COWBOYS ARE HEAVILY ARMED

An Engagement Between 50 of Them and Nine Sheep Herders Near Elkhead. WOLCOTT, Colo., June 11.—News has been received here of an encounter between 50 cattlemen and nine Mexican sheep herders near Elkhead, about 125 miles north of here. The array was bloodless, except that Jose Annerot received a slight wound in his left arm m a cowboy's rifle. The flock comprised about 2,000 sheep and was being driven along carelessly. The Mexicans were poorly armed and made no attempt at resistance. As soon as Jose was wounded the rest took to their heels and fled to the hills, leaving the sheep to their fate. The cattlemen finally induced them to return and the sheep are now across the line in Wyoming, from which state they came. The Mexicans swore they would not atbempt to enter Colorado again. The body of cattlemen who drove this flock came from Wolcott and surrounding towns and they are now on their way

Nothing has been heard from the detachment of 300 cattlemen which left Hayden for California park. It is thought here that Edwards and his followers are encamped, guarding a flock of sheep estimated from 60,000 to 100,000. Nothing definite is known as to his force, but all sorts of rumors are in circulation. The one which gives

the cattlemen the greatest ill feeling is that there are 150 Pinkertons with him. "I do not believe in bloodshed," said an old ranchman, "but if Edwards attempts to ruin our grazing ground by driving his sheep to Wolcott, he and his entire force should be annihilated." If Edwards has the Pinkerton men. annihilation will probably be the result, as the cowboys who have gone to the front are determined and carry Win-

LONDON, June 10.-A special dispatch from Shanghai says it is almost certain that a massacre of all the persons connected with English, French and American missions at Chengtu has occurred. Neither men, women or children have been spared. It is admitted that telegrams have been intercepted by the government, the object being to conceal the news of the massacre. A French gunboat is enroute to Wuen Chang to investigate the report.

SHANGHAI, June 11 .- The report of the total destruction of the missions of Changtu, Kialing and Xoachohu has been confirmed. The local officials refused protection to the missionaries until the mob completed the work of demolishing the buildings. The mission stations at other places have been threatened. About 20 adults, besides a number of children have taken refuge at Chengtu and Yamen. Vicery Lin is blamed for the affair.

GREAT RELAY RACE ENDED. All Previous Records For Long Distance Relay Races Broken.

New York, June 9.—The greatest exnibition of long distance riding in the history of cycling between Chicago and this city terminated at 1:56 a. m. at the junction of Sixtieth street and the boulevard. The great race, which required a great deal of careful preparation, started from Chicago Wednesday morning at 9 o'clock, and was to cover 1,000 miles intervening between that city and New York. The record has been broken and the distance covered by 6 hours and 47 minutes better time. In organizing this relay a departure was made by a distinction in the colors worn by the riders. The military was represented by blue and postal service by red. The race would have been entirely devoid of the military features which rendered it so

popular if it had not been for the action of Major General Nelson A. Miles. The riders in their distinguishing colors bore messages which were delivered on arrival. Mr. McMad, Postmaster Dayton's private secretary, received the message by the red forwarded by Postmaster Hesing of Chicago, and represented the postoffice department, and 47 minutes later General Miles received from both. Despondency is given as from the blue the message from General

Merritt. The run through the Syracuse district was made more interesting by

the offer of a prize for the best time ALL THE MISSIONARIES AT CHENGTU through that section, which was won by the red.

FILLED WITH BULLETS.

Tragedy at Omaha Surrounded by Sus picious Circumstances.
OMAHA, June 10.—About 7:30 Sunday evening W. H. Chappell was shot and instantly killed at the home of James Ish in this city. He had sold the family a sewing machine, and had been summoned several times to fix it, and was sent for Saturday. He came Sunday evening instead, and, according to the story told by Mrs. Ish, attempted to ravish her while her husband was in another part of the house. She claims that when she screamed Chappell drew his revolver, but that she grabbed it from his hand and commenced shooting at him. Her husband rushed into the room, revolver in hand, and Mrs. Ish says she grabbed that revolver also and continued the shooting. In all nine shots were fired, four of which struck Chappell. Mrs. Ish was placed in custody, but later developments seem to indicate that it is likely the woman's husband did the shooting, and that the outrage story was told to screen him. Letters found on the person of the dead man show conclusively that he and Mrs.

Ish had been unduly intimate. Ish has confessed shat he did the shooting, having caught them in a comomising position.

JACKS AND JENNIES.

The Owners of Mules Suffer Through De preciation of Stock. Farmers who own jacks and jennies will be interested in a study of the gov- congress that it helped to elect, and ernment mule report which was issued which it had predicted would bring by the department of agriculture last peace, plenty and prosperity to our peomonth. There were 2,333,108 mules in ple and country. Yet the same sheet the United States at the beginning of will be clamoring next year for more 1895, as compared with 2,314,699 mules "scourge." in January, 1892, showing an increase of 18,409 mules within three years. This is a gain of less than 1 per cent, and so small that it should not in any way affect the price of mules. But comparing further the value of mules on the farm we find it to have been as follows:

It seems that mules which were worth favorable weather and selling on the "tip" \$75.55 each at the beginning of 1893 in that the government report would show a the time of McKinley protection were while corn lost %c and oats %c, provisions finworth only \$47.55 a head at the begin- | tshing with but little change. ning of the present year under Gorman free trade, the loss to farmers and others being \$28 upon each and every mule which they owned. Applying these average values to the total number of mules, we get at the entire values at

each period as follows:

Farmers, teamsters and mule owners generally can see that they have lost almost \$64,000,000 through the depreciation in the value of mules since our good protection times, when the McKin-Hogs—Becelpts, 1,000 head; light, \$4.25@4.45; MY MAMMOTH BLACK JACK good protection times, when the McKintle extraordinary, because under the 5 to 10c higher. demand for all American products from the markets of the world that were to be opened to us as soon as the McKinley tariff was abolished. Unfortunately this seems to be another instance where foreign buyers have failed to keep their part of the agreement that was promised

for them by our free trade falsifiers. That French Lobby's Work. Our exports from France have been increasing since our new tariff went into effect, and in January there was "extraordinary activity in the exports of all textiles." The value of the silk goods shipped increased from £606,800 in January, 1893, to £944,800 in January. 1894, an increase of \$1,690,000. Of French woolen goods the exports were Omaha and Chicago. Please note that \$1,700,000 larger this January than in all of the "Short Line" trains arrive in French woolen goods the exports were 1893, of cotton goods they were \$582. Chicago in ample time to connect with 000 large, of linen goods they increased | the express trains of all the great through from \$67,000 up to \$180,500, and of jute stuffs from \$48,000 in January, 1893, up to \$78,000 in January, 1894. Much of the silks and woolens came to the United States, a fact that American labor in our silk and woolen factories will be interested to learn.

Potatoes and Protection Under the McKinley tariff the duty on foreign potatoes was 25 cents per bushel, but the Gormandizing tariff reduced it to 15 cents per bushel, a reduction of 89.99 per cent. The result since the 40 per cent rent in our wall of protection has been to check the sale of
