properly cared for, and that the people of the neighborhood are well able to do it. In the whole country traversed by the tornado but three farmers were renters, all the rest were well to do and some wealth.

Important Question Raised by the Ex-

Treasurer's Counsel. LINCOLN, May 4.- The state rested at noon Thursday in the case against ex-State Treasurer Hill and his bondsmen, and at the afternoon session the defense attempted to introduce as evidence the \$700,000 bond of the Capital National bank, given when it was made a state depository. This was resisted by Judge Wakeley for the state. The defense, by Attorney John H. Ames. claimed there was no decision in any case similar to this where a state treasurer has been held liable for placing money in a bank. Judge Wakeley urged that there was a precedent in Cedar county, in this state, in which Judge Savage had held that a county treasurer had a right to receive certificates of deposit from his predecessor, but that this very supreme court had reversed that holding.

The testimony was dry as to detail, but some points of more than general interest were developed. These were in relation to the actual condition of the affairs of the bank, the amounts which have been realized from the assets and which it is estimated by the receiver may yet be realized. This was brought out in the examination of Receiver K. K. Hayden. There has been collected by the receiver a total of \$394,000, of which amounts \$185,000 went to the preferred creditors and \$209,000 to expenses and ordinary claimants. It is estimated by the receiver that there may be collected yet about \$200,000 and none of that will have to go to preferred

Has The Herald forgotten that under its free trade administration two loans, amounting in the aggregate to \$100,-000,000, have been floated? How, then, will what it is pleased to term "a popular loan" relieve the situation? As long as the administration of this country remains in the hands of men utterly incompetent to properly fulfill their duties from an American standpoint, these men having been elected partly through the agency of The Herald; as long as these incompetents maintain a tariff treasury, no matter whether raised by

The Herald seems to think that money raised and placed in the treasury by what it is pleased to term "a popular loan" will stay in the treasury. We should like to know by what process of reasoning it arrives at this conclusion and what sacred, preservative halo can be encircled around gold that is collected even by a Herald's "popular loan." It must be that its overindulgence in its present diet of crow has caused The Herald to become dyspeptic, though it still retains some symptom of sound di-
