LAMBORN, a widower, a farmer 84 years old, highly respected, was most brutally murdered Tuesday night of last week at Fall Lake, Kansas.

An article in the Ponca Gazette calls the attention of republicans to a plan of their political opponents in this district, viz., to nominate for congress, to be supported by democrats and populists, J. S. Robinson, of Madison, Senator Allen's old law partner, and suggests that the republicans should not "look to the personal ambitions of favorite sons, but keep an eye single to the best interests of the whole district and lend their support in the convention to the man who will make the strongest candidate for the whole district."

How Rosewater will spout when Col. Hammond goes marching to congress.

The Quill editor says that it is not possible for a gold bug and a free coinage democrat to harmonize.

He is a candidate for congress in the Sixth district, but whatever they may have been he has kept them very well to himself until this time.

One of the questions that is to be determined in the present presidential canvass, at least on the republican side, is what is the political statute in limitations for the announcement of the candidacy of a presidential aspirant?

The recent McKinley state club meeting at Lincoln declared that four months before the date of the republican national convention was too late for the entry of a favorite son or dark horse.

Precedent does not seem to sustain this position. The entry of Garfield was not even dreamed of before the balloting was begun in the convention of 1880.

In 1892 McKinley himself came into the campaign within an hour of the opening of the very fact that is now trying to draw the line against all new-comers.

CHIEF MOORE of the weather bureau at Washington has this to say: "The black snow that has lately fallen in Chicago and the Northwest is entirely similar to the great fall of January, 1880, the nature of which was thoroughly investigated by the weather bureau at that time."

Notwithstanding the theoretical suggestion that the black deposit of last January might have come from beyond the earth and might be meteoric or cometic, or might even be the volcanic dust from Alaska or Japan, careful investigation showed that it was due to none of these causes.

The black deposit contained about 4 per cent of the most delicate organic structures (such as diatoms and spores), and about 6 per cent of the finest possible inorganic matter, such as makes up the fine silt and clay soils.

"All this fine material is easily caught up by the dry winds whenever they exceed twenty miles per hour, and is carried to great distances before it has time and opportunity to settle on the ground."

Of the Nebraska republican editors who sent in to the Chicago Tribune their preference for presidential candidate, as per request of that paper, one for Cullom of Illinois, two for Reed of Maine, five for Allison of Iowa, and seventy-three for McKinley.

Borin of Kansas City, the speaker for the defenders of day exercises, which was observed by the delegates.

FATHER LYNN DIES. HASTINGS, Neb., Feb. 22.—George Lynn died after a short illness. He came to this city in 1887 and soon became identified with the Independent party in politics, and for the last five years has been at work putting down so much of a factor, had he become that of what is called Father Lynn. He was 74 years of age.

BILL NYE NO MORE.

FAMOUS HUMORIST PASSES AWAY AT HIS HOME NEAR ASHEVILLE.

Wen His Early Phase on the Laramie Boomerang and His Later Career Rich in Humorous Remarks.

ASHEVILLE, N. C., Feb. 23.—"Bill" Nye died at his home, Buck Shoals, eight miles from here, this afternoon.

Tuesday night the stroke came, and two physicians from Asheville were summoned to his bedside, and were with him until he died.

Edgar Wilson Nye, or "Bill" Nye, as he is much better known to his friends and the public, was born in Shirley, Piscaqua county, N. C., Aug. 25, 1856, but at the age of 3 years moved to Wyoming Territory, where he studied law and was admitted to the bar.

There, as he says, he practiced law in a quiet way, "although frequently warned by the authorities not to do so."

He has a long list of humorous remarks, which he used in writing a Sunday letter for the Cheyenne Sun at the rate of \$1 a column.

FITZSIMMONS IS NOW THE HEAVY-WEIGHT PUGILIST.

The Australian Fight on the Sand Old Game. Leading His Opponent Out, Then Knocking a Lightning Right Hand Swing on the Jaw—Fighting on Heron Sand.

LAURET, Tex., Feb. 22.—Peter Maher was knocked out by Bob Fitzsimmons yesterday in the first round, after 1 minute and 35 seconds of actual fighting.

Fitzsimmons played the same old game he has so often played before, leading on his opponent until he had him where he wanted him and then landed a lightning right hand swing on the jaw and it was over.

The train arrived here at about 3:30 p. m. in the afternoon and over a rocky road winding about the precipitous cliffs along the Rio Grande the crowd wended its way to the sand beach of the river.
