A New Bleycle Skirt. A bicycle skirt of very novel design was shown at the recent Stanley show in London. It is adapted either to walking or 'eyeling as seen. It fastens and unfastens down the front and back with a double row of buttons, so that these can be united to form a skirt, or buttoned around each leg as a rational garment when one is on the machine, but this fastening is not then apparent, and the material falls most gracefully on either side. It shows off to great perfection with the convertible jacket bodice, leg capable of assuming many guises, each one singularly becoming to the figure. It displays a waistcoat of light blue or some distinguishing color when employed with the new bicycling skirt. - Boston Times.

The Lord Had Not Done It.

Rev. Samuel F. Pearson of Portland, Me., was a witness at a divorce trial before the Cumberland supreme court Saturday afternoon, testifying for the "Mr. Pearson, were you on this

bench in my place and acquainted with all the circumstances of this case, would you grant this divorce?" asked Judge Strout. 'Most certainly, your honor," replied the minister.

"But how do you reconcile this statement with the injunction 'What God hath joined together let no man put "Your honor, I am satisfied that the

Lord never joined this couple," replied

the clergyman. During these months of extraordinary unrest in foreign politics, the Review of Reviews devotes its attention in large measure to international affairs. Its editorial department discusses matters in South Africa, the attitude of the great European powers, and the most recent phases of the movement among the nations for the arbitration of disputes; the March number also contains a most timely article on "The Government of France and Its Coubertin; "A Review of Canadian

The life speaks lowdest when the tengue

With a better understanding of the transient nature of the many physical ills, which vanish before proper ef-forts—gentle efforts—pleasant efforts— further as to just what the conditions this fact more clearly! How often corn rightly directed. There is comfort in were. We would like to have our read the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs. promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sol? by ruary 1st to 18th. During the month all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the fair show. They number about forty well-informed everywhere, Syrup of and are kept in a little house less than Figs stands highest and is most largely used and gives most general satisfaction.

"IT WILL NOT RUB OFF. in better quarters next winter. Mrs. Martha Fraley, Brown County, Kansas.-Up to the first of February I only lasts till the truth comes out.

NTERESTING CHAPTERS FOR OUR RURAL READERS.

How fuccessful Farmers Operate This the hens. We hope to hear more from Pepartment of the Farm-A Fow and Poultry

AST week a manufacturer of filled cheese, whose factories are in Northern Illinois, appeared before the ways and means committee in Washington and made a lengthy argument in favor of his product. His state-

ments were very transparent. He said that the filled cheese industry did injure the dairy business on the contrary, it stimulated it. Now this is a very bold statement. Filled cheese has not injured the dairy business! Indeed! More than 40 per cent of our cheese trade with England has been lost within the last few.years, principally because this misrable stuff was sent over there and sold for full cream. In the mountime Canda has increased her sales in England 400 per cent because she has a law that will not permit filled cheese to be sold at all or manufactured. He says also that the manufacturer

of filled cheese has made it possible for the farmer to get much more for statement also is not true. The price dred, and not higher than 15 or 16, we are informed. This is less than skim- the safest and surest way. For cholera vided into two parts. During the first and poultry.

Truck Farming Land Values.

It is quite interesting to note the

values of land as affected by the truck

gardens. At the time of the last gen-

eral census there were in the United

States something over half a million

acres of land devoted to market gar-

dening, or, in common parlance, truck

farming. More than half of all the

areas devoted to this branch of farm-

ing are found along the Atlantic sea-

board. They have been divided, ac-

cording to their great centers, into five

chief districts. These are called the

New York and Philadelphia, the Penin-

sular, Baltimore, Norfolk, South At-

lantic. The value of land varies great-

It will take citizens were confined there before their celebrated family of that name. In revenge for the execution of Major Andre Haynes was led out from prison and suffered the death penalty by order of Col. Balfour, then in command, without the formality of a trial. In 1790, when Gen. Washington visited Charleston, it was in the same old building that he was entertained and a splendid ball was given in his honor by the wealthy planters of the state, co-operating with the town people. With such historic associations surrounding it our people naturally take a deep interest in their old postoffice, and the idea is to keep it in its original condition

> The Most Remarkable Songster Amazonian Forest.

The banks of the streams in the vicinity of St. Paul's, in the Upper Amazons, in South America, are dotted with palm-thatched dwellings of the Indians, all half buried in the leafy wilderness, the scattered families having chosen the coolest and shadiest nooks for their abodes. The traveler frequently hears in the neighborhood of these huts the organ bird, the most remarkable songster by far of the Amazonian forests. When its singular notes strike the ear for the first time, the impression cannot be resisted that they are sumption far and wide.—Mrs. Mulligan, produced by a human voice. Some Plumstead, Kent, England, Nov. 8, 1895. boy must be gathering fruit a flageolet, and the traveler is almost that instrument in the primeval forests. However closely he may scan the neighboring thicket, no bird appears, although the voice seems to be that of some one pear at hand.
