Colorano republicans have elected three women as delegates to the republican league convention at Cleveland. Ohio, next week. There will also be women as delegates from Wyoming and other western states and one from New York. In the west the women have shown themselves good politicians, wise legislators, and good debaters. It is something of a novelty to have them as delegates to national political conventions, but Mrs. J. There is an element among them that is not satisfied with letting well enough alone, and wish to add banking privileges to those granted by the state. The state league, however, opposed this, saying that building associations are the poor man's investment company, and that wealthy speculators have no place in them; that the payment of small sums monthly is extremely beneficial and encouraging to the working man but offers no inducement whatever to the wealthy. The defeat of the measure will hold the associations to their legitimate work of co-opperation.

ROSEBERY RESIGNS.

SALISBURY HAS BEEN SUMMONED TO MEET THE QUEEN.

LONDON, June 24 .- It is officially ansounced that the Rosebery government has resigned. Lord Salisbury has been moned by the queen to form a ministry, and his cabinet will proceed with the routine business of the house, obtain provisional supplies and then dissolve parliament. It is expected that the elections will take place July 10.

was manifested among public men here in the information that Lord Rosebery's retirement had been consummated, and that the queen had sent for Lord Salisbury to form a Conservative ministry. Naturally the first consideration among public men was as to the influence which the change would exert upon the numerous important pending questions be-tween the United States and Great Britain. Most of these questions had their inception during the former Salisbury ministry and have proceeded in one form or another under the Rosebery regime. Senator Morgan of Alabama chairman of the senate committee on forign relations, was asked as to the may furnish China's indemnity payeffect of the change upon some of the diplomatic matters now under consideration. To that end his first arrangements with Mr. Bayard were thoroughly satisfactory, but Canada stepped in the way and it was impossible to execute his broad and liberal policy. Under the Rosebury ministry Canada has had a controlling influence in all Bering sea affairs. The Canadian policy is due to a desire to gain favor with the people in the Canadian province on the Pacific without much reference to the

MADRID, June 23.—The Madrid press is publishing inflammatory statements as to the reported demand of the United States for the settlement of the Mora claim. Madrid newspapers say editorially that President Cleveland's recent proclamation against Cuban filibustering in the United States was to be followed by a payment of the Spanish government of the Mora claim. The papers take the position that under this understanding the United States authorities will not exert themselves to carry out the president's proclamation by a suspension of filibustering until Spain has actually paid the claim.
