**BUTCHERED WOMEN AND CHILDREN** Revolting Crime Committed by Spanish

Tampa, Nov. 22.—Colonel Fernando Figuerdo, the Cuban leader of this city. is in receipt of a letter from Havana giving details of atrocities which were committed by Spaniards in Matanzas rovince. Colonel Melino, who commands a Spanish regiment, recently enountered the advance guard of Gomes in Matanzas, and was defeated. While oldiers under Melino were in retreat they met a group of women and children near a little town called Cayopino. As the soldiers passed one of the women made a sneering remark about the Spaniards. The remark was overheard by the soldiers, and so enraged them that they fell upon the women and children and butchered every one of them. There were 10 women and about a dozen children in the group. The letter says that the Spaniards, after shooting down their victims, stabbed them with bayonets,inflicting the most horrible wounds. One baby was killed at its mother's breast. and the bullet that passed through the infant also passed through the mother. Colonel Melino made no report of the butchery, but it happened that two of the women murdered were wives of Spaniards engaged in the sawmill business in Matanzas. When the husbands learned how their loved ones had been slaughtered they went to Martines de Campos, informing him of the horrible affair, and demanding that Colonel Mel-ino be punished. It is said that General Campos has ordered that Melino be court martialed, and it is thought the butcher will be sentenced to death, as the massacre is condemned as bitterly

by Spaniards as by Cubans. BURNED THE QUEEN ALIVE. China Comes Forward With a Tale of Revolting Japanese Cruelty.

VANCOUVER, Nov. 22.—Chinese papers received here by the steamer Empress of China are bitter in their attacks on the Japanese authorities in Corea, whom they blame for the murder of the queen. They assert that Japan is a nation pretending to be civilized, but is the most barbarous on earth. The queen was hung up by the hair, and after being otherwise abused, tied hand and foot, soaked in oil and burned in the rear of the palace, her remains being reduced to ashes that all trace might be lost. Thirty attendants of the queen, it is alleged, were butchered, their corpses being left about the palace. When the palace was attacked, with some 1,500 guards on duty, only six remained at their posts, and they were quickly disnatched. According to Chinese reports there were 15 women of title in the court, the queen, her mother and 130 ladies in waiting. They were nearly all soaked in oil and burned, while the men's throats were cut.
